THE CRAFTY REBEL.

WASHINGTON, July 28.—For the Middle Atlantic states, partly cloudy weather, local rains, winds mostly westerly, stationary or lower temperature and stationary pressure.

The Mother's Resolve. Chicago Tribune. "Give me the child."

As Beryl McCloskey spoke these words she looked into the face of Vivian Fairbank, the man to whom two years ago she had given the most precious treasure of a woman's life, her love, and in the delicate lines of her lovely face there was an expression that told more plainly than could words of a deep resolve the woman had taken.

Little Beatrice had been unweary all the day, and now that the summer day was drawing to a close and the long lines of rosy light that streamed up from below the western horizon seemed to rest like a benediction upon the heated earth. She was verifying the question, the impatient way that brings alarm to a mother's heart.

"What are you going to do, darling?" he said. "Looking at him with deep brown eyes, from which gleamed a passionate love-light, Beryl said in tones of thrilling tenderness: "I am going to spank it, dizzy."

Two Men Drowned in the Delaware. By the upsetting of a boat opposite Ann street, Richmond, Philadelphia, two men, one of whom was Isaac Funk and the other Captain Lowry, of a canal boat, were drowned.

The States are expected to send four men, and all except Lowry were employed at Joseph Rhot's ship yard at Petty's island. Having concluded their day's work, they had just left, with the intention of going to their homes on the opposite side of the Delaware.

When about half way across the boat, which was overloaded, began to take in water over the gunwales and in a few moments filled completely, leaving its living freight struggling in the water.

The tugs Juno and F. J. Schuyler which chanced to be near, immediately steamed to the spot, the latter picked up eight men and the former two. Two swam ashore and the remaining two, whose names have been given, sank and were not seen again.

The police tug Stokley went up the river and grappled for the bodies, but have only recovered that of Funk.

Presidential Short-Sightedness. Mr. Joslyn, of Illinois, who was yesterday nominated to be assistant secretary of the interior, is a Logan man, and at present a member of the Illinois Legislature.

Apparently Logan has no difficulty in controlling the patronage of his state. Senator Vanwyck, of Nebraska, upon looking over the list of yesterday's nominations, remarked:

"The president is very near-sighted isn't he?" "Why?" inquired a fellow senator. "Well," was the reply, "he has not been able to see any further West than the state of Illinois in making an appointment yet."

Then Vanwyck laughed the laugh of a man who feels satisfied that he has said something very funny.
