LANCASTER AND OTHER MARKETS.
The Crop of 1882—Estimate of Total Damage
—Old Tobacco Active—Holders of
1881 Jubilant.

There have been few crops of tobacco
ever raised in this country that have had so
many unfavorable accompaniments as the
present one. Trouble with plants to start
with; long continued dry weather kept
them back fully three weeks; and yet
in spite of all these drawbacks the pros-
pects two weeks ago for a fair crop were
good; but the late hail storm, caused by
high winds and cool nights have had a dis-
astrous effect, and farmers are feeling cor-
respondingly despondent over the outlook.
It is pretty hard to get at the amount of
damage done by the hail storm. Various
estimates have been made of it. The hail
insurance companies have lost heavily and
will be compelled to collect the full
amount of their premium notes to pay
the losses. Yet they are very slow to give
any figures as to the acres lost by each,
but claim the losses of the others to be
greater than their own. There is no
doubt that there are 3,000 cases damaged,
a great deal of which is a total loss, while
some of it is as low as \$25 an acre. It is
hard to arrive at the real worth of hail
cut until it is ready for market, when it
is generally found to be worse than ex-
pected. The high winds which prevailed
for several days after the storm have done
considerable damage to a good deal of fine
tobacco; where it was ripe it is badly
broken up. Farmers are very busy put-
ting away what is left, and are cutting it
clean as they go. A considerable quantity
of it is not ripe, but the cool weather and
the expectation of frost scares them, and
it will be a very short time before it is all
away. In the badly hail cut districts
many of the farmers are cutting off the
ruined crop with scythes and plowing it
down.

There is considerable business being
done in old tobacco. Buyers are on the
lookout for it, but in new goods there
seems to be no disposition to be made on
at this time. Last year this time over ten
thousand cases had been taken at big
prices, and those who bought it seem
happy in having it.

Dan. Mayer's Packing of 1881.

A large and remarkable fine packing of
1881 Lancaster county leaf tobacco may be
seen at the warehouse of Daniel Mayer,
Lemon street near Prince. Mr. Mayer has
long been packing for Kerbs & Spies, the
extensive manufacturers of fine cigars in
New York. Mr. Mayer was early in the
field last year, and received the contract for
it. He packed and secured about 3,000 cases
of the finest tobacco grown. For a few lots
he paid as high as 25 cents, for a great
deal of it 20 cents and over was paid and
very few wrappers were bought for less
than 25 cents per pound. This fine pack-
ing is now being sampled, and is being
up splendidly. It has sweetened admirably,
is of fine texture, desirable color and free
from all blemish. We can say this much
without being suspected of interested
motives, because not a pound of the pack-
ing is for sale. It was bought for Messrs.
Kerbs & Spies' own use and since the re-
sult of the sampling is known, the firm is
more than satisfied with Mr. Mayer's
purchases.

THE NEW YORK MARKET.

For the Week Ending Saturday, Sept. 16, 1882.

At last we have had a spell of genuine
activity. Brokers flow about in haste, and
reports of transactions of at least compar-
able magnitude came in with delightful
rapidity. Everything disposed of was
sold on "p. t." The buyers hinted at
having paid by prices, but—"p. t." The
sellers swore they obtained their highest
figures, but—"p. t." and the brokers in
no transaction were immediately
sorry that they could not divulge the
prices paid, the tobacco having been sold
at "p. t." This private terms business
has something very suspicious about it.
The goods sold were offered at a certain
price! More than that the sellers did not
get it. Therefore, if they are so anxious
to suppress the price received the inter-
ference is that the goods were sold at a
higher price than they were offered. In ab-
sence, therefore, of any certainty regard-
ing the prices obtained, we quote the
prices at which such goods were offered.
The bulk of the business done was in
new tobacco. Wisconsin Havana seed
leads; New York state Havana seed came
in next; Connecticut was third, Ohio
fourth and Pennsylvania limpingly brought
up the rear with 100 cases.

Taking a mere surface view, this looks
bad for '91 Pennsylvania; but when the
matter is considered thoroughly, the fore-
going exhibit signifies nothing. Wisconsin
and New York state have each raised
several thousand cases of Havana seed. It
was bought very early and comparatively
cheap. It also has qualities which are
found in Sumatra tobacco. This limited
stock, of course, is what buyers were eager
to secure. Most of it is out of the market
already.

The sales of Connecticut are in no way
indicative of its being popularly preferred
to Pennsylvania. Connecticut has no
competitor. It always sells to a certain
portion of the manufacturing branch,
slowly, perhaps, but surely. The 300
cases of '81 Ohio wrappers also disposed
of have no special significance bearing
upon the situation. They were simply
very cheap wrappers for very cheap cigars.

While, therefore, the individual transac-
tions for the week cannot justly be con-
sidered as certificates of superior quality of
the stock sold, they nevertheless indicate
the existence of a strong aversion against
Pennsylvania on the part of jobbers as
well as manufacturers. This is not to say
that the '81 Pennsylvania doesn't contain
as fine a tobacco as ever was raised, but
—"p. t." that prices packers ask
are above those for which Sumatra can be
obtained, and that the change of nature
of the tobacco, so fully demonstrated in
the '79 and '80 stock, has made buyers
awful more pressing need for it than the
present tobacco for. Carefully speaking,
we don't recommend holders of '81 Pen-
sylvania the use of too high a horse.

