Gould Given Advice. The English magnate in telegraphic affairs, John Pondir, who has been in this country lately viewing its telegraphic system, is said to have given some excellent advice to Mr. Jay Gould, b:fore he left our shores. It was relative to the management of the Western Union telegraph company which is under Gould's control. Mr. Pondir was invited to enter into the direction of the company, but has not as yet signified his desire to do so. What he told Mr. Gould was that he should make it his endeavor to conduct the affairs of the telegraph company honestly and in the public interest. "You have made money enough to satisfy any one's desire," is what Pondir said in substance to Gould, "and now it would be expedient for you to try to get a good reputation." The words were words of wisdom. Mr. Gould, having a great deal of money and no reputation to speak of, would certainly do well to bend his energies towards remedying his deficiency. But probably his misfortune is that his talent does not run in that line. Very few people have distinguished talent in every direction ; and the millionaires of the country who have made their millions by thimble rigging their fellow-men in stock gambling transactions may be supposed to be generally very deficient in the qualities which go to make up the respectable citizen. A man certainly cannot be honest and respectable at the same time that he is dishonest and disreputable ; it is possible that at different periods of his life he may appear Chambersburg, Saturday night, dein these different aspects to his clared that "one hundred thousand fellow-citizens ; but it is not very pro bable. The leopard cannot change his can party were running away from spots and the wicked man cannot much one man, Don Cameron." Was this admore readily shake off the confirmed mission of the Independent strength in habits of years and appear before the the state an inadvertence on the part of world in the white robes of innocence. the Stalwart candidate ? We have heard of a reformed cracksman who divided the proceeds of a bank rob bery with the bank he robbed, and hav-

ing thus purchased immunity from prosecution, settled down to enjoy his share of the spoils amid his fellow-citizens, and who ever afterward lived a blameless life. If Mr. Jay Gould has this versatility of character, Mr. Pondir's advice to him may bear fruit, and it is possible that amored of his goodness and benevolence that we will want to elect him to the presidency; though if he has any such high ambition perhaps would be just as well for it him to postpone his regeneration until

A willow with a family of children, PATTISON IN THE WEST. having a \$900 clerkship in one of the Washington departments, charged to ENTHUSIASM ALL ALONG THE LINE. Virginia, has been assessed \$45 by Mahone, and she has been referred to Mahone by her department chief to whom she went to know whether she

must pay. He thought that Mahone, if he knew she was a widow with a family and needed all her income, would not be required by Mahone to pay up, and he even ventured so far as she should. But think of a government clerk being referred to the Virginia exposure of the delegation by the president of the United States of his authority, we know not what it is.

THE Lancaster Democracy are preparing to give the next governor a rousing reception. Pattison will be here to-morrow.

HAS Governor Hoyt heard the loud call that is made on him to speak what he thinks about Senator Cameron in general and the present campaign in particular?

CAUTIOUS and farsighted Republicans have already engaged passage on the boat that is to bear them up Salt River next week. There will be a rush and a crush after the returns come in.

REPUBLICAN outcry was raised at the alleged shrinkage in values of \$40,000,000 after the Ohio election. Since that election the advance in corn and wheat has amounted to nearly \$200,000,000. Here is a wide field for Republican comment.

CANDIDATE BEAVER, in a speech at full grown men in the Republi-

THERE is such a thing as carrying partizan malignity too far. The venom-distilling Philadelphia Bulletin attempts to make capital out of the exploded "Mc's and O's" story by claiming that Pattison efforts and his speech was one of the most has never made an affidavit of denial. Mr. Pattison has denied this bare charge over his own signature and the files of four of the must reputable dailies of Philadelwe may some day become so much en. phia have been looked through and no such remark as alleged has been found in expired an adjournment followed, and the the report of the speech as delivered. To visitors were driven to the train for Conkeep the silly story in circulation on the sole technical ground that an affidavit of one of absorbing interest. Evidences of

How the Democratic Candidate Was Received in His Trip Across the State-A Monster Meeting at Pittsburgh.

