TUESDAY EVENING, SEPT. 12, 1882.

BEAVER AS AN EXECUTIVE OFFICER.

How He Has Managed the State College—Shameful Squandering of Public Money—Matters for Farmers to Consider.

The "Farmers' High School of Pennsylvania," afterwards the "Agricultural College of Pennsylvania," and now the "Pennsylvania State College," was organized under act of incorporation, July 13, 1854.

In 1857 the first application for State aid to the school was made and an appropriation of \$50,000 was secured. In 1861 an additional appropriation was made by the Legislature of \$49,500, making in all to this date, exclusive of the farm property, the sum of \$144,000.

In 1862 the act of Congress giving certain government lands to agricultural institutions was passed, and during the session of 1863 the Legislature accepted the land granted by Congress in behalf of the Agricultural College of Pennsylvania.

From Citizens of Centre county..... \$ 10,000
State Agricultural Society..... 10,000
Citizens of the State..... 20,000
Legislature of the State..... 20,000
Interest on scrip..... 104,200
Students..... 104,200

The above sum total is exclusive of the income derived from the college farms, the figures of which we have not been able to obtain.

Out of this amount was paid for college buildings and equipments..... \$10,000
Experimental farms..... 6,000
Total..... \$16,000
Leaving for school work the sum of \$280,000.00.

Not by attempting to cut down useless extravagances at the College; not by trying to build it up and return to the taxpayers of the State some equivalent for the money expended, but by appealing to the Legislature for further aid, which was granted, in the shape of an addition to the land scrip endowment of \$60,813.20, thus making the entire endowment fund of the College \$500,000, the interest on which at 6 per cent, or \$30,000 per annum, the State obligated itself to pay regularly to the college.

During the ten years he has had control of its management the average number of students per year, according to its annual catalogues, has been 144. The average income from each student has been \$50, making a total income to the college in the past ten years of \$72,000. To this is to be added the income arising from the endowment fund of \$30,000 per year, making the total income, exclusive of the profits arising from four farms and individual donations, as follows:

From Students..... \$ 72,000
Endowment fund, 10 years..... 300,000
Total..... \$372,000
In 1878 the Legislature generously appropriated \$80,000 to lift the indebtedness of the college heretofore referred to. Up to that time the annual interest on that indebtedness amounted to \$5,000, while from 1878 to 1879, it was put up in the aggregate to \$25,000. This sum, together with the cost of building a new brick and stone house for one of the professors, would be as follows:

For 5 years' interest on debt..... \$25,000
" Professor's house..... 2,000
" Water works..... 2,000
Total..... \$29,000
Deducting these expenditures from the income would leave it for educational purposes alone the sum of \$315,000.

With this fund General Beaver managed to have graduated in ten years forty-six students at an average cost for each graduate of \$6,848.26.

yourself which is the proper person to select as the chief executive of the State of Pennsylvania.

"By asking too much we may lose the little that we had before." Kinney-Wort asks nothing but fair. This article is a year or two of faith in his virtues. He is a man of God's gift. For thirty years I have been afflicted with kidney complaint. Two pages of Kinney-Wort have done me more good than all the medicine and doctors I have had before. I believe it is a sure cure."