The sales of the week were as follows:
Crop '80.

Pennsylvania—200 cases; fillers, 6 to 63
cents; low running, 10 to 12 1/2 cents; fine
running, 15 to 17 cents.
Ohio—150 cases; wrappers, 8 to 11 1/2
cents.

Crop '81.

Wisconsin—1,000 cases; Havana seed,
14 to 19 cents.
New York—Havana seed, 900 cases, 17
to 23 cents.
Connecticut—700 cases; seconds, 11 1/2
to 12 1/2 cents; wrapper lot, 21 cents.
Ohio—200 cases; wrappers, 7 to 10
cents.

Sumatra—A heavy business has been
done, sales reaching 500 bales. The quot-
ations are: Small size, \$5 to \$5.25; large
size, light, \$1 to \$1.05; medium
size, dark, \$1.10 to \$1.20.

Havana—Market moderately active.
Sales 500 bales. Prices unchanged.

Yara—Sales 150 bales, at 70 to 85
cents.

Gans Report.

Sales of seed leaf tobacco reported by
J. S. Gans' Son & Co., tobacco brokers,

No. 131 Water street, New York, for the
week ending September 18, 1882:
1,000 cases 1881 Wisconsin Havana seed
16@18.; 800 cases state Havana seed, p. t.;
100 cases 1880 Pennsylvania p. t.; 610
cases 1881 New England, 11@30c.; 314
cases 1881 Ohio wrappers, 7@9c.; 100
cases 1880 Ohio wrappers, 8@11c.; 200
cases 1880 Pennsylvania, 6@20c.; Total,
3,133 cases.

"Tobacco Leaf" Report.

The past has been a busy week in the
seed leaf market, the observance of the
New Year to the contrary not-
withstanding, and we have the pleasure
to report sales of 3,641 cases, against 1,850
the week preceding. The close of the
week will show a very satisfactory total
of transactions.

It is not worth while to inquire why
business has been dull of late, but it is
well enough to observe that it is not be-
cause Sumatra tobacco is supplanting
seed leaf. No imported tobacco will ever
do that, and all talk to the contrary is
simply "poppy doodle," to use a slang
expression. When the great cigar man-
ufacturers buy all their seed leaf
from the merchants dealing in it, as they
used to do, instead of buying the most
of it, as they now do, from the grow-
ers, then Water, Pearl, Front Street
and Maiden Lane dealers will be kept
steadily busy through the season, just as
they used to be. Don't forget this fact in
firing hot shot at the few bales that come
across the sea, from Sumatra, Cuba or
other foreign lands.

Philadelphia Market.

The past week shows no decrease in the
demand for popular standard brands, with
prices holding steady; at the same time
a number of job lots of A. No. 1 goods have
been offered at low figures which have
found sales. In addition some manufac-
turers are coming on the market with
new brands of goods, in order to introduce
which they are offering inducements in
the shape of tokens to be given away.

Trade moderate.

Fine-cut—A slow but gradual increase.
Smoking—A slight improvement notice-
able.

Cigars—Trade continues very active.

Snuff—A pleasant, profitable business.
Receipts for the week—3,210 lbs. 4,113
caddies, 5,396 cases, and 293 pairs of fine-
cuts.

Seed Leaf—Packers and dealers all
claim a fair paying business done the past
week in all grades. New seed leaf of all
kinds is moving nicely in good sized lots
at full prices.

Havana, as usual, meets with quick
sales, owing to the elegant flavor.

Receipts for the week—463 cases Con-
necticut, 581 cases Pennsylvania, 62 cases
Ohio, 91 cases Wisconsin, 83 cases New
York state seed, 169 bales Havana, 351
lbs Virginia and Western leaf tobacco.

Sales have been—232 cases Connecticut,
450 cases Pennsylvania, 49 cases Ohio, 70
cases Wisconsin, 60 cases York state seed,
177 bales Havana, and 74 bales Virginia
and western leaf in transit direct to man-
ufacturers.

Exported of leaf tobacco to Liverpool,
24,819 pounds.

Tobacco Notes.

A correspondent writing from the Uni-
on, Dunore townships, says:
"The statement in the weekly INTELLI-
GENCER of the 13th inst., under the head
of 'The Great Hail Storm,' that in the
vicinity of the Union the loss will be
heavy will admit of a construction that
does the tobacco growers of this section a
great injustice. There was no hail in this
one mile of the Union, and the present
crop of tobacco that is now being put
away by us, is decidedly the best, both in
quantity and quality ever grown in this
vicinity."

as clear as water, and, as its name indicates,
is a perfect Vegetable Hair Restorer. It will
immediately free the head from all dandruff,
restore gray hair to its natural color and pro-
mote new growth where it has fallen out.
It does not in any manner affect the health,
which Sulphur, Sugar of Lead and Nitrate of
Silver preparations have done. It will change
light or faded hair in a few days to a beautiful
glossy brown. Ask your druggist for it. Each
bottle is warranted. SMITH, KLINE & CO.,
