## A Dismal Nomination.

Of the candidates of the Republican party for the state offices in New York one so far has declined and one has accepted the nomination. Congressman at-large Hepburn thinks that the "unfortunate circumstances that have come to light since the adjournment of the convention " makes it advisable that the representatives of the party should be reassembled to do their work over again : and he resigns his nomination under that conviction. The nomines for governor takes a different view. He thinks that there is no good reason to believe that the result of the convention was not fairly arrived at or that it will not be acquiesced in by the party. But, conceding that he is going to be beaten, he considers it to be his duty to go gaily to the sacrifice. His withdrawal would, in his judgment, result in the total collapse of the Republican party in the state, since it could not be reassembled before the election, and if it could be, it would not be able to get a candidate who would hold the party together.

It must be conceded that Judge Folger's position, so far as his party is concerned, is a strong one. Mr. Lincoln's sound maxim that it is not well to swap horses while crossing a stream comes into good play here. The injury done the Republican ticket by its fraudulent nomination can hardly be remedied by admitting the fraud and setting up another ticket. That injury is irremediable. The party would be very apt to go to pieces in any effort to remedy it. It: best plan is that which Judge Foiger dictates to it ; but it is not the best plan for himself. If he is sincere in declaring that he does not want the nomination and never did, and only now accepts it from his conviction of what is best for his party, he deserves a good deal more credit for his magnanimity than he is likely to get. He would gain more applause by declining a nomination fraudulently obtained. It is what he ought to do for his own reputation. It is not right in tison.

him to accept such a nomination; although it be admitted that it is the best thing he can do for his party. He is not bound to sacrifice himself to his party, or to accept a dirty nomination for its sake. There is, as we have said. a certain magnanimity in such conduct; such as lies in every sacrifice, how ever mistakenly or unworthily made. It springs from a generous impulse which is itself worthy of applause, but would be worthier if it was more wisely directed. It might have been a selfish impulse which would have directed Judge Folger to decline a nomination which he believed would only bring him defeat ; but it is often right is expected to oppose Candidate Folger. to be selfish; and this was such a case. state has not changed in the slightest in the past week or even in the past few weeks, except that the Independents have daily gained strength and that the Democrats have daily increased their chances of a full and solid party vote. There is less ground of belief now than there has been at any previous stage of the cam-

paign of Beaver polling 300,000 votes ; there is more reason than there has been at any time for the expectation that Stewart will get 100,000 votes; and there is no principle of political calculation which will justify the fear of Pattison's vote being below 350,000. The last of these figures are more apt to be increased than either of the others. Their logical

THE rats are deserting the sinking ship. Henry Ward Beecher will not support Folger.

THE lady correspondents are discussing the question whether it is proper to speak of Mrs. Burnett, the novelist's love of dress. A lady may love to dress with good taste, and may have an innocent liking for elegant clothing without giving up her whole time and heart to it, and Mrs. Burnett's books show that she has a great deal of hard work to do.

THE netoricus Harry Huhn, clerk of the House, whose personal componsation is \$3,972 per annum, and who has charge of the disbursement of nearly \$11,000, besides for "contingent expenses, etc.," is an earnest supporter of Beaver, He well knows that the wholesale jobbery that has made Pennsy'vania a by-word and a reproach among her sister states will to meet him or to overhear the brief intercease with the election of Robert E. Mr. Hensel, chairman of the Democrat ic state committee, happened to be in New York on Monday and dropped into the Democratic state committee rooms at the Park Avenue hotel. In the Evening Telegram appeared the following :

Among the early visitors were ex-Judge Hilton, Senator Daly, Colonel Lee, Felix Mc-Closkey, of Brooklyn; Frank J. Dupignac, ot New Rochelle; Samuel W. Johnson, of Mama-roneck, and William U. Hensel, chairman of the Democratic state committee of Pennsyl-vania. The last named gentleman was the re-

densel. "I am glad you asked me," was the reply,

Senator Daly, who heard this conversation, followed with an indorsement of Mr. Hensel's views, "I had occasion," said the senator, "to travel recently through several Republican counties in Pennsylvania, and was astonished to find the change among the masses. The supreme court, sitting at Pitts burgh, has rendered a decision in the appeal of Haines and Clement, convicted of conspiracy in connection with highway department contracts in Philadelphia. Judge Sterrett delivered the opinion. The case was appealed to the supreme court on the right of the commonwealth to stand aside jurors in case of misdemeanor, and the court decided, after five months deliberation, that the district attorney had the right to challenge jurors. The find ing of the lower court was affirmed, and the costs of the appeal were put upon the appellants. This decision leaves no cscape from the penitentiary for the defend ants. THE Republican organs have received orders that they must make some defense for Beaver's treachery to his constituents when he voted for Grant at Chicago. The following clipped from the Lock Haven Republican, the leading Republican paper of Beaver's district incontrivertibly proves that the Republican candidate for

Governor betrayed his trust : 'The delegates from this congressional district to the Harrisburg convention met in caucus on the evening of the 3d of February, 1880, at which a resolution was offered declaring it to be the sense of the caucus that the Republicans of the district are largely in favor of the nomination of James G. Blaine for president. After the passage of the resolution the question as to whether any or all the gentlemen who were asked to go to Chicago would sup-

port Blaine, regardless of the instructions the convention might pass was fully discussed. Mr. L. Brosius, one of the delegates chosen and who was there agreed to abide by the instructions contained in the resolutions of the caucus. General Beaver was not here, but was represented by a delegate from Centre, who voted for the resolution of the caucus and claimed that Beaver had authorized him to say that he (Beaver) would faithfully represent the

wishes of the Republicans of the district. With these assurances he was clected. The following resolutions was passed by the Republican congressional conference

at Lock Haven, in 1880. "Resolved, that we the delegates from the 20th congressional district of Pennsylvania, composed of the counties of Centre, Clearfield, Clinton, Elk, Miflin and Union, do hereby express as the conviction of the people of the counties which we represent. that James G. The import of that class of marks of violence were on the body foul tobacco is so infinitesimally small, compared with the actual needs of our cigar manufacturers, that no appreciable impression can be made on the price of the home grown tobacco. Even if the whole crop of Sumatra should be imported into this country (which is, of course, an impossibility,) it would not alter prices materially for the home growth, as its high

price would preclude its use in anything but the fine grades of cigars, consequently

### DRIVING ACCIDENTS.

Two Women Run Over and Hurt. This morning as Mrs. Elizabeth Snyder, residing at No. 238 North Water street, and Miss Katie Flick, residing at No. 230 West Chestnut stree, were returning from the Northern market, they were run over by a horse and buggy at the corner of Prince and Walnut streets, and both of them were severely injured-Mrs. Snyder receiving a very severe cut on one arm between the elbow and shoulder, a large vein being severed causing profuse hemorrhage; she was also badly bruised about the body. Miss Flick was knocked down.
