## CRIME AND CALAMITY.

THE TRAIL OF BLOOD AND DEATH.

Accidents and Incidents—Notable News From All Parts.

Patterson's ice houses at Schenectady, were struck by lightning and destroyed yesterday morning.

At Wilkesbarre, Andrew Ruddy, an old miner, jumped from a train and fell under the wheels. He died from his injuries.

An Italian laborer on the West Shore railroad was stoned to death at Catskill by a party of village ruffians.

John L. Coby's iron works at Lancaster, Massachusetts, was burned yesterday with a large quantity of coal and some outlying buildings. It was one of the completest establishments of the kind in New England. There are 200 workmen thrown out by the fire. The loss is about \$75,000; insurance, \$50,000.

A son of Mr. King, of New Hope, N. C., fell into a kettle of boiling water and was fatally scalded.

Augustus Rosenberg and W. S. Carpenter, young men, were drowned at Big Rapids, Mich., while bathing.

John Burrows, of Pittsboro, N. C., became deranged over the death of his wife and yesterday hanged himself from an apple tree.

During a fight yesterday at New York between Mrs. Dougless and Mrs. Kleinpeter the latter threw a broken lager-beer glass at her antagonist and struck a child and killed it.

At Belmont, Mo., on Friday night a sewing machine agent named Gardner was shot and fatally wounded by a man named Kilgour. The difficulty arose out of family affairs. Gardner died yesterday.

There was a desperate encounter on Friday between Brown, the murderer of Deputy Sheriff Johnson, and a few rangers at Cibola, Texas, a station on the International & Great Northern railway. Brown was killed and two men were wounded, one dangerously.

A Terrible Railway Accident. An accident occurred on the St. Paul & Manitoba railway, 93 miles from St. Paul, causing the death of at least twelve men, and doubtless others whose bodies have not been discovered. A work train of 22 cars, while running about eighteen miles an hour, jumped the track on an embankment about ten feet high, and rolled down into a pool of stagnant water eight feet deep. On the train were Swedish and Norwegian laborers. So far twelve dead bodies have been taken out and eight wounded, two mortally. The fireman was wounded but will recover. It is believed that more bodies will be recovered when the wreck is cleared. A special train with physicians and supplies has been sent to the place.

An Ex Soldier Held for Murder. In Baltimore Bernard McNally died from a sword wound inflicted by one of a party of colored men returning from Camp Armes on Wednesday evening last. Several of the members of Lincoln Post, G. A. R., were summoned to testify at the inquest, and, when they reached the police station, George H. Bightman, colored, vice commander of that post, was identified as the party who inflicted the wound. He had been described by several of those who were with McNally when the difficulty occurred. The jury rendered a verdict that McNally died of a sword wound inflicted by Bightman, and the coroner committed the accused to prison until the action of the grand jury on the charge of murder.

A Boiler Scalded by a Boiler Explosion. The boiler at the St. Catherine gold mine, located on the Air Line railroad, in the Western suburbs of Charlotte, N. C., exploded. Joe Roark, white, and Abram Maxwell, colored, were killed. The engineers were terribly scalded. Roark and Maxwell are fatally injured, the former having an arm and leg broken, besides being badly scalded, while the latter's head is perforated by a piece of the flying boiler and his side is cooked by the steam. Wheeler's hands were so badly injured that amputation will probably be necessary. Mr. Pletcher, the superintendent, was rescued from the debris uninjured.

Victims of Blasting Powder. On the five mile section of the new railroad between Shamokin and Paxinos, on Friday last, a heavy charge of dynamite was fired, causing considerable damage. Markle's beer brewery, in the neighborhood of which the blasting was done, was almost demolished. Sashes were broken and chimneys knocked down. A large rock struck a Hungarian on the foot, mangle his toes badly. Another laborer was knocked to the ground by the concussion. Superintendent Heddo was scalded by the action of the grand jury on the charge of murder.

A Fatal Accident to a Picasuro Party. A coach in which a number of young people from San Francisco, who had been camping out in the vicinity, were taking a ride went over the turnpike bank, near Felton, killing the Misses Iva Cowdery, Eva Sussey, Celia Scott and Master George Scott, and wounding Masters Barr, Benjamin, Beulah and William. The accident was caused by the horses shying.

