At the time Christian Kautz was killed in the East yards of the Pennsylvania railroad yesterday, there was no person near him. He had been sent down from the West yards to repair the broken brake of a car which was to be sent to Marietta, While he was engaged on the works the shifting engine backed against the train is usual for men employed at work about a car when it is standing on the open track, to hang out a blue flag as a signal. This he had neglected to do, and the crew of the shifter was not aware that he had commenced work, although they knew he was to do some repairs, supposing that he had not yet arrived at the east yards. The unfortunate man was caught by the brake rigging and dragged some distance on the track. He was taken to one of the company's buildings near by and Dr. Craig sent for. When he arrived he directed that the injured man be taken to the residence of his son Charles on 5th street. Immediately after arriving there he breathed his last. Deputy Coroner Frank ompanneled the following jury and viewed the remains : Townsend Stone, Frederick Struck, Aaron Gilbert, Henry Fisher, Gilbert and Edward nedy. Their verdict was that Chris Kautz's death was caused by the breaking of several ribs, by several scalp wounds, a broken leg, and by a frac ture of the right lung, received while working under a car of the Pennsylvania railroad company. Deceased has three sons in the employ of this road, one of them being an engineer. Two of them had just arrived in town on their trains, and the one who is an engineer was on his engine starting for Philadelphia when informed of the accident. A substitute took his place. The remains will be taken to Laucaster for burial.

The Cannstatter Volksfest. The Cannstatter Volksfest at Tell's

Hain closed last evening at 7 o'clock. It was very successful, both financially and as a pleasant reunion of the German societies. There were more persons present and less disturbance than at almost any other pienic held this season, and there was no necessity for policemen on the ground. The programme yesterday consisted of music, dancing, games of various kinds, and sack races and sheep races. The first prize for the sack race was won by George Schwartz's son. The first prize in the sheep race by Jacob Ricker's son, and the first prize in the lamb race by Daniel Rapp's daughter.

To morrow's Excursion. The indications all point to a large and

pleasant excursion to-morrow, when Managers Haverstick & Clark will run a special train to Atlantic City; the price for round trip tickets is only \$3, good for two days and to return on any train within that time. The special train leaves the Pennsylvania railroad depot in this city at 6 o'clock to-morrow morning and excursionists may if they prefer stop off in Philadelphia, either going or returning.

Injures by a Rattroad Cap. While the repairsmen of the P. R. R. were at work one of their number. John Smith, picked up a torpedo or track cap, placed it on the rail and went on with his work close by. A train came along and the machine exploded, putting a good-sized piece into his leg. It made a painful wound, but not dangerous.

Drunken and Disorderly. Mike Crody, for drunken and disorderly conduct, was arrested by Officer Daily and committed for ten days to the county jail

The Haking Powder War. The Royal Baking Powder company is still making enemies among those who are manufacturing and selling impure articles for leavening purposes (and their name is is not a mother on earth who has ever used it, legion), and this fact shows that it is continuing its vigorous work in the interests of the public. This company set out and relief and health to the child, operating and so far as possible to break up the sale, of adultarated baking powders. Having found from an examination of a grocers that they were generally of an inferior character, some devoid of all leavening properties and many of them actually poisonous, it brought the matter before the public, denounced the makers by name in the press and to the health authorities. The affair was speedily taken up by physiciaus, boards of health and Legislatures throughout the country,

