MONDAY EVENING, OCT. 23, 1882.

A Campaign of Faise Pretences. The Stalwart machine of Pennsylvania has been traveling over a rocky and perilous road, indeed, during the past year. It got a severe shaking-up in the campaign of last fall, and had a narrow escape from very serious disaster. But its troubles were only beginning, and the polls were hardly closed in November, 1881, before the bosses saw on every hand active and determined preparations for the great battle of 1882. True to their instincts and practices, they resolved upon a campaign of false pretences, and upon that line they and their henchmen and organs have been working ever since, with a disregard of truth, fact and decency that at fimes has been amazing. The first movement in this programme

of deceit and fraud was led by Mr. Quay in person, when he inveigled some of the Independent, Bepublican leaders into the hunt professional "mashers " whom the famous Continental conference, and paper the next day exposes. made solemn promises of reform which never were meant to be kept. The same snare was set again at the time of the Harrisburg Republican convention. baited with Davies and Rawle, and, an absurdly transparent scheme to put Wolfe on the hook too, followed by a brazen effort to palm off as a genuine copy of the Continental platform an emasculated imitation of the same. Even the resolutions adopted. however, were openly jeered by the honest but " indiscreet " and undisciplined delegates, and the ink on the paper was scarcely dry before they were contemptously disregarded by the special representative of the managers, the chairman of the state committee. The candidate for governor immedi-

ately took up his part in this well studied plan to deceive and betray the people. In a carefully prepared speech of acceptance he took high moral ground as a patriot, freeman, reformer and defender of the people, following this up, a little later, with another speech at Harris burg, which was a strange mixture of glaring misrepresentation, foelish ego- tered is issued from the press of J. He attended Grand Army re-unions, county fairs, religious anniversaries, visited schools and public institutions, all with the sole purpose of making votes, but pretending otherwise. A great part of General Beaver's campaign work has been of this raphers of the illustrious founder of the character, and the fact is discreditable in the extreme. In his speeches the can- letters written by William Penn in 1683 didate of the bosses has been true t to his wife and children and those to the their original design. He has spoken society of Free Traders. The Frame of the train moved out George F. Baer, F. S nearly one hundred times and never yet squarely and honostly met the living and vital issues of the contest. He has talked and talked all around the questions of the hour ; he has raved at those who challenged him to show his manhood; he has equivocated and prevaricated ; he has cringed before the inexorable demand of the bosses and done his level best to shield them and their cause. He has worn a mask throughout the contest and zealously endeavored to turn aside the rising tide of popular in dignation against the corrupt machine and its evil works. In short, General and the subject matter contained in its Beaver's campaign has been one of false 208 handsomely printed pages is presented pretences from the day he was " slated " in Cameron's house at Washington until gaid to the order of time and making it a the present hour, and he will undoubtedly volume of great interest to the ordinary guest he was for supper. The ambition of the average Berks county Democrat is to roll average Berks county Democra: is to foll up such a majority as will balance the Republican preponderance in Lancaster, and the meeting on Saturday night though little effort was made to give it the dis tinction, was the largest night meeting ever held in Reading. The visit of the Demo-cratic candidate for governor has provoked

the most intense enthusiasm. The streets are crowded everywhere, and the audience in the Academy of Music, capacious as that edifice is, is but a meagre part of the great crowd. A stand was hastily erected in front of the building and thou-

sands of faces surrounded it. The proces siqu in the evening was a splendid pa geant. The Democratic Corps Legion headed by a martial band, the Keystone

Chairman Hensel's objection to torches was respected in the main, but as the column marched along the streets rockets and Roman candles sent forth their color

ed fires and spread a weird and beautiful tint upon the buildings. Cheers followed the evolutions executed with military pre-cision and all incidents combined to make

the demonstration an extraordinary one. The personnel of the campaign tourists has somewhat changed since its return from the oil country trip. THE BI-CENTENNIAL. A Large Meeting of Friends at Chester

In Early Poem by Whittler. A largely attended meeting of Friends

was held Sanday in the meeting house at Chester, Penna., in commemoration of the 300th anniversary of the landing of William Penn. Addresses were made by several leading Friends, and a letter and poem from John G. Whittier were read. The verses-on "William Penn"-were written nearly sixty years ago, when their author was a boy of sixteen, but he ven-tures to send them as the only response he cau make to a request for a poem on the theme. It may be remarked that they have all the characteristics of his verses of later years. The poem is as follows : WILLIAM PENN.

The tyrant on his glided throne, The warrior in his battle dress, The holier triumph ne'er have known Of justice and of righteousness.

Founder of Pennsylvania ! Thou Didst feel it, when thy words of peace smoothed the stern chieftain's swarthy brow And bade the dreadful war-lance cease.

