A large wreck occurred this morning at 1:40 o'clock, on the Pennsylvania railroad at Buck Lock. Engine No. 150 ran into the rear end of the train drawn by engine No. 583. The latter train was at a stand still, and the flagman was sent back to flag the train following, a peach train, drawn by engine No. 150, castward wound. It is claimed by the crew of the latter train that he only went to the rear a few car lengths, and gave the engineer of the train following notice to stop his train. The collision threw ten cars belonging to both trains off the track, and four oil cars of the forward train took fire. In a short time the flames spread in all directions, wrapping in its fiery cmbrace a number of cars. The Columbia fire department was telegraphed to for assistance, and the "Columbia" fire engine was sent to the scene of the disaster. By eight o'clock the flames were under control. Eight cars were burned. The Columbia wrecker were immediately sent to Buck Lock to clear away the debris of the wreck. LANCASTER WATCHES, IT IS, AS WE KNOW, AND AS EVERY- with neither of them out.

A BOLD CLAIM,

But we make it Peliberately, and upon th Lancaster Watches,

ARE, GRADE FOR GRADE, THE Best Watches in America.

" Keystone " Grade. Splendid Record" Although Subject to Rough Bicycle Riding."

LANCASTER, Sept. 13, 1882. To Lancaster Watch Co. Gentlemen: Several months ago I bought a "Keystone" Watch, No. 24,887. After getting it to close adjustment, I compared it regularly with the time delivered by the W. U. Tel. Co. daily from the Clock in the National Observa-tory at Washington. At the end of Twenty Days its variation was ONLY ONE-HALF SECOND. Days its variation was ONLY ONE-HALF BECOND, by chronometer, from mean time of the Wash ington Observatory—which clock is never allowed to vary more than one-tenth of a second from absolute accuracy. At that time I unfortunately neglected to wind it, and thus lost continuous record. It has since been doing excellent work, although subjected daily to considerable rough bicycle riding, which is a severe test of its time-keeping and running qualities. This is not a "Special" Watch, but was taken directly from stock, as sent from the factory. /atch, but was taken, /atch, but was taken, ent from the factory.
Yours truly,
C. B. LONGENECKER.

I have carried a "Lancaster" Watch of the finest Nickel grade, for three years, and it has given entire satisfaction. It has kept accurate time, so accurate that I have repeatedly offered to test it with the most widely known movements. It has not yet needed any repairing, and I can unhesitatingly pronounce it one of the best in the market. I do not desire anything better. Aside from its utility, the "Lancaster" movement is unexcelled in beauty.
