## TOBACCO NEWS.

CONDITION OF CROPS AND TRADE The Market in Lancaster and Abroa

Recent Transactions in Seed Leaf and

Manufactured Tobacco. There is very little of the crop yet standing in the field; occasionally one may be seen, but these and a great portion of the very late will hardly pay the cutting. We have heard a great deal of complaint on the part of farmers of their tobacco not curing on the poles, and to verify it have gone to some trouble, to go around among some of them; and are sorry to say that the complaint is well grounded. We saw some of them badly damaged, one of them, in a good shed, was really rotten; another in a barn was falling off the stalks and in other cases. falling off the stalks, and in other cases we found plenty of shed-burns and stem-rot. This is confined to tobacco that was cut during the wet weather and soon after it. One of the best growers says there was too much wet in it when put away. Some of the medium and later crops since they are begining to case show a considerable damage from fleas. There will be some very fine goods in this crop, as good as ever found in this county, and whilst we do not want to be considered an alarmist we make this prediction: That there will not be half as many fine cases in it as in last years. The crop may be big as far as acres go, but the lateness of the planting made low topping necessary in the first place and the storms were serious-more so than is generally supposed—and the damage now being done
by hanging is among the best goods generally such that the outlook for real fine
goods is not encouraging.

A farmer told us a few days since that

in his neighborhood he thought while the tobacco was growing that he had never seen better prospects, but now he is satis-fied that it will not pan out more than a half crop and that the yield in his best patch will not be 1,000 pounds to the acre. Much tobacco this year was topped at six and eight leaves.

Sampling of the '81 is almost over. and packers say it speaks for itself. What we have seen really does look elegantly and will no doubt give satisfaction to manufacturers. It shows less white vein for damage than has been in any crop for years.

There is some business being done in old goods, and for low grades there is a good demand. Fillers are especially wanted, and we have heard of some big offers for them; but on the whole our local trade during the past week has been

The New York Market. U. S. Tobacco Journal.

It has been a heavy week in point of sales, giving buoyancy to the market and inspiring holders of crops which have been thus far neglected with new and brighter hope. It cannot be denied that the rapid clearing off of the '81 Wisconsin, New York state and, to some extent, Connecticut, justifies the hopes of a better market for '81 Pennsylvania at no distant date. The stocks of the three crops just named that so far have left the hands of packers, are classed as the best portions of the same. The inferior grades will be much harder to dispose of. It stands to reason that the best grades of '81 Pennsylvania will come next for the considerafrightened prospective buyers, and conse-quently they have turned toward those crops the large sales of which have been noted during the month past. As we said before, the exhaustion of the fine grades of these crops must bring the attention of buyers once more to '81 Pennsylvania. The late large purchase of '81 Wisconsin, New York state and Connecticut must be looked upon also as a defensive movement on the part of buyers, especially the eigar manufacturers. They have, so to speak, fortified themselves with a stock of leaf sufficient to last them several months. They will not come before the holders

of '81 Pennsylvania as forced purchasers. They will, and, in fact, already do, as-sume an air of nonchalance and rejoice in the anticipation of freezing out holders. To some extent the game will work. Weak holders will close out at the first reasonable chance; strong holders, perhaps, can only be forced to submit after abcut a year's stubborn fight by the chance of buying the '82 crop at small figures from growers. From the tone of the Pennsylvania country press, we find that farmers do not incline that way as

In old tobaccos, also, a heavy business was done. The concessions that are being made to buyers are very heavy. The sales of the week were as follows

Crop '81. New York-1,100 cases, (Big Flats,) 8 to 15 cents. Wisconsin-1,300 cases Havana seed, 16 to 20 cents. Connecticut-700 cases, mostly Housa-

tonic, 14, 18, 23, 30 cents. Ohio—300 cases, 6 to 9½ cents. Pennsylvania—250 cases, p. t. Grop '80.

Pennsylvania-350 cases: 12 to 16 cents for running; medium wrappers, 25 cents. Ohio-300 cases, 6 to 7 cents.

New York-500 cases (Big Flats), p. t. Havana—Market very active. Sales comprise both '81 and '82 stock. For the latter there exists considerable inquiry its apparent fine quality proving attractive to speculators. Prices firm. Sales, 1,000.

Sumatra-Market remains active. Sales 400 bales, at prices ranging from 90 cents

Philadelphia Market. The usual trade in manufactured tobacco continues fully up to the mark the past week. Standard brands are freely used at full figures, while new brands of excellent material and splendid workmanship are

offered at off figures.

Fine-cut is fairly active at full prices; reliable goods have first call. Cigars-A business full of life; orders for employer and employee. The stock turning out fills the bill; the trouble is to get goods ready promptly.
Snuff is up to the mark in sales; price

and profit satisfactory.
Seed Leaf—A fair customary trade was done the past week. Prices remained steady, especially for 1881 Pennsylvania new leaf. Fine wrappers of Wisconsin and York state seed, 1881, appear to show color, quantity and quality, and are evidently the best crop for many years; so much so that Sumatra must take a heat seet. back seat. Prices hold very steady, and

favor the bolder. Receipts for the week—729 cases Connecticut, 498 cases Pennsylvania, 121 cases Ohio. 64 cases Wisconsin, 84 cases York state seed, 149 bales Havana, 416 hhds. Virginia and Western leaf tobacco.

Sales have been-399 cases Connecticut 410 cases Pennsylvania, 71 cases Ohio, 48 cases Wisconsin, 32 cases York state seed, 101 bales Havana, and 119 hhds. Virginia and Western transit direct from manu-

facturers.

A special from Waupaca, Wis., says:
A daring murder and bank robbery occurred here last night, the victim being H. C.
Mead, a wealthy banker, who has been in tusiness here for thirty years. He was an eccentric bachelor of 60, who slept in the bank and boarded at the hotel. To-day he failed to appear at breakfast or dinner. A messenger was sent to the bank and found it locked. Going to a back window he found the wire screen cut, the window let fou found the wire screen cut, the window let down from the top and Mead lying in a pool of blood on the floor. Investigation

GENUINE YARA CIGARS. A FIRE showed the head and face to be horribly mangled with shot, as if both barrels of a

double barrelled shot-gun had been discharged at him at short range. It is supposed the assessins shot him from the window while he was sitting at a table writing. The safe was unlocked and the assassins had carried off several thousand dollars in currency, gold and silver. The exact amount is not known. There is no clue to the murderers.

PITTEFORD, Mass., Sept. 23, 1873.