The Pennsylvania Statement. The statement of the business of all lines of the Pennsylvania railroad company east of Pittsburgh and Erie, for May, 1882, as compared with the same month in 1881, shows an increase in the gross earnings of \$251,980; an increase in the expenses of \$173,801; an increase in the net earnings of \$78,179. The five months of 1882, as compared with the same period of 1881, show a decrease in net earnings of \$52,822. All lines west of Pittsburgh and Erie for the five months of 1882 show a deficiency in meeting all liabilities of \$159,543, being a decrease as compared with the same period in 1881 of \$1,713,912.

Visitors to Fortress Monroe. Fortress Monroe, Va., June 24.—General Sherman, Senator Sherman, Col. Bacon, Col. Corhick, Miss Sherman and Miss Marshall, arrived here today from Washington. They were met at the wharf by Gen. Getty and staff, and the artillery school band and a salute was fired from the water battery.

## KNOTTING THE ROPE.

PREPARATIONS FOR THE HANGING.

Mrs. Scoville Expected to go Crazy and do Violence.

Colonel Robert Strong, one of the oldest and most faithful attaches of the Washington jail has rigged the rope for Guitau's hanging. It is a fine, new piece of manilla originally seven-eighths size, which has been stretched to nearly three-quarters. It is forty six feet long, as soft and pliable as can be and certain to answer fully the purpose for which it was intended. The hangman's knot is pronounced a model piece of work. It has six turns in it, the end, after passing through the loop at the top of the wrapp, having a common knot to keep it from slipping. Four pinning cords of stout cotton twine have been prepared to fasten the arms and legs. Nobody but the jail officials and the clergyman are allowed to see the prisoner. The warden says his counsel will hereafter be denied him, although it is possible to take any additional steps to save the assassin he would be permitted to converse with Mr. Reed. A few newspapers not containing articles in relation to the impending execution are given Guitau, but his Bible is the book he reads most. He is seldom able to keep his mind on that more than twenty minutes at a time. He takes about one hour for exercise each day walking up and down the corridors, but he tires of walking as quickly as he tires of continuous reading.

George Scoville addressed an open letter to the president, consisting of a general arraignment of the press, the people, the courts, the witnesses and the preachers for their ill-treatment of him and his family and of Guitau. He incidentally remarks that Guitau has done more harm to him in his private family affairs and his peace of mind than to anybody on earth, but he urges the president, notwithstanding, to grant a respite. Mr. Scoville announces that his wife has left Cleveland for the East, and he expresses grave apprehensions as to her sanity. He fears that she contemplates attempting to kill her child and to commit suicide on the day of Guitau's execution. Mr. Scoville earnestly urges her friends in the East to keep a close watch upon her movements.

CYCLONES IN THE WEST. Destruction at Pringhar and Hospers, Iowa—No One Killed at Emmetsburg, Iowa.

Reports of the cyclone at Emmetsburg, Iowa, telegraphed from Port Dodge, prove to be greatly exaggerated. There was a severe storm and four or five buildings were blown down, but no one was killed. The latest dispatch from Port Dodge says that a storm Friday night unroofed the depot at Emmetsburg, Iowa, blew down several houses and various out-houses. No one was killed.

A report was received at Sanborn station, on the St. Paul and Milwaukee road, twenty miles northeast of Hospers, Iowa, that a farmer, James Saxon, was wrecked by the storm and six people injured. Pringhar is 8 miles south of Sanborn and is the county seat of O'Brien county. It has about 300 inhabitants. Surgeons from Sanborn have gone to Pringhar. A farmer came to Spencer, a distance of twenty miles east of Sanborn, with the report that in his neighborhood six persons were killed and forty injured. It is believed at Spencer that forty dwellings have been blown down in Clay county. Every effort has been made to get something definite as to the extent along that road were blown down early in the day, then working badly and monopolized by railroad business.

At Rockford, Ill., a terrible hail storm visited the place. A \$7,000 cherry crop was totally destroyed by rain and electricity. The Press office was partially unroofed, a dozen or two chimneys were blown around town, signs scattered in all directions and a great many shade trees destroyed. Several wind mills were demolished.