Democratic cuthusiasm, like the pro verbial Star of Empire, seems to have taken a westward course this year. At least it has been the experience of the Pattison campaign party that interest grows and enthusiasm multiplies as they approach the Ohio line. The recent verto decare that it would be a shame if dict of the people of that state may in some manuer account for that fact, but the uprising suggests that Western Pennsylvania Democrats are taking a hand in senator's mercy to save her situation and this election on their own account and her money ! If that is not a scandalous that while Obio has stimulated it has not furnished the prime reason for it. Cam. bria, Westmoreland, part of Fayette and the south part of Allegheny counties tra

versed Saturday and at all points the same feeling prevailed. In Westmoreland every body expects a Democratic meeting to be a sort of general holiday affair, but after a thunder-storm of considerable soverity and a drizzling rain that continued the most sanguine could not have anticipated the vast crowd that assembled at Greensburg. The subsequent meeting at Connellsville drew the south section of the

county to that point as the most convenient, but nevertheless the streets were crowded to excess and the court house has seldom held a more densely-packed or earnest audience than that which greeted the candidates for governor and lieutenant governor and their associate campaigners. The party left Altoona Saturday morn ing and crossed the mountain in a rain.

They stopped at Johnstown on No. train and they were met by a very large number of people. At Derry station a committee, headed by J. L. Toner, got on board to attend the Greensburg meeting, and at Latrobe Captain Jacob Beirer and hosts of others were added. Greensburg was alive. The park around the station presented au interesting spectacle. General Richard Coulter, the famous "Fighting Dick," with his rheumatic arm in a sling; ex Licutenant Governor John Latte. ex-Congressman J. Turney, chairman of the county committee ; John H. Koontz, sheriff

of Kettering, and many other leading party representatives were in waiting with carriages and bands to escort the visitors to the hotels. Time pressed and this was soon accomplished. After dinner the meeting was organized and it was a monster demonstration. Controller Pattison spoke

for half an hour with eloquent carnestness and was followed by Chauncy F. Black. Black was almost on his native heath and among the old Westmoreland Democrats. A kinded spirit inspired him to his best effective of the compaign. Senator Gordon, after repeated calls, won rounds of applause for his eloquent sentences, and though Chairman Hensel was called for loudly and long he forebore to speak, and the time allotted to the meeting having

## FIRE RECORD.

Destruction of a Falt Eiver Frint Mill. The Flint mill at Fall River, Mass, caught fire on Saturday afternoon from a belt in the packer room, and the flames spread rapidly through the whole building

which was a total loss. The mill was a magnificent structure of granite, five stories high, built in 1872, and constructed and equipped at a cost of over \$800,000. The main building was 300 feet long by 94 feet wide. There is an insurance amount ng to \$620,000, all in mutual companies n Boston, Providence and Fall River. The mill had a capital of \$600,000 and a arge amount of the stock was held by men who can ill afford to lose it. The total number of stockholders is nearly 200. The mill employed 500 hands and had nearly 50,000 spindles, and had an annual production of 13,000,000 pieces of print cloths.

The ruins of the mill are still burning. Of the main mill only the lower sides and part of the south end remain, and portions of these will fall. Of the picker house in the rear the upper two stories are gone ; the lower story, on which is the engine and boiler room, is comparatively uninjured. All the machinery lies in the basement among a mass of burning debris. There was a defective water supply, caused by the smallness of the service pipes of the water works. In one end of the mill was a tank containing twenty barrels of oil and at the other a vesse tilled with a large quantity of naptha, but strangely neither of them exploded, al-though covered with a burning mass and exposed for hours to the most intense heat.

