Look at Senator Mitchell, sitting in the nation of Kanfiman. Senate as a represenative of his state, who ought to be equal in influence to his associate, but finding that the whole political power of the senatorial position for the wicked. is grasped by Cameron. What has he to lose by revolt? As long as there was a chance of his losing anything he was quiet; but when it became perfectly clear that he was entirely ignored by the Republican administration, selfrespect and policy both required that he strength at all would not submit to being slighted. He would necessarily require that he should be treated by the president with the like consideration that was bestowed upon his colleague. And if he not only failed to receive this, but found his voice entirely impotent with the administration, he would take the opportunity, if it was afforded him, of showing that he could not be kicked around like an old shoe. In this case Senator Mitchell happened to have behind him a constituency, respectable in quantity and quality, who were treated as he was. He was a representative man; and he only shows himself to be a man by stepping out to the head of his ill-treated constituency

self defense. Senator Mitchell has acted with much forbearance so far, but there is no need to suppose that any influence but that of his own sense of what was due to his position has prompted him to the decided and emphatic action he has taken. this state shows no signs of healing, and by Blaine. Unquestionably the revolt against Oliver's election was stiffened by encouragement from Blaine, if not by assurances on the part of Garfield, and if Blaine or any other factor in national politics interferes, openly or secretly, in the Independent movement here, it takes on a larger than local interest and forebodes that disintegration of the party at large, which has been looked for so many years. The assurances of support, which Mr. Mitchell is reported to be receiving from part of the state, india large following for him, those who have linked their fortunes in the Independent leadership. If to this circumstance shall be added the threatened declination of Tom Marshall, the Cameron cause will be in a bad way, sure enough. Without Marshall the ticket will be exceedingly weak in the West, and the offensive methods of its nomination have aroused an opposition to it in the other portions of the state, which no personal popularity of its nominees can possibly overcome. Nor can either party to the present factional issue recede from its position without defeat and disgrace. The day for compromise came and waited on the day for concession. The convention was hardly adjourned until the Independents saw that the pretext of having had more than half the ticket conceded to them was a platform were "hollow, hollow, hollow." Only the stupid were deceived, and the cause is just as strong without them. The fight against Cameronism and Stalwartism may as well be fought out in Pennsylvania, for nowhere are their men and methods more obnoxious.

The Apparent Strike.

The iron workers of Cleveland, numbering five thousand, have ceased to work, and twenty-five hundred coal miners in that region declare that they will do the same if their demand for an increase of wages is not complied with. There is an apprehension that the meeting of the Iron Workers' association at Pittsburgh on Saturday will result in a strike there. The Philadelphia rolling mills, having reduced their card rate for iron to two and six-tenths cents per pound, it is feared that the employees there will refuse to consent to the reduction in their wages, which they have heretofore agreed that a reduction in the price of iron should bring about.

These strikes and rumors of strikes a this time are unnatural, because there is no apparent reason for them. The workmen are being well paid and the manufacturers are working at very close prices. The profits of manufacture being small and the demand light it is certainly far more against the interest of the workman than of the employer that manufacture should stop. A demand for higher wages, when business is slack, is not justified by good sense. We do not consider it, therefore, likely that a strike will be promoted by the workingmen's Augusta factory and of the First National unions. THE tone of the Republican press in Ohio and Iowa is extremely despondent, and the newspapers declare that the recent sumptuary legislation in those states, which was conceived and excuted in the hope of catching the "religious" vote, has not only failed of that purpose by reason of the quick intelligence of the people seeing through the transparent veil with which it was hoped to conceal an unworthy make shift, but has actually alienated the large German vote, together with a considerable proportion of other decent and shrewd people. Heretofore the Germans of the West, except on merely local issues, have voted almost solidly together at Waterbury, Conn.; the former with the Republican party; now their own newspapers declare that their strength will be transferred to the Democratic ticket in the approrching elections. To hear the Republican organs preach of the moral courage exhibited by their party in New York wife, who lives on Bleeker enacting these laws that have recoiled so disastrously upon their framers is amusing and does not call for serious consideration. Persons with ordinary perception could not fail to see in the blundering devices of the Western law-makers another sham, and that the professions of the frantic gasp by the party of expediency to maintain its fast waning powder, who in this instance seem to be hoist by their own petard.

It will probably be a surprise to a good many people to know that Judge Taylor, the chairman of our special committee, put in a bill to cover a few dollars expense in going from his home at Warren, Ohio (not a great ways from Mentor), to Cleveland, and that Speaker Keifer likewise put in a bill of expenses in going to Cleveland from his home at Springfield. I could also mention names of members who put in bills for railroad fare, when as a matter of fact they rode on annual passes. There is a mine in some of the bills for the newspapers to work, and I hope, as a warning for future statesmen, that they will continue to demand the bills, until the pressure becomes so great that the House will be forced to order them made public."