A Fierce Sunday Storm. In Potsville, a terrible rain storm of one hour's duration set in at three o'clock, accompanied by loud peals of thunder and vivid flashes of lightning. The houses of Mrs. Saxon and John Shaw, corner of Fourth and Chestnut streets, were struck by lightning. The Saxon family, except the oldest son, Hiram, had just left the parlor and had gone up-stairs, Hiram walking out into the summer kitchen for a drink of water. He stood at the window when the lightning struck Shaw's house, completely demolishing one side of it, and thence to Hiram, striking him on the left side, burning his body terribly from shoulder to feet. The lightning played sad havoc with the parlor and its contents. Shaw's family escaped unscathed. The storm was so violent, Young Saxon was found lying on the floor in terrible agony. The house was full of smoke. Two years ago Hiram Saxon, while attending court, was seized with a paralytic stroke on the right side, which confined him to the house ever since. He now lies in a critical condition. No other members of the family were injured.

Last evening at 6 o'clock a heavy thunder storm passed over Northtown and did considerable damage in its track. The handsome residence of Foreman Williams, ex-county commissioner, situated on Cherry street, above Airy, was struck, apparently by a ball of fire. All the members of the family, numbering eight, were stunned from the shock and hurled from their chairs in the front parlor. Considerable damage was done to the dwelling. The wind broke down a great many branches of trees in various parts of the town.

Trenton was visited by a terrific wind, hail and thunder storm. The roofs of the Globe rubber company's building, the Titus woolen mill and a number of dwellings in different parts of the city were blown off. No one was injured as far as ascertained.

FUNDS FOR STRIKERS. Those members of the Amalgamated Association, at Pittsburgh, who are idle in consequence of the strike received the first installment of the relief fund on Saturday, \$25,000 being paid out in that district and nearly as much more in other sections of the West. At this rate the reluctance of the association to let it amounts to the highest figure claimed, \$400,000, will be exhausted in less than six weeks. The strikers did not seem to think of this Saturday, however, and many of them left their portions of the fund in the saloons before they returned to their homes.

More privately recommended than any proprietary medicine made. A sure and reliable tonic, Brown's Iron Bitters. For sale by H. B. Cochrane, druggist, No. 137 North Queen street.

Never Fails. Mr. J. Lelet, warehouseman for Lantz Bros., Buffalo, N. Y., says he had a swelling on the foot, which he attributed to chilblains. He used Thomas' Electric Oil, and it troubled no longer. For sale at H. B. Cochrane's drug store, 137 North Queen street, Lancaster.

## MEDICAL.

BROWN'S IRON BITTERS.

PLAIN TRUTHS

The blood is the foundation of life, it circulates through every part of the body, and unless it is pure and rich, good health is impossible. If disease has entered the system the only sure and quick way to drive it out is to purify and enrich the blood.

These simple facts are well known, and the highest medical authorities agree that nothing but iron will restore the blood to its natural condition; and also that all the iron preparations hitherto made blacken the teeth, cause headache, and are otherwise injurious.

Brown's Iron Bitters will thoroughly and quickly assimilate with the blood, purifying and strengthening it, and thus drive disease from every part of the system, and will not blacken the teeth, cause headache, or constipation, and is positively not injurious.

Saved his Child. 17 N. Eastway St., Baltimore, Md. Feb. 12, 1880.

Gentle! Upon the recommendation of a friend I tried Brown's Iron Bitters as a tonic and restorative for my daughter, whom I was thoroughly convinced was wasting away with Consumption. Having lost three children by the terrible disease, under the care of eminent physicians, I was both to restore her to health, and when the physician began to show signs of Consumption, and when the physician was consulted, he quickly said "Tonic were required," and when I informed that the older sister was taking Brown's Iron Bitters, remarked, "that is a good tonic, take it."

Brown's Iron Bitters effectually cures Dyspepsia, Indigestion and Weakness, and is the greatest relief and benefit to persons suffering from such wasting diseases as Consumption, Kidney Complaints, etc.

For sale at H. B. COCHRAN'S Drug Store, 137 and 139 North Queen street, june 1st/1882