Fourth General Fire in Truckee, Cal. A dispatch from Truckee, Cal., says A fire last evening destroyed a consider able portion of the business part of the town, including the American hotel, the Sherritt house and the Odd Fellows' building. The loss is probably \$100,000 ; twothirds covered by insurance. The fire started in Menke's brewery, and was thought to be attributable to his careless. ness. This is the fourth general fire that has occurred within a few years, and under the excitement consequent upon this conflagration there was some talk of lynching Menke." Fires in Other Places

The barn of Colonel Charles Trail, near Frederick, Md., was burned last evening. together with 1,400 bushels of grain and 25 tons of hay. The fire was caused by spontaneous combustion. The loss is cov. ered by insurance.

Fire yesterday at Winnipeg, Man., do stroyed a brick building owned by the Bank of Montreal. The ground floor was occupied by the bank and the rest of the building by the Canadian Pacific railway offices. This company loses about \$6,000. The papers of the company were saved. The sash, window and blind factory of W. P. Hayes & Son, at Dover, N. H. was burned with its contents yesterday. Loss on building, \$10,000 ; on stock, \$27. 000; insurance, \$19,000. Fifty men are thrown out of employment, thirty of whom lose their kits of tools, valued at from \$50 to \$150 each.

### A DEADLY MISSILE. into. ATTEMPTING TO BLOW UP A FAMILY.

The Infernal Machine That Came Flying For the INTELLIGENCER. Into the Window of August Goekel's

Residence-A Deviliah Deed.

August Goekel, a tailor, together with his wife, two children and mother-in-law, reside at 1005 Nectarine street, Philadelphia. On Friday night he was sitting on the discovery, it is altogether probable that the ides of November may reveal who a table in the second story, near the front windows, working at his trade. Shortly before 10 o'clock he was startled by crash of the window in front of him, and still another crash of the swinging coal oil lamp hanging near his head. Bewild ered and in darkness, the flame of the lamp having been extinguished by the last crash which he heard, he made his way to the door. Here he was met by his wife and children, who, hearing the noise, Polk ?" had run up stairs from the lower floor. While thus grouped at the head of the landing, a loud report was heard almost at their feet, but, beyond the shock caused by the report, no injury resulted to them. Upon examination a piece of lead pipe, about six inches long and covered with oilcloth, was found on the floor, which had been corked at one end and the other had contained a fuse. This was the missile which had been hurled through the vindow. As the fuse burned short the nissile was discharged, fortunately in a direction at right angles with the family standing in the doorway, and doing them no harm. On the east wall of the rocm were found marks of the deadly force of the contents of the missile, and on the floor lay leaden bullets, pieces of iron and fragments of black glass with which it had been charged.

Mr. Goekel, with these evidences before im, was satisfied that an attempt had een made to destroy himself and family. and he reported the matter to Lieutenant Smith, of the Eighth police district, who detailed Special Officer Hoffman to investigate the case. The officer at once recollected that, several years ago, a German had offered \$25 to ascertain the American government is a republic, whereabouts of his wife, who he said, which authorizes no distinction in blood had deserted him, and gone to live with color or condition contrary to fundamental his daughter, Emma Goekel. After law and the will of the people. The fact that Mr. Pattison is an "auditor" is no consulting with the latter. Hoffman conluded that the outrage had been commitbar to his becoming a governor, if he posted by Goekel's father-in-law, Casper Younger, and on Saturday afternoon the latter was arrested at the house of Mr. known to fame, it does not follow that he is a "mud-turtle." Moreover, there is a Moseback, a milk dealer, at Twenty-seventh street and West College avenue, distinction between fame and notoriety. where he had been employed since last Some men are deemed famous, when in uly. fact they are only notorious.

Younger was taken up to the police station and locked up. Upon a search of the stable, where Younger slept, some lead pipe similar to that of which the missile was made, a number of bullets similar to those found in the room, a piece of fuse a yard long, a lot of black glass and a revolver were found in a box belonging to Younger. The officers then began a search fer witness s of the throwing of the deadly missile or of the presence of Younger in the neighborhood at the time was thrown through Gockel's window. A man living next door, it is stated, saw a person resembling the prisoner standing on the opposite side of the street a few minutes before he heard the explosion, and two women say that they saw a man "re-

Mr. John Pondir was a prudent man in not at present trusting himself in Mr. powerless if the Democrats keep their Gould's association in the Western Union. He wants to see the result of his advice and whether it is indeed possible for his pupil to be honest. If will wait awhile.

