THIRD EDITION.

WEDNESDAY EVENING, AUG. 30, 1882. LATEST BY TELEGRAPH.

THE CASE OF SERGEANT MASON. The Swain Adheres to the Opinion That He is Illegally Confining—Secretary Lincoln's Dismissing Opinion.

WASHINGTON, Aug. 30.—The case of Sergeant Mason, the soldier who shot at the assassin Guitan, is again before the secretary of war on a supplemental report from Judge Advocate General Swain, which was submitted yesterday afternoon. This report is in reference to the petition filed with the president by Mr. Bigelow, of Mason's counsel for the release of his client from the Albany penitentiary, on the ground that he is illegally confined. The petition was in the nature of a writ of error. It was referred to the judge advocate, together with numerous other petitions received by the president for the pardon of Mason.

It is understood that Judge Advocate General Swain adheres to the legal opinion expressed by him in his original report on this case, which was that the proceedings of the court martial which tried Mason were irregular and that his confinement under its sentence was illegal. The ground taken by Gen. Swain is that the act of Mason was not an assault with intent to kill as shown by the evidence, and further that if it was an assault with intent to kill it was not triable by a military court, for the reason that Mason had no legal charge, custody, or control of Guitan at the time. It is known that the secretary of war entertains a contrary opinion. No action will be taken in the case until the return of the president.
