We copy the following deserving and inter-esting compliment from the Tribune which says: "Dr C. W. Benson's New Remedy, 'Skin CURE,' is received by the public with great confidence, and it is regarded as a very generous act on the doctor's part to make known and prepare for general use his valu-able and favorite prescription for the treat-ment of skin diseases, after having devoted almost his entire life to the study and treat-ment of nervous and skin diseases, in which he took great delight. He was for a number of years physician in charge of the Maryland Infirmaty on Dermatology and anything from his hands is at once accepted as authority and valuable. The remedy is fully the article to attack the disease, both interally, through the absorbents, and is the only reliable nations i mode of treatment. These prepara-tions are only pat up for general use after having been fiscase, with the greatest success and they fully merit the confidence of all classes of sufferers from skin diseases."