## Useless Efforts.

There is no doubt that whatever stimulation can be given by machine methods to the machine Republican ticket will be administered to it; whatever money, will be done. By these methods many a campaign has been won, and those who have so often been successful with them are loth to believe that the case they are now treating is beyond their efficacy, as it certainly is. There is but a certain number of men who can be bought and but a certain proportion of fraud that can be successful. The votes needed to be obtained in this way in this election to make Beaver governor are too many, and no apprehension need be felt that they will be got.

The old device of providing a betting fund is being freely used, and men are found who are willing to wager even money on Beaver's success. The fact that his chance is nowhere considered to be anything like an even one, is sufficient proof that these men, if they are ordinarily sensible people, are not offer-

The party was never in better condition for an overwhelming triumph. Bring out the Democratic vote, and naught can stay the floodtide that is preparing to sweep from Lake Erie to the Delaware and establish a Democratic administration in Pennsylvania for the first time in nearly a quarter of a century.

### Escapade of a Babtist Evangelist.

At St. John, N. B., about four weeks ago Edwin E. Ellis, who has been traveling through the state of Maine as an evangelist, and Mrs. John E. Rose, of Thomaston, Me., arrived and registered at a hotel under assumed names as man and wife. Mrs. Rose's husband tracked them to the city and produced Ellis' arrest. In the

time to thank the audience when tue journey was resumed and in brief time the end was reached. In all the journey the coke industry. A carriage drawn by four white horses, handsomely decorated with bunting, was in readiness to receive Mr. Pattison and a procession fully a quarter of a mile long, headed by a band, served as an escort. Only fifteen minutes were allowed, however, and no time was wasted in preliminaries. The vast crowd gathered in front of the hotel and Mr. Pattison was introduced. He spoke intelligently of the great industry in which this community was interested, and has evident familiarity with the subject won hearty commendations. Mr. Black was equally happy in his remarks, and the good opinions of the people of the county, in which many years of his life were speut,

were vastly strengthened. A special train on the Baltimore & Ohio road conveyed the party to Pittsburgh. The distance is 58 miles, but it was covered in one hour and tifteen minutes. At

their acknowledgments and on they flew. The event of the trip occurred at Guffey's fore the station was reached these gentlemen suggested a stop for lunch, and when illumination. A hearty welcome was extended and the fifty occupants of the car were soon seated around a table laden with good cheer. This is a historic house. the stopping place of many illustricus people. Some years ago the hotel was abandoned, and it is now a private resi dence. In 1863, while a Republican delogation was passing on a train for Uniontown, a Democratic banner excited their attack was made on the house, which was occupied by one young man and two attacking party were convicted of assault ing the house, but they had pardons pro-

At McKeesport thousands of persons were in waiting and a five minutes' stop had to satisfy them. At Bradford there was the same experience. No other stop was made until the train steamed into Pittsburgh, where thousands were in wait ing at the station to welcome the candidates. The meeting there was a surprise to every one. Without effort such a gathering has not been witnessed since the presidential contest. A street parado

brought 1,500 men into line and the old City hall was crowded to its utmost capacity. James H. Hopkins presided and Mr. Guthrie, Colonel J. P. Barr, R. P. Birkinson, Mr. Reardon, candidate for senator; G. Belden and other prominent leaders occupied seats on the platform. Thousands of people were turned away

from the door and Chairman Brennan has had his hands full in explaining to those unable to gain admission that no larger hall could be procured. The Sixteenth ward Pattison Glee club

Instead of paying the assessment he sent Hubbell a letter declining to put up the money, and took the liberty of expressing heretical opinion that the the action of the congressional committee in levying assessments had deno the party more harm than good. Mr. Hubbell yesterday referred the letter to Secretary Folger with the request that he be dismissed. Secretary Folger, having a viously, but had escaped from prison by number of similar cases before him, has decided to postpone their consideration until after the 7th of November.

