Much Doing in Old Tobacce-Bad Weather Interfering With the

Coming Crop. An almost unprecedented term of cold, wet rainy weather has prevailed for the past two weeks, greatly interfering with the work of the farmers preparing for the coming tobacco crop. The ground has been so wet that it could not be prepared for the setting out of young plants and the temperature has been so low that the plants in the sections are small and stunted, and in some localities have been nipped by the first. Worse than this, it is said by some experienced growers that the long continued cold, wet weather has affected the plants in the early-sown seedbeds with the disease known as "black root," a condition in which the tap roots become black and urnealthy, and the plants when transplanted fail to thrive. It is feared that many see I-beds have been almost destroyed by this disease. On the other hand it is maintaired by many that there will be no scarcity of plants . that the backward spring has been an advantage, rather than a disadyantage, because it has kept back the plants from a too early growth; that many of them are only well out of the grand; that they will grow rapidly when warm weather sets in and be big crough to plant before the 1st of June. People will differ in these matters.

There has not been much business doing in old tobacco during the past week. The interminable tax agitation still exists and packers, jobbers and manufacturers are awaiting the action of Congress. Should the proposed law repealing the tobacco tax pass, there would probably be quite a boom in the trade-as it meets the views of almost everybody except the owners of great eigar manufactories.

The inquiry for new tobacco continues active, and notwithstanding bad weather, bad roads, and a general inclination to "bear" the market, there has been something of a scramble among dealers to pick up what is left of the crop of 1881 in this county. From Bird-in-Hand and vicinity we hear of the following sales effected last week:

Martin R. Herr, 21 acres to B. R. Mor-ric, at 10 cents round; Benjamin Beiler, 1 acre, to Gust Zook, at 19, 5 and 2; Siephen Mullen, 1 acre, to same, at 16, 6, and 3; John Fisher, to Shubert & Co., 4 acre, at 15, 6 and 3; Daniel Erb, to same, \ acre, at 10, 7 and 3. In the Lover End.

There have beer a few transactions in the lower end of the county during the last week, most of them on private terms. Buyers seem to be auxious to buy when they find anything that is not too trashy, and even some of this has been bought indeed, most anything in the shape of to-baceo has been sold. The white vein cry scenes to have no terror for buyers, and if a crop does not suit one part; it is sure to suit the next buyer; and a :a consequence, holders have stiffened up considerably. Some are asking steep prices and expect to get them, but it is always best to sell ge one crop out before before another comes on. Among the sales lest week were Thomas McMichael of the male ex. Man or Boy, we carry an assortwhen they have a buyer, and the history more, to Lachenber Ci, 2 acres, at 16, 6, 3 : Wor. Whitman, of Fulton, to same, a lot of "'80" at 12; Silas Winters, of Providence, to same, 2 acres, 13, 8, 6, 3 Albert Heidelbaugh, of Bart, 3 acres, hail eat, to Pheneger, at 8 through; William Hathaway, of Chestnut Level to Kendig, 1 acre, at 15, 6, 3, and Mr. Streigel, o Martie, 3 acres, to same, at 12, 6, 3

Considerable tobacco has been brought from York county during it's last few weeks to packers at Millersvill at prices ii. 15 for wrappers; it was mostly from Leach Bottom township. L. T. Hensel, of Quarryville, is credited with buying heavily during the last few weeks, and on Saturday he must have secured about 100 cases. His purchases have mostly been private, but we have learned of the following: Aug. Winters, Drumore, 2 acres at 13 through; A. F. Clark, 3 acres, 10, 6, 4, 2; S. P. Moderwell & Bro., 3 seres in Martie, at 16, 8, 3.

John dildebrard has also been buying among his purchases we learn of John Tweed, discrete Lew Providence, et 16. 8, 5, 2 : ranol the latter place there is still conse era e asold.

