It can truly say "I lead" in point of worth, merit, and cures effected, and it is rapidly assuming the lead in sales. In all cases of kidney or liver troubles, in all untary complaints, it is simply invaluable and unapprosciable. Phy-sicians have discovered this, and freely pre-scribe it; and hundreds who have been re-lieved of dangerous affections of the stomach, kidneys, and liver by this great medicine, chant its praises. A Baptist Minister's Experience. I am a Baptist Minister, and before I even though of being a clergyman, I graduated in medicine, but left a lucrative produce for my present profession, 40 years ago. I was for many years a sufferer from quinsy: "Thomas' Eelectric Oil cured me." I was also troubled with hoarseness, and Thomas' Eelectric Oil al-diphtheria, and "Thomas' Eelectric Oil cured them," and if taken in time it will cure seven out of ten. I am confident it is a cure for the most obstinate cold or eough, and if any one will take a small teaspoon and hai. all it with the Oil, and then place the end of the spoon in one nostril and draw the Oil out of the spoon in into the head by sniffing as hard as they can, until the Oil falls over into the throat, and practice that twice a week, I don't care how offensive their head may be, it will clean it out and cure their catarrh. For deatness and earache it has done wonders to my certain knowledge. It is the only medicine dubbed patent medicine that I have ever feit like re-commending, and I an very anxious to see it in every place, for I tell you that I would not be without it in my house for any considera-tion. MALARIA Malaria is an almost indescribable malady which not even the most talented physicians are able to fathom. Its cause is most frequently ascribed

to local surroundings, and there is very little question, but this opinion is substantiated by facts. Malaria does not necessarily mean chills and fever while these troubles usually accompany it. It often affects the sufferer with general lassitude, accompanied by loss of appetite, sleepless ness, a tired feeling and a high fever the person afflicted growing weaker and weaker, loses flesh day after day, until he becomes a mere skeleton, a shadow of his former self.

> Malaria once having laki its hold upon the human trame, the door of the systen is thrown open to nervous diseases. The body weak to hervous diseases. The body weak and enfeebled absorbs no nourish-ment, but subsisting upon liself, the digestive organs no longer per-form their funcions; the liver bocomes torpid, and other organs failing to do their routine work,

2. "Keystone." During the past of wyears I have carried a number of watches, but the Lancaster Watch of the "Keystone" stem-winding grade, is the best I have ever had for keeping time. I have had it now for nearly TWO I KARS: It runs to the dot" always, and is as true as any Three-Hundred Dollar Watch I have ever seen. I don't believe there was ever a better time keeper, for ordinary use, turned out of any watch factory in the workd. EDWARD KAUTZ, Depot Policeman. 3. "West End." One year ago, or longer, I purchased from Mr. Louis Weber, a Lancaster Watch of the "West End" grade. It has been ON THE MINUTE EVER SINCE with our Railroad Time, and as a time piece cannot readily be excelled. I could not get any higher-priced watch that would be more satisfactory. A watch that would be more satisfactory. A watch that will stand the test of RAILKOAD USE so well as these Lancaster movements do, must be a good one. This is the only watch I have ever carried that has done anything like its good work, and I don't want anything better. W. F. WELCHANS, Clerk in Ticket Office.
