## CONFLICT OF AUTHORITY.

At a meeting of the county commission.

ers held this morning the following resolation was passed : Resolved, That since the board of poor

directors of Lancaster county have not illed the board of county commissioners that they are about to proceed to the repair and erection of the back wing of the county hospital : The county commissioners there-fore instruct the county solicitor to take such legal steps as shall prevent the directors of the poor proceeding any further than they were authorized by the county commissioners and the grand jury. SAMUEL M. MYERS.

A. SUMMY. M. HILDEBRANT.

September 8, 1882.

It will be recollected that the grand jury recommended the tearing down of the walls of the rear wing of the burnt hospital building, and the repair of the front part ; and that measures should be taken to have the insane cared for in the state institutions, and that at a joint meeting of the county commissioners and poor directors it was agreed that the front building only should be repaired. Since then the poor directors have determined to repair the back building also, and the commissioners deny that they have any authority to do so. The matter will proba bly be brought to the attention of the court, and a decision had as to which up to the time of his sickness. board has authority in the premises.