There are an under of fine sheds goin up in Or more, and farmers are preparing to farm less ground and make it bet which is polic and one are of good a bacco pays on a than three of poo-They are all a fighting shy of patent ma Gar igt.bors-

A West Chester paper says: Poter Dampman, of Honeybrook, will erect tobacco house or ris farm this spring 8 by 28 feet. It to be complete in every particular, with cellar under the whole structure. Joseph C. Davis will also erect a building in Honeyorook, 49 by 28 feet to be used this season as a tobacco hour. and then titted up is a double dwellin

A Reading paper says: II. W. Stauffer and others, of Wessel'sdorf, have been preparing their last y rar's tobacco, and will have it ready for market in a few days. There is a large lot of tobacco, probably 700 cases, on hand in and around Womelsdorf. Great preparations are being made for another large crop this year. Each farmer expects to raise from one to five

JOHN " INAMAREL"

 $\mathbf{A}^{\mathbf{T}}$ JOHN WANAMAKER'S, PHILADELPHIA. TUESDAY:

A series of one-color silk da masses from our Paris buyer, silks of excellent quality for the price, \$3.25. One of the patterns we are going to sell at \$2.50, for no other reason than this—we don't like the pattern. In \$1.25 colored silks the following colors have been added:

shades of terra cotta. Of this colored silk let us say this remarkable thing: He have sold more of it then of any other grade of colored ith; and not a dress has come back: When you think how trifling causes send goods back, you can measure the exceptional excellence of this, which never comes back at all. It has been here for two months.

Next-outer circle, Chestnut street entrance, Black Spanish-lace grenadines are the most acceptable of all the figured grenadines. Not that they are prettier—we don't think they are. It is one of the perverse whims of Fashion to insist on things that nobody has got.

We have just six patterns. One other house has one pattern. There may be others; but we doubt it. We believe we have substantially all there are in the country. And, to tell a little more of the truth than we need to tell, we didn't half-know their value till ladies pitched upon them so. It must be the Spanish lace craze.

V'e have wonderful things in grenadines, besides these; wonderful.

Next-onlessor le, Chestnut street entracec. French melanges have come, which are going to make a stir in dress goods.

Melanges began last year, and have only come into greater favor this year. Nothing is surer FAR SUPERIOR TO ANYTHING YOU WILL than a good melange. Nothing more settled than these mixtures of mottled colors. They have lately got into the ground of garnitures, sure sign of mith our \$12.00 and \$15.00 Dress Suits, in worsted and cloth diagonal, cannot be excelled anywhere else for less than \$18.00 to \$20.00. In

These new melanges, these stirring ones, are just about such as we've been selling for month ormore, but the prices are down. The \$1 grade is at 75 cents; the CHOTHS. 15.00 but our \$18.00 and \$20.00 suits cannot be 85-cent grade at 65; 75 and 50;

65 at 55; 60 at 40. This is so unheard-of an event that nelody that ever doubts us at all is expected to believe it. The .vo. fashionable dressgoods, staples at that, going at two-thirds value! Has the market broken? No: only this lot is broken. Five qualities; more than fifty styles; more than 20,-000 yards. The goods perfect the st, les all styles. Nothing more whatever to say about them, but that lose who buy them have a thire of their money

left. Third carele, southers from centre.

New metal dress-buttons from Paris to-day; some last week also. Samples of them are in the counter-case on the middle aisle. White pearl ball buttons, just from Paris, are of better quality and finish than common.

Third and fourth circles, north from centre. Kerr & Co.'s spool-cotton, new here, but not new in England, on spools that fit all sewing machines. It is of the same quality as the others,Coates', two Clarks', Brook's, Willimantic, Kerr's.

Haberdashery counter, third and fourth circles, northeast from centre.

Three new color-conceits in writing-paper are cadet, terracotta and alligator. Only new, not really good notions; unless, possibly, when stamped in gold.

But if one wants elegant, plain paper, there's nothing to be com-pared with that which we call Wanameker Best. We call it WELNESDAY, MAY 21st, 1832. We mean to keep the very best paper in the world under that name. At present this paper is made at two mills in Massachustal at two 12,000 00 paper should come from any To so of paper should come from any quarter of the world, we should prize 10,000 prize 10,000 put it in place of this, and call oprizes \$1,000 each 10,000 put it in place of this, and call oprizes \$1,000 each 10,000 prizes \$1,000 each 10,000 each 10,00 of 3000 en that Wanamaker Dest.
