THE PERUVIAN INDIAN. Commissioner Trescott on the Stand. WASHINGTON, D. C., June 14.—Mr. Trescott, late commissioner of the United States to South America, was examined by the foreign affairs committee to-day. He stated that the object of his mission was to try to induce the belligerent states of Chili, Peru and Bolivia to make peace. He knew nothing whatever of the correspondence of Shipherd, just before the war, but he had seen Mr. Blaine showed him one of Shipherd's letters, and his (Blaine's) reply to it, in which Blaine told Shipherd never to speak to him again. With this exception he had seen nothing of the correspondence or the missing papers. Witness had no knowledge that any United States minister had been corruptly influenced in connection with the Credit Industrial by any other company. Witness never heard Hurlbut's name, or had any knowledge of his action towards Chili, or that he had any personal interest in any financial schemes. The Chilean secretary of foreign affairs had told him that the Chilean government had no charge whatever to make against Mr. Hurlbut. Chairman Williams, secretary of the Post Office, of June 15th, and also, as he said, to ascertain what were the relations of the state department to the Credit Industrial. Mr. Trescott stated that he had received a letter from Robert E. Randall, since his return in which that gentleman called his attention to certain portions of Blaine's testimony and asked him (witness) for a statement of his recollection upon the matters involved. Randall thought Blaine had taken up the Landreth case to the detriment of his company, the Credit Industrial. As a matter of fact the question had never reached the point of practical consideration and he so told Mr. Randall. Witness added that he did not wish to be drawn into a controversy as to the accuracy of the memory of either Blaine or Randall. In reply to a question as to who wrote certain dispatches, witness declined to answer, saying it would conflict with his obligations to the president and secretary of the company. He expressed his willingness to answer all questions that would not conflict with those obligations. After some further questioning the committee adjourned with the understanding that Mr. Trescott would be recalled in a few days.

A FLARE-UP IN THE HOUSE. Honorable Members Denounced as Thieves and Liars. WASHINGTON, June 14.—Congressman White (Ky.) to-day stated that the chair man of the ways and means committee, had entered into an agreement to buy the whisky men if they would help the tariff men. Kelley (Pa.) denounced the statement as the "ravings of a maniac and a deliberate lie. The gentleman may be seconded here, as to the accuracy of the statement. Great sensation ensued. Mr. White then demanded that the words be taken down. White stated that he was merely repeating the testimony of the president of the Western export association. Mr. Springer offered a resolution directing the speaker to recant, and both White and Kelley. Before the vote was taken Kelley rose, and in quivering voice said: "That though his honesty had never before been assailed during twenty years' service in the House he had been listening for a month past to charges of dishonesty made by a certain member against him. It was in justification to his family that he forgot for a moment what was due to the House. He acknowledged the transgression but did not plea for mercy."