On Schuvlkill's banks no fortress frowned The peaceful cot alone was there ; No beacon fires the hill-tops crowned, No death shot swept the Delaware.

In manners meek, in precepts mild, Thou and thy triends screnely taught The savage huntsman. fierce and wild, To raise to heaven his erring thought.

With hearts that know not how to spare, Disdaining milder means to try, The crimson sword alone was there, The Indian's choice to yield or die !

But thou, mock Pennsylvanian sire, Unarmed, alone, from terror free, Taught, by the heathen council fire, The lessons of Christianity

Fountier of Pennsylvania's state !

In the Scoville instalty case Fanny Sto ville Harper, the daughter, testified that she had intercepted a note from Geo. W.

Earlie to Mrs. Scoville, the contents of which were very improper. She had seen her mother kiss three men whom she had no right to kiss, and had heard of many others whom her mother had kissed, but leclined to tell their names.

Dr. A. McFarlane, of Jacksonville, Ill., was subpenzed, but did not testify, in the Guiteau murder trial, and who has been for 26 years in hospitals for the insane in being New Hampshire and Illinois, said eighteen years ago Luther W. Guiteau Brought to him an insane sister for treatment. From Guiteau's talk, which was very peculiar, he set him down as a crazy man. The impression was very strong on the witness us,' and he readily saw how Luther's son could get into a state of mind necessary to kill President Garfield. He had met Mrs. Scoville at Washington last winter. She had a fierce controversy with John W. Guiteau about the witness testimony. John declared that nobody should testify that his father was insane. Mrs. Scoville said witness should testity, and declared that all the family were pre-disposed to insanity. He believed that Mrs. Scoville's fainting and epilepsy were sure to produce insanity. Her being a chaste and loving wife until recently and her sudden change was an evidence to him of insanity. He held, in short, that the whole family, including John W. Guiteau, were of unsound mind and insane.

Very Large Congregations. The 50th anniversary of the organization

the Sunday school work of the Reformed churches in this city was cele-brated in the First Reformed church on Sunday and drew together an immense concourse of people both in the afternoon and evening. The church was very handsomely decorated, the ornamentation chiefly confined to the pul pit and chancel and composed of cat flowers and plants, Against the front of the arch over the pulpit recess was a quotation from 1st Samuel vil., 12, "Hitherto hath the Lord belped while just beneath this was the sentence, "Our Semi Centennial," and below on the cast column "1833" and ou the west column "1882," The letters and figures were out from heavy card board and covered with tin foil, and being placed against a back ground of dark blue cam-bric, made a beautiful appearance. Against the wall in the recess behind the pulpit was the figure "50" arranged from choice

out flowers. In front of the perpit inside the chancel rail was a mound composed of flowers, leaves and ferns, with a profusion of plants on each side, the whole present ing a most pleasing and beautiful appear-

The children's service was held at 2:30 in the afternoon, and was attended by at least one thousand teachers and scholars.

in the hymn. Rev. W. F. Lichliter, of St. Luke's nission, addressed the children, reviewing the progress of the Sunday school cause of the Reformed church in Lancaster, during the past fifty years, saying that the records showed to day an army of almost one thousand teachers and scholars, and believed that the next fifty years would swell the number to three thousand. He dwelt much on the responsibility of the teachers and urged the importance of ieting a good example to their scholars, both in and out of the school room. He

SHACKLING AN ELEPHANT.

Dom Pedro Put in Chains at the Zoological

The keepers of the Zoological Garden in Philadelphia had a long struggle with the elephant Dom Pedro Saturday, in attempt. ing to remove a chain from around one of his tusks and replace it with a stronger one. Dom was purchased in 1876 along with Empress. He has since grown to be about six feet tall, and has a temper that

grew ugly as he drew strong. A few days ago the animal attacked Keeper Pendorgast, and would have killed him if Empress had not interfered. It was then decided to take severe measures with him, and the animal was literally put in irons. Chains were attached to his fore legs and run about the neck. They were also secured to his tusks, and the free motion of the head was checked.

this condition Dom was chained to the S. S. Cox. front of the cage. It was found that one

of the clamps at the tusk was insecure, and it was decided to replace it. To do this the animal had to be thrown, and a rope was first attached to his hind legs. The rope was passed through a block and the chains at his fore feet being held firmly, the men hauled away slowly but surely, drawing the elephant's feet from beneath him. He struggled fiercely in resistance, but the block and tackle were too much for him. The other elephants grew excited as the work went on, and trumpeted wildly at frequent intervals, Empress threw herself against the bars again and again, as though determined to go to Dom Pedro's assistance. The animal was finally drawn down upon his haunches, after which the chain holding the right fore foot was crossed to the left side of the cage and drawn taut. The difficulty was then to roll the animal over on his side. Several men entered the cage and pushed and tugged at him, but their efforts were without avail until a rope passed under
