

Lancaster Intelligencer.

MONDAY EVENING, NOV. 6, 1882.

How the Ticket is to be Voted.

Democracy, remember that this year you vote three tickets—"State," "Judiciary" and "County." On the state ticket must be the names of the candidates for governor, lieutenant governor and secretary of internal affairs.

Those distinguished Pennsylvania officials, Quay and Bunn, consider it improper to remain in association with Gov. Hoyt in the care of the state and resign their commissions.

Now, if Beaver should withdraw in disgust to-day—and we are prepared to hear of this at any moment—Boss Cameron would feel like drawing himself and he would probably do so—metaphorically.

DEMOCRATS, go to the polls and vote early to-morrow, and then devote the balance of the day to looking up laggards and take them to the polls. Get out the full Democratic vote and victory is certain.

BOSS QUAY says that he does not know to what Gov. Hoyt refers when he speaks of the vengeance prepared for the Independents, but Quays says "I am for the guillotine myself after this is over."

THE time for argument is past—that for action has come. Let our friends be possessed of a calm confidence. Let them be vigilant and active.

LET our Lancaster Democrat fail to have a personal interest in to-morrow's victory, by absenting himself from the polls.

DEMOCRATS, go to the election early to-morrow, and vote the whole Democratic ticket. Then see that all your Democratic neighbors do the same.

DEMOCRATS, be warned against spurious tickets of all sorts! No device or trick will be too desperate for Cameron henchmen to resort to.

DO not fail to go to the polls and vote the whole Democratic ticket from governor down to jury commissioner.

RAIN or shine, Democrats, go to the election and vote the whole Democratic ticket to-morrow.

EXAMINE every ticket and see that every name is properly spelled.

VOTE early and see that your neighbor goes to the polls.

VOTE early and save your poll committee much trouble.

GET out every vote!

WATCH the bogus tax receipts, and see that no fraudulent vote is polled on them.

SHOOT straight. Put your ballot where it will do the most good. Vote for Pattison.

At the end of Robert Emory Pattison's gubernatorial term he will not be compelled to make any such confessions as Henry M. Hoyt has just given to the world.

THE henchmen are getting ready to desert in droves. After to-morrow they will be crowding into the Independent lines and declaring they are glad their boss has been "laid out."

IT is not necessary to urge Democrats to vote to-morrow; for they will surely all be out. But let them vote early so that the working men may have their anxiety lessened because of their responsibility for the polling of the full vote of the district.

WHEN Cooper heard the Hoyt thunder he should have "caught" Beaver on the rail, by telegraph, and switched him away from Wilkesbarre.

NOW, if Beaver should withdraw in disgust to-day—and we are prepared to hear of this at any moment—Boss Cameron would feel like drawing himself and he would probably do so—metaphorically.

DEMOCRATS, go to the polls and vote early to-morrow, and then devote the balance of the day to looking up laggards and take them to the polls.

THERE are about 4,000 election districts in the state, so that a single vote lost in each would count 4,000 in the aggregate. Ten stay-at-homes in each district would make 40,000 in the state.

THE Stalwarts, for lack of arguments, are preparing to flood the state with all sorts of campaign caudars which will be sent out to-night. Beware of last card dodges.

GET your wagons ready and see that every Democratic voter gets to the polls early to-morrow morning. Organize in time and do your work well.

IF you know a luke-warm Democrat that is inclined to remain away from the polls, see that he is got there, if you are obliged to secure a conveyance.

READ your tickets, state, judiciary and county, and compare every name with the list published in the INTELLIGENCER to-day.

have made her name a byword and a reproach among her sister commonwealths? If the men of worth and influence in the community choose to exert themselves for a few hours to-morrow they can make hundreds of votes for Pattison and the whole ticket.

MUCH unnecessary labor can be spared to overworked men who devote the whole day to getting out the Democratic vote if persons will only make it a point to get to the polls early.

THERE remains plenty of time in which to make a vote for Pattison and reform. If you know of any one who is doubtful or hesitating, go to him at once and show him that the only way to restore the government to the pristine purity of the early days is by the election of the man who cleaned the Augean stables of the Philadelphia controller's office and purified the atmosphere of the city.

MATTHEW STANLEY QUAY, if unrepentant, is an exceedingly astute man. Seizing the pretext given him by Hoyt's manly letter denouncing the bosses, he has, with an air of virtuous indignation, tendered his resignation of the office of secretary of the commonwealth, which he held by the governor's appointment.

CHANCEY BLACK and J. SIMPSON AFRICA will poll a large Republican vote in Philadelphia, on account of the unpopularity of their Republican opponents, Senator Davies and Greer, in that city.

GOV. HOYT'S REVOLVING. He will vote for Africa and Clark. "Governor Hoyt is defiant," said Ex-Attorney General George H. Lear, raising himself on his elbow as he lay in bed at the Girard house.

Corney, the Republican candidate for Assembly, instead of ELLIM G. SNYDER, the honest man and incorruptible Democrat who has so worthily represented his constituents at Harrisburg during the past two years.

A YEAR ago several thousands of good Democrats, to show their appreciation of the pluck of Charley Wolfe in breaking away from the machine masters, and hoisting the standard of revolt, deposited their ballots for him, with result of electing Cameron's candidate by a very small plurality.

DOOM OF CAMBERONISM.

MR. PATTISON'S ELECTION CERTAIN.

The Democrats Claiming 44,000 Plurality and a Gain of Eight Congressmen.—Quay Denies the Charges Against Hoyt.

Politicians are figuring on the result of Tuesday's election. The returns of the final canvass are in at the Democratic headquarters. Chairman Hensel refuses to give out his figures for publication, but it is known that a plurality of 44,000 is expected for Pattison.

There remains plenty of time in which to make a vote for Pattison and reform. political ends." Yet General Beaver's candidacy has been largely helped by the best use of the money of patronage. The fifth resolution of that same platform on which he stands, and which he solemnly pledged himself to uphold, declares that "We condemn compulsory assessments for political purposes." Yet every dollar of the enormous expenses of Gen. Beaver's campaign has been paid out of a fund created by political assessments upon the poor men, women and even children, employed by the government.

No Republican who would preserve the rights of the people to choose their own officials can consent to vote for General Beaver. No Republican who would maintain the safeguards which the Republican rules throw about conventions will be justified in voting for General Beaver, for he has trampled upon them.

THE LATEST NEWS.

THE BOSS HUMBLED.

Rev. Dr. McCullagh Denounces the Irish Circular From the Pulpit.

Before Governor's sermon at the late mass in St. Mary's Catholic church yesterday morning, Rev. Dr. P. J. McCullagh, the pastor, said he had been considering over a matter that had been brought to his notice, but which from motives that his hearers might well understand, he had hesitated from mentioning publicly. He had, however, concluded that it was his privilege as pastor of this congregation, to enter his protest against the attempt that has been made in certain quarters to mix politics with religion, and to subvert the holy influences of the church to advancing the interests of any political party.