## A Horrible Accident.

George P. Menning, a young man living at No. 423 Allen street, Philadelphia, and employed by the Knickerbocker ice com-

pany, died from injuries received while at work on Saturday at the wharf of the company at Hanover street. Menning was The closing week of the campaign finds | West Newton a five minutes stop was at work in the hold of a vessel, and as a large cake of ico was being taken out it fell, knocking the young man over and badly crushing him about the breast. Then he was caught in an endless chain used in the business and pulled from under the heavy piece of ice and carried several feet in the air. At a height of about eight feet he was disentangled and fell to the bottom of the hold.

## Concerning a Railroad Engineer.

The board of railroad commissioners o Massachusetts has rendered a decision on the Troy and Greenfield railroad collision at North Adams, on October 21, by which seven lives were lost. The board is of opinion that the weight of testimony shows that Engineer Wattson was proceeding in an improper and dangerous manner, and that there was no excuse for his negligence. The commissioners repeat their recommendation that a system of rules for operating the yard be adopted, by enmity. The train was stopped and an which the management shall govern the working of all roads therein.

#### Result of Throwing a Coal Oil Lamp.

Margaret Googins has died in Pitts burgh from frightful burns received during an altercation with a neighbor woman named Weyman. The women were in a beastly state of intoxication, and in the midst of their melee Mrs. Weyman picked up a coal oil lamp, which she hurled at her antagonist, upon whom it exploded. igniting her garments and burning her in a horrible manner about the head and person. The murderess is in jail.

what was the matter he grabbed the razor and ran out of the house and was never known. Sunday morning, just about the time his body was found, his sister, who was

confined in a house only a few hundred from the spot, gave birth to a child. The dead man's body still lies uncared for in the mud at the river's age.

## The Story of a Wreck.

A dispatch from Victoria, B. C., says 'The British man of-war Kingfisher, which has returned from the west coast of viously reported is that of the bark Melville, 931 tons burden, Captain Edward Harlow, owned by E. H. Harlow & Co.,

Heretofore any employee could run to fires. The Ninety-third Pennsylvania volun-teers celebrated the twenty first anniversary of this organization at Lebanon on Saturday, and formed a permanent organi-zation. Norristown was selected as the place for the next meeting. It is not generally known that it is the practice of the Pennsylvania railroad company to test its locomotive boilers once a month, and that this test is one of the mopt carefully performed of all the service rendered under the strict discipline of that.

corporation in the management of its vast. machinery. The standard fixed for this test is 225 pounds to the square inch, and the machinery is of the most improved character.

At the county teachers' instituto at Reading a strong defense was made for high schools, and the teachers present declared that they "as representatives of the friends of the common school system of

Berks regard opposition to the higher clomentary training a scheme to build up aristogracy, which is detrimental to the best interests of our social and political system," and that they "recommend such legislative measures, consistent with the inherent rights of the people, that will establish better ventilation and proper admission of light into our schoolrooms."

Burgiar Arrested

On the 23d of September the store of Joseph M. Fulton, New London, Chester county, was robbed of a number of watches and other valuables. Suspicion fell upon an itinerant repairer of clocks and watches who had been in the neighborhood. Mr. Fulton placed the case in Alderman Spurrier's hands and the alderman sent out circulars giving a description of the man, who is about five feet five inches in height, wears a light moustache and has the forefinger of his right veloped at McKeesport. Robbins & Co.'s hand cut off. A man answering that de-coal road is located on the Monongahela i scription was arrested in Middletown last Saturday week, but he proved an alibi and Sunday morning at five o'clock the muti- was discharged.
