The afternoon express train from Boston, on the Providence road, was thrown on a side track by a misplaced switch on Saturday, while going at a rate of fifty-five miles an hour, and before the brakes could be applied the cars were turned partly on their sides and the passengers thrown in a heap. Just as the flying train passed the station the tilting drawing-room cars struck a baggage car on the other track and this along propagated the other track and this alone, prevented the train from going completely over. No one was seriously injured.

An unsuccessful attempt was made on Friday night to burn the town of Seattle, W. T. The attempt was evidently made by a brother of Payne, who was lynched last spring by the citizens of the place, and his gaug of desperadoes. At the tap of the bell the vigilance committee as-sembled and hastily prepared a list of the names of twenty prominent roughs, whom they notified to leave the place before daylight or abide the consequences. The order was obeyed and the town was cleared. Payne, the ringleader, is in custody.

The reports state that from sixty to eighty Indians are camped on Coon creek and are evidently bound down the Salt river. THE STATE CAMPAIGN.

The Democracy Locates at the Girard Philadelphia Times, Sunday. All that Chairman Hensel, of the Demo ocratic state committee, will say is that the Democratic party is in better condition now than it ever was before; that it means at the proper time to make a vigorous fight, and that it is determined that the vote shall be full and fair. Since his appointment as chairman of the state committee and his retention of E. P. Kis committee and his retention of E. P. Als ner, of Hazleton, as his general secretary, both of these gentlemen have been basy preparing for the campaign. Mr. Hensel arrived at the Girard house yesterday, equipped with all the details of organiza-tion. His state and district maps are hung upon the walls of room No. 9 and all the tables, schedules and other data that can be made available in the cam paign work are prepared. Unfortunately too many of the county chairmen are changed between this time of the year and September 1st to allow

the work of registration to proceed without interruption in many districts, but Chairman Hensel has put himself into communication with the existing organizations, the state committeemen, prominent party workers and newspaper men in all parts of the state, and there will be no delay in the vigorous prosecution of the work of registration, which will close Sep-tember 7. Meantime a thorough canvass A Globe City dispatch dated July 20, says: Mr. Sysby came in to day from Wild Rye county and reports that his brother and four other men were killed in Pleasant Valley. Three brothers named Tewksbury started from their ranche to notify Sysby of the approach of the Indians, but never reached Sysby's place, and it is supposed that they and two men named Frever and Waham were killed, as they have not been heard from. Two or three hundred Indians are reported on the war-path in the vicinity of Pleasant Valley and Wild Rye county. Globe City is trying to equip a company to take the field, but it is thought the agent will refuse to let him will be made and changes in the county tive speaking canvass will ensue in which the candidates and leading orators of the

party will participate.
In this city, Mr. Heusel says the Democracy have signal advantages in a united and efficient organization, which has the confidence of the local and state Democracy. Being assured of this, Chairman Hensel proposes to leave the details of the city organization to Chairman Harrity and his coadjutors, relying on his reports and content to give to the city that general supervision which it demands as an integral part of the state system. "Their Warfare is Accomptished."
Was the touching inscription placed upon the tombstone of a husband and wife. There is nothing which so sours a man and induces domestic warfare as ill health; and especially weakness in the back, loss of physical power, an early breaking down of rody, rendering one unfit to attend to his business. Then cares and anxieties multiply, the temper becomes ruffled, and peace flies out of the window. Behold the great restorer, Hunt's Remedy! Quietly it comes to the man's relief. One bottle searches out the a isease and begins its cure. Two or three more take on the good work and finish it satisfactorily. The kidneys are healed and restored to their proper functiont, the weakness is gone, the back is renewed, the bloom of health returns, and all the old-time mental vigor in one's business affairs and there is no more sour temper, but lasting peace. All hall to Hunt's Remedy.
