TUESDAY EVENING, AUG. 29, 1882.

A Paraphrase of the Political.

The Philadelphia Press at last finds something in General Mahone to condemn. Up to date he has been a pattern politician to the Press, which approved all his methods and has never tired in its applause.

THE EASTON EXPRESS, long known as one of the ablest provincial newspapers in the state, has adopted the metropolitan form of make-up on its first page which vastly improves its appearance.

THAT ridiculous piece of bunting known as the president's flag bids fair to be consigned to the obscurity whence it came. That this is a consummation devoutly to be wished, is very evident by the expression of feeling in naval circles as well as in the ranks of the thinking civilians of the land.

REFERRING to the boast of Chairman Cooper that the Grand Army of the Republic, as an organization, will endorse and secretly work for the election of Gen. Beaver and the whole Stewart state ticket, we have the assurance of a reliable gentleman in this city, a member of the local post here, that such is not the case.

A CURIOUS phase in English criminal annals was presented in the spectacle of a man arraigned for embezzling a leg. It was a wooden one, and the offender who had been deprived of one of his own rather extremities by an accident, wore it from a work-house where he was confined, and of which the leg was part of the personal property, and sold it for half a crown, returning to the work-house on crutches.

IT appears to be necessarily conspicuous to the dullest understanding that Mr. Mahone in arguing thus argues wisely. It being conceded that he must have money, the men who enjoy their incomes on account of his political dance are the men properly to be called upon to pay the piper.

THE Press pretends not to see it, though it is profitable both to its friend Mahone and to the droves of creatures whom he has put out to green pastures; which only shows that the Press is hypocritical. A journal which could haul Mahone up to this point in his progress, and never stick at any of his dishonest performances is not of that high virtue that it can conscientiously pretend even to gag at his assessment of his office holders.

THE cost of political campaigns by the party that puts them in power; but that opinion is not held by the time serving class of journals to which the Press conspicuously belongs. We can respect the opinion when delivered by those whose consistent objection to all political expenditure enables them to give it honestly; but it is simply despicable in men who aim to live by party plunder and who are always ready to applaud the purchased successes of their leaders, to hold up their pharisaical eyes in public and dare to condemn the assessment for political expenses as the fruit of the success of the party that is striving to buy its retention of power and the maintenance of its retainers in office.

IN our judgment, office-holders ought not to bear the cost of party campaigns, but neither should they be the sport of party success. The old doctrine, for which Andrew Jackson is made responsible, that "the victors belong the spoils," needs modification in view of its abuse in modern practice. The first consideration should be the country's service. That needs to be cared for by the party to mark its fitness for the administration of the nation.

THE hue and cry against Governor Cornell in New York illustrates how comfortable a man may be until he stirs up a hornets nest; and further, how quiet hornets may be until they are stirred up. The hornets are quite indifferent to you while you let them alone; but when you make yourself obnoxious they make a fuss. Probably it is so with people as well as hornets. We incline to think it is. It is when anyone treads on your toes that you find him to be a very disagreeable fellow and throw stones at him.

WE see it stated that the political atmosphere in this state is charged with dynamite. Just wait for the explosion and the Cameron machine will be smashed into splinters.

THE LABOR CONVENTION

TROS. A. ARMSTRONG FOR GOVERNOR.

A Sweeping Platform Adopted and a Lively Fight About Taking Part in Politics. Mr. McClure's Denunciation.

In the Trade and Labor Convention at Philadelphia on Monday, the text of the resolutions offered by Welsh, of Schuylkill county, was as follows:

WHEREAS, there frequently appeared in the Philadelphia Times editorials charging the Workingmen's Union of Schuylkill county with selling out to the bosses, and we, the Industrial Executive Board of Schuylkill county, do hereby stamp the whole matter as a base fabrication, and in order to give the gentlemen an opportunity to prove his assertions concerning the Workingmen's Union of Schuylkill county; therefore be it

Resolved, That we hereby invite Aleck McClure or any committee he may select to meet us at any time or any place in Schuylkill county, and should he (McClure) refuse to meet said committee, we ask him to retract the charges he has made against the workingmen of Schuylkill county, and should he not comply with the above we brand him as a liar and a coward, and regard him and his paper unworthy to be recognized by the mass of the coal region, and furthermore be it

Resolved, That we, the Committee of the I. E. B. of Schuylkill county, are authorized to prove, when the proper time comes, certain charges against Aleck McClure, which will unmask the action of the gentleman and show him up in his true light before the people of this commonwealth.

Signed—Hosea P. Daniels, Philip Mohan, Christian Byrnes, John F. Welsh.

After a lengthy discussion the resolution was referred to the committee on resolutions.

John Jarrett, the permanent chairman, made a speech in which he claimed that it was the right of the workingman to strive to elevate labor, and that it was the duty of the workingmen to attempt to touch the heart of the nation, so that it shall respect the claims of the laborer.

Resolved, That we, the Committee of the I. E. B. of Schuylkill county, are authorized to prove, when the proper time comes, certain charges against Aleck McClure, which will unmask the action of the gentleman and show him up in his true light before the people of this commonwealth.

Signed—Hosea P. Daniels, Philip Mohan, Christian Byrnes, John F. Welsh.

After the recess Myles McAdden occupied the chair. He announced that Chairman Jarrett had been called suddenly to Chester to attend to about 113 delegates were present.

C. A. Richardson offered a resolution to the effect that the chairman be instructed not to entertain any resolution offered in the convention having for its object the indictment of any member of the political party. This resolution struck a popular keynote, and was received with marks of approval from the delegates.

At this juncture a delegate called attention to the doorkeeper on the right side of the hall, who he said was not in a fit condition to attend to his duty.

"Suffering from the effects of Schuylkill water, evidently," remarked Chairman McAdden, as a Philadelphia delegate hastened to relieve the overstocked doorkeeper.

W. H. Borrell, of the shoe cutters' association of Philadelphia, offered a resolution stating that for twenty years the workingmen had looked in vain to the two great parties for recognition. The true remedy for all the ills which afflict the workingmen, he said, was a more economical administration of government, and workingmen should pledge themselves to bring about such a result.

J. M. Cuddy, of Morocco dressers' association, Philadelphia, caused a lively discussion by advising the adoption of a resolution condemning the adoption of an Italian laborer. He asserted that Italians were as hurtful to American labor as the Chinese. He favored raising the cry of "The Italian must go." Mr. Cuddy's proposition was not popular, and his suggestions were attacked by half a dozen delegates.

At the evening session the galleries were thronged with spectators, and a number of ladies smiled upon the delegates from the proscenium boxes. Chairman McAdden read a report on the convention, and stated that he was in the convention simply as a delegate, and had no other object than assisting workingmen to take measures to secure their rights.

For Congress the Blair county Democrats at an unusually full and harmonious convention nominated A. B. Lively, with the privilege of choosing his own officers; Assembly—Abraham Lingelinger; Adolphus Ake; Prothonotary—J. P. Stewart; Sheriff—Mercur Gray. Fisk Conrad was chosen unanimously as chairman of the county committee, and that same day a signature was taken to a petition for a general election, and determined fight. P. Stewart is the present incumbent of the office of prothonotary, and is serving his third successive term. His re-election is considered assured. It is confidentially counted upon that Lingelinger will be elected a victory.
