WASHINGTON, July 31.-In the Stor Route case this morning Judge Wyle gave a decision regarding the admissibility of Witness Walsh, deciding that It was admissible. The defense noted an exception to this roling and the prosecution with an air of satislaction called the witness, John Marseilles to the Daily News says orders A. Welsh, to the stand. He then detailed have been received at the naval arsenal at an interview with Brady in December. was his (Brady's) custom to receive .30 per cent, of the increase he ordered upon routes. Brady claimed from witness \$36,000 and reminded him that he (witness) had been assessed \$9,000 for the

"Congressional corruption committee." Upon cross-examination Walsh admitted that he had been in the distillery business, and having refused to produce his books, was fined under an old law, which required their submission. Witness then described his method of conducting his

banking business. He had not done a regular deposit business, but paid money over the counter for paper of various kinds. Under a severe oross examination witness admitted that he had been declared a failing mail contractor, and that on that account Brady had made deductions of \$11,000 from his contract.
