LANCASTER, Not st, 1878. A. BITNER, ESQ., Manager:

Dear Sir: In answer to your quiries of Oct. 28th, I have to say that I is absent on my recent European to ir just four months, traveling a distance of 12,000 miles. I carried with me a watch made at the Lancaster Watch Factory. Before starting I set it to the time of the Pennsylvania Radiroad. It was never changed during the entire trip, and UPON MY RETURN, IT WAS ON THE MINUTE WITH THE SAME RAILEOAD TIME.

When at Geneva, Switzerland, with a dozen or more American friends, I visited the celebrated Watch Factory of Patek, Philippe & When at Geneva, Switzerland, with a dozen or more American friends, I visited the celebrated Watch Factory of Patek, Philippe & Co., whose American agents are the great house of Tiffany & Co., New York. After being shown through the factory, we were conducted to the Salesroom, where our attention was called by the Superintendent to a large number of very fine watches, the product of the establishment. He also gave us his reasons for thinking that better watches could be made in Switzerland than in American. When he had concluded, I handed him my Lancaster Watch and asked him what he thought of it. After examining it with the eye of an expert, and with marked interest, he replied, speaking at brief intervals: "I HAVE NEVER SEEN THIS WATCH BEFORE—IT IS A GOOD WATCH—IT IS BETTER THAN THE WALTHAM—IT IS THE BEST WATCH MADE IN AMERICA." What adds force to his opinion is the fact that he had carefully studied at our Centennial Exposition. All my friends heard the remarks above quoted, and will vouch for the accuracy of my report of them.

ccuracy of my report of J. P. WICKERSHAM.

HUBBELL'S BENEFICENT PLAN. It "Takes In " Women, Children and

New York Times.

There is probably no man, woman or child who receives a stipend from tle general government who has not been netified that a voluntary contribution is expected from him or her in the shape of a bank check or direct or money order, payable to the order of Jay A. Hubbell, acting treasurer. Since Mr. Hubbell has spared neither age, sex, previous condition of ser vitude, nor even Indians not taxed in his wide-spread invitation, it naturally follows that the reluctance of a few mercenary people who wish to devote their salaries to the maintenance of their families cannot greatly affect the general result. Here is "Mrs. Sheverick, in charge o small boys" at the Indian training school at Carlisle, for example, who propably never heard of Mr. Jay A. Hubbell until she received from him a neatly worded invitation to pay \$9 for the purpose of "illustrating the issues which distinguish the Republican party from any other."
Although men who live in cities and read the daily newspapers may be confused by the editious talk of the civil service re-formers, the good Mrs. Sheverick, in charge of small boys at Carlisle barracks, will undoubtedly make haste to forward her voluntary contribution of \$9, that precise amount having been kindly indicated as the sum expected to be voluntarily contributed. Then there is Samuel Jordan, colored laborer in the same institution, who is notified that his voluntary contribution must be \$8. Samuel may have once been in slavery. He is now a free man, and only an occasional circular from Mr. Jay A. Hubbell can remind him of the good old times when he wrought and some other man took his wages. Another of Mr. Hubbell's constituents in the Indian training school is Etaduleuh Doanmoe, who, under the beneficent laws of the country, is classed as an "Indian not taxed." The statutes should be amended so as to read "not taxed, except by Jay A. Hubbell;" for Etadhleuh Doanmoe's voluntary contribution, designed to prove that he "looks with dread upon the possibility of the re-storation of the Democratic party to the control of the government," is fixed at \$8. Nearly all of the female employes of the training school are told that their voluntary contribution to the congressional electioneering fund is \$10; but "Mrs. Platt, mistress of the diningroom," gets off with an assessment of only \$9. Let us believe that there can be no reasonable doubt of the re-election of Mr. Hubbell and his associates when a system like this, Feb. 2. "Sam'l of Pesen." Crowded which takes in the mightiest and condes cends to woman, children, colored laborers. and Indians, not taxed, is set in motion in their behalf.

> Impartial as Death. New York World, Hubbel is as impartial as death and good deal more impartial than taxes as taxes are levied by the grand old Republican party. With equal hand he filches from the pocket of the page boy and the bank account of the collector. Other political blackmailers have done so before. But as far as we know, Hubbell deserves mention as the first of his obnoxious kind the mention as the first of his obnoxious kind the collector of Prof. G. J. Gillespie. If the memory of the just smells sweet, when Hubbell departs this life the naturalists will have to crase their libelous statements concerning the putorious communic and the mephitis mephitica.

> A Wise Word From Adduen. A wise word from Addison.
>
> Says Addison: "Health and cheertulness mutually beget each other." There are volumes of truth in this. It is difficult to look at the world through cheery glasses, when disease has set in upon the loids and back, and when the liver and kidneys are out of order. But cheertulness returns with flunt's Remeily the great kidney and liver medicine, because it brings health to the afflicted. The aching back, the sallow skin, the hollow eye, the distressed feeling, the bent body, the despondent mind, give way before Hunt's Remedy to the bloom of health, the bounding step, the cheer full spirit, the renewed strength, and to a prolonged lease of vigorous life.

A Baptist Minister's Experience. I am a Baptist Minister, and before I even thought of bring a clergyman, I graduated in medicine, but left a lucrative practice for my present profession, 10 years ago. I was for many years a sufferer from quinsy; "Thomas' Eclectric Oil cured me." I was also troubled with hoarseness, and Thomas' Eclectric Oil always relieved me. My wife and child had diphtherla, and "Thomas' Eclectric Oil cured them," and if taken in time it will cure seven out of ten. I am confident it is a core for the most obstinate cold or cough, and if any one out of ten. I am confident it is a core for the most obstinate cold or cough, and if any one will take a small tenspoon and half fill it with the Oil, and then piace the end of the spoon in one nostril and draw the Oil out of the spoon into the head by sniffing as hard as they can, until the Oil falls over into the throat, and practice that twice a week, I don't care how offensive their head may be, it will clean it out and cure their catarrh. For deafness and earache it has done wonders to my certain knowledge. It is the only medicine dubbed patent medicine that I have ever felt like recommending, and I am very anxious to see it in every place, for I tell you that I would hot be without it in my house for any consideration. I am now suffering with a pain like rheumatism in my right limb, and nothing relieves me like Thomas Eelectric Oil.

Shrewd Losses in the

When the late A. T. Stewart was asked to define in a single sentence the secret of his success, he replied: "I knew when to make a loss."

We have learned that lesson, overlearned it, perhaps. But we think it wiser to move about \$50,000 worth of fresh and honest clothing now at a reduction of 40 per cent. and over, than to carry it until next year. Hence the Bargain Sections,

This opinion was again expressed with even stronger emphasis to a party of Americans recently traveling in Switzerland. Under date of "Geneva, August 2, 1881," Miss L. B. Gara writes, in a letter published in the Lancaster New Era: "Mr. Perrine bought two handsome watches from the leading manufacturers here, and Dr. Hampton, of our party, showed them his Lancaster Watch. They examined it and said it was the best American watch they had ever seen—MUCH SUPERIOR TO ANY OTHER MADE IN THE UNITED STATES."