Cheering Messages From Over The State

If anybody could have any doubts as to the genuineness of the Independent boom in Pennsylvania such doubts might be set and from representative men of every county. They come by hundreds. Since the convention every mail is burdened with the evidence that the junior senator has struck the popular chord. Every letter breathes the spirit of self-congratulation that in this movement of political reform a senator from Pennsylvania has risen to the demands of popular leadership. They are congratulatory, suggestive, con demnatory of bossism and full of patriotic fire. By request the Times correspondent was shown some of these letters taken at andom from the hundreds recently reeived and permitted to get brief extracts. In no other way could the diverse ideas of representative people of Pennsylvania

be better presented, perhaps, than in the following excepts. Here is what an Independent member of last year's Legislature elegraphs: "Your first order is glorious. Now to the people. Bossism is doomed. From a letter received to day from a prominent Philadelphia Republican and member of the Union Leage: "I was so from a prominent member of the gation clear of debt. The elimination of the only important clause from the conference resolutions, the one relating to representation, leaves Cameron n possession of all the minority counties, and with the assistance of his few lieutenants in Republican circles, he is able to control the conventions. I was in the convention on Tuesday." Speaking of a delegate in the convention the writer says 'I know his sentiments, which are anti-Cameron, but he dare not assert his preferences, he being the postmaster of —; dare not, or off would go his head. He is a young man just beginning in life, and his circumstances are such that he may not defy the bosses as I did in 1880. Dear Senator, if our beloved Garfield had lived Cameron would not have nominated Gen. Beaver. Had he been alive this delegate and scores more like him would have gone to Harrisburg free men. How unfortunate for our party was Garfield's death. One man only of the delegates from this county had the manhood to throw off Cameron's yoke and vote as a freeman in the convention. Immediately he was threat ened and badgered by those people and told that his political life would be taken. They even in the bacchanalian revelry made bold to assault him in his room at his hotel. Such base means as these are employed to terrorize and bull-doze Republicans. I can't bear this any longer and hundreds of my personal friends say they cannot. After they had talked to him for some time," he said, "That matter is passed advice. I will not take it. I will not leave my motherless

children for an office that comes in this way." To a prominent Independent who called on him later in the day with a request that he permit his name to be used in the convention of May 24, Mr. Marshall said: "Do not nominate me. I will not be a cardidate upon any ticket."

This will make room for Hugh Fleming, of Allegheny, one of the reform within the party men. It is stated on unquestionable authority that it was arranged at Harrisburg immediately after Marshall's nomination to turn it over to Fleming in case he should decline. The object of this is to have a member of the state ticket in Tom Bayne's district. This would require Mr. Bayne to come out boldly one way or the other, and might aid in carrying out the plans to prevent his renomina-

in his conviction. At the trial the

defense set up that the young man was

insane; that he had a mania for loving

every girl he came across, and that he had

frequently been under fits of insanity. It

was claimed that he had previously at-

tempted to shoot himself, and on another

occasion had taken arsenic which had been

purchased to kill rats. It was elaimed that

ie had locked himself up in his room from

Saturday morning until Monday morning,

when the shooting occurred, and had re-

fused to see any one or to come down

to his meals. On December 19, 1881, after

Coyle's conviction of murder in the

first degree, Judge Wickes sentenced him

to be hanged. An appeal was taken to

the supreme court, error of the lower court

being alleged in the charge of the judge

upon the insanity question and upon other

points that were raised. Messrs. II. L. Fisher and W. C. Chapman represented

At 4 p. m., two stanzas of a hymn were sung; Rev. R. C. Wood then made some appropiate remarks, and the aged couple marry bim, and that he went to the barn were presented with twenty five dollars word. She said "No, I won't have you nor in gold, a very beautiful clock, a floe cup and saucer for each, and several articles mother that he told Emily he would shoot of wearing apparel; prayer was then offered her, for no other man should have her, in behalf of the happy pair; Mr. Appleton He said she dared him to do so, and rose and stated that his family now corthrowing herself back, said, "Shoot me right here! Shoot me quick!" Coyle sisted of 4 children, 17 grand children and 11 great grand children. The next move drew his revolver and shot the young was to the supper table where an excellent opportunity was offered to get a good square meal. Everybody scemed to en-joy partaking of the good things provided for the inner man, and all passed off most sa isfactorily.

Truly it was a pleasant afternoon, and everybody left wishing the bride and groom many more years of happy life. The earlier part of Monday, May was a period of great uncertainty to the Martie pedagogues; but before the day had entirely gone an entirely different aspect of the matter was given to most of them. Marticville during that day was the scene of the annual examination of the teachers of Martic township. The class was noted for containing few applicants who did not receive the coveted certificate; in this respect a great improvement to the record made by the Martic class in former years was noticeable Owing to the fact that the new school board has not yet been organized, the appointment of the teachers was postponed until June 3, when the directors will meet in the Rawlinsville school house for the purpose of appointing the teachers for the coming winter.

RAILROAD BLOCKADED Result of a Henry Blast of Rock.

Yesterday afternoon about 3 o'clock, a heavy charge of blasting powder was put into a ledge of rock near Valley Creek bridge, on the line of the Pennsylvania railroad, in Chester county, at which point the road is being straightened. The rock has been a great deal shattered by previous blasts and contained many fissures. When the blast was made yesterday, it was supposed the rock would fail away from the railroad, but on the contrary a mass of it weighing not less than fifty tons was broken off from the ledge and fell down upon the road, completely blocking up both tracks. The wreckers were at once set to work, and by midnight had one of the tracks clear, and by 3 o'clock this morning cleared the other.
