SAUNDAY EVENING, AUG. 5, 1882.

CUTTING TOBACCO.

Col. Duffy's Crop on His Island Farm. Marietta Times. Col. Duffy commenced to cut tobacco on his island farm on Friday last, July 28. This is earlier than anyone else in the state. On Tuesday last we visited his farm and he then had about two acres cut and housed, and would have out five more acres but the rain prevented it. The two acres hanging in the shed hung very even, and the stalks averaged about four feet in length. Although the colonel has the immense size of this crop has compelled him to put up another, and a C. A. Schaeffer commenced to get the material ready on Thursday last, and Adam Bahr, the well known builder, commenced work upon the structure. It will be 100 feet long by 40 feet wide, one of the largest tobacco sheds in this section. It will be built on the same principle as those he has in use, with the ventilators at the bottom and top. Nineteen men were busy in the tobacco on Tuesday, the colonel's idea always being to employ as many men as the tobacco needs.

The corn crop on the island looks splendid. It is tall and even, and the ears are developing finely.

Tobacco Farming in Juniata. John Morrison, who is one of the Lancaster county farmers in Juniata county, writes to us as follows:

"I now reside in the centre of the historic Tuscarora valley. I came to this place in the spring of 1881, and farmed 6 acres of tobacco for Albert Groninger, and did reasonably well, considering the unfavorable season. Geo. Walover is the pioneer of Lancaster county farmers in this valley; he came here in 1830, and farmed 6 acres for Col. Harborton, and in 1881 he farmed 6 acres for the same, and also farmed 10 acres for Robert A. Robinson; through his influence, quite a number of Lancasterians are now raising the weed in this immediate neighborhood. The first tobacco was raised by Walover himself, farming 10 acres for Col. Harborton, next Frank Storms, farming 6 acres for Albert Groninger, next Henry McLean, farming 10 acres for Stewart McCulloch, next Fred. Laughman, farming 6 acres for Noah Fentler, and my humble self, who is farming 6 acres for Geo. Groninger, and 6 acres for Mrs. C. Guss, besides quite a number of the natives are now farming tobacco: Robert A. Robinson, farms 6 acres, Elliott Groninger, 3 acres, Wm. L. Groninger, 3 acres, besides many more, making in all on the west side of the blue Juniata, and in this neighborhood between 70 and 80 acres. Now as to the prospects. The season could not have been better; plants grew from the start, were set early, and the frequent rains brought them along until now, if we have no hail storms during August we are sure of a first-rate crop. Plenty of the leaves will measure from 35 to 40 inches, and 2 feet wide. I have commenced cutting, and expect that the crop will be housed early, generally, as the weather was done early, and it came right along.

Now what are some of the difficulties? First, we have no packing houses here, and buyers are slow to come out here for what we raise, and some, when they do come, expect to find us very green, and try to make us believe that in Lancaster county, and there only, can good grades of tobacco be raised, but much as we love our native county we cannot give her credit for raising better tobacco than can be raised on the rich soils of the valley. We are in the tobacco growing belt of country, not being farther north than Kentucky and Connecticut, and why should we raise inferior grades when we have strong soils? Some of us have worked too long in the packing houses, your city to be taken in very far on a tobacco leaf. So look out for several car loads of good tobacco in your market from this county next April. This is a very fine county, society very good, and what is strange land is not high in price. If a farm brings \$100 per acre it is thought to be extraordinary, yet worse farms have been sold in Lancaster for three times as much. I wonder why people do not come here to buy land. There are all kinds of land and all kinds of prices, and we are only 25 miles from P. R. R. and 140 miles west of Philadelphia.

Medical.

From Frank Leslie's Illustrated Newspaper.

A LADY SAID,

"Those Morbid Pimples No. 1 Cannot Go, Please Present My Excuses."

Probably two-thirds of the ladies in society and homes of our land are afflicted with skin diseases of various kinds, to do away with which, if it could be done without injury, would be the happiest event of their lives. Then she would have instead of a disfigured and marred countenance, one that would be handsome, or at least good looking, for any one with a clear, pure skin, no matter what the cut of her features are, has a certain amount of good looks which attract everybody. As it is now, she imagines every one sees and talks about "those freckles," "those horrid pimples" and other blemishes with which she is afflicted, and this is true of either sex.

To improve this appearance great risks are taken; arsenic, mercury, or light-sound titled named articles containing these death-dealing drugs, are taken in hopes of getting rid of all these troubles. In many cases, death is the result. No alleviation of the burning, itching, itching, and inflammation is given. All troubled with Eczema (salt rheum), Tetter, Humors, Inflammation, Rough Scaly Eruptions of any kind, Discharges from the Hair and Scalp, Scrofula, Ulcers, Pimples or Tender Itchings on any part of the body, should know that there is hope for them in a sure, perfect and elegant remedy, known as "Dr. C. W. Benson's Skin Cure." It makes the skin white, soft and smooth, removes tan and freckles, and is the best toilet dressing in the world. It is elegant, put up in two bottles in one package, consisting of both internal and external treatment. Our readers should be sure to get this, and not some other remedy recommended on the success of Dr. Benson's and not advertised as "The Great Skin Cure." There is only one—it bears the Doctor's picture and is for sale by all druggists, \$1 per package.

A Sensation.