RESCUED FROM DEATH The following statement of William J. Cough in, of Somerville, Mass., is so remarkable that we beg to ask for it the attention of our read ers. He says : "In the fail of 1876 I was taken with a violent bleeding of the lungs, followed by a severe cough. I soon began to lose my appetite and flesh. I was so weak at one time that I could not leave my bed. In the summer of 1877 I was admitted to the City Hospital While there the doctors said I had a hole in my left lung as big as a half-dollar. I expend icines. I was so far gone at one time a report went around that I was dead. I gave up hope but a triend told me of DR. WM. HALL'S BALSAM FOR THE LUNGS. I laughed at my friends, thinking my case incurable, but ! got a bottle to satisfy them, when to my surprise and gratification, I commenced to feel better. The president took a deep interest in everything he saw at the station. The secretary of the navy was present. The president also visited the Casino and attended receptions given by Mr. Gardner Brewer of Boston and Mrs. H. J. Dickey of New York. He declined to visit West Island, but without doubt will go to Squantum and partake of a clam bake upon the invitation of Senators An thony and Aldrich, and other members of the Squanton club. This evening he will dine with the Vanderbilts.

SANE OR INSANE?

A Difference of Opinion on the subject. UTICA, N. Y., August 24 - James B Sitman, of Yonkers, alleged to be a saue person in the state lunatic asylum in Utica, and reported to have been ordered released by Judge Barnard yesterday, was committed to the asylum on May 21. The authorities of the state asylum say that there is no question regarding his insanity, which was caused by overwork as a journalist several years ago, and more recently as a merchant in New York. No order has been received for Sitman's release.

DR. BENSON'S REMEDIES. [From the Springfield Republican.]

A Generous Act

That will be Appreciated by all who Care for Their Complexion and Skin.

It is not generally known that the nervous system has a wonderful influence over the skin, but this is a fact known to medical men who have given much of their time to the study of diseases of the skin. No one can have a clear and fair complexion unmixed with blotches or pimples who is very nervous.

Whatever tends to a healthful condition of the nervous systemal ways beautifies the com-plection and removes roughness and dryness of the skin. Some skin diseases are not at-tended by visible signs on the surface, but an intolerable itching that renders life miserable.

We copy the following deserving and interesting compliment from the Tribune which says: 'Dr. C. W. Benson's New Remedy, 'SKIW CURK' is received by the public with says: 'Dr. C. W. Renson's New Remeety, 'Skin Curr,' is received by the public with great confidence, and it is regarded as a very generous act on the doctor's part to make known and prepare for general use his valuable and favorite prescription for the treatment of skin diseases, after having devoted almost his entire life to the study and treatment of nervous and skin diseases, in which he took great delight. He was for a number of years physician in charge of the Maryhmed Infirmary on Dermatology and anything from his hands is at once accepted as authority and valuable. The remedy is fully the article to attack the disease, both interally, through the absorbents, and is the only reliable rations are only put up for general use, after having been used by the doctor in his private practice for years, with the greatest success and they fully merit the confidence of all classes of sufferers from skin diseases." Thus is for sale by all druggists. Two bottles, internal and external treatment, in one package. Don't be persualed to take any other, It costs one dollar.

market found to be largely adulterated, but many of them were ascertained to contain alum and other poisonous ingredients to such an extent as to render them positively unsafe for their use in human food The information spread throughout the country and created a profound sensation. As a result many of these injurious mix tures were driven out of the market, and the sale of all of them seriously interfered with. No occurrence of recent date has been so far reaching as this in its benefi cial influence upon the public health, and the boldness of the Royal Baking Powder company in the inauguration of such a warfare, and their energy in carrying it forward with such important results, were universally commented upon and appreci ated. In making the charges they did no hesitate to enter into competition with every other baking powder in the country and it is a public satisfaction that in all the tests and analyses made the Royal baking powder was placed at the head of the list and declared by boards of health and by the government chemists, Drs. Mott and Love, to be the superior of all

others in strength, and absolutely pure and free from all inferior substances. In continuing this warfare against the adulterated food, more particularly the alum and otherwise impure and inferior baking powders which unscrupulous manufacturers are endeavoring to force upon the market in this locality, the Royal will undoubtedly meet with old time opposition and abuse. We are confident, however, that the public will also appreciate, as heretofore, both the object of the " alum men" and the actions of the Royal company, and award full justice to the company that has fearlessly stood up
