THE LIME KILN CLUB.

Philosophizing Upon the Alleged Benefits of Noble Ancestry. Detroit Free Press. "What I am going to remark," observed the old man, as Elder Tools quietly dropped off to dream of the cane fields of the old time, "am to de clobber dat dis club doan gran two cents whedder a member's gran fadder was hung for wakin' up a policeman asleep on his beat, or not, in de halls of Congress wid his hat on his ear an' his fame floatin ober every country in de laud. It am not de dead gran fadder, but de libin' member dat we has to do wid. If Brudder Shinn's great uncle was king of de Cannibal islands, dat doan' help Sam de to pay his rent or buy his fadder's Wholebone Horse. We may trace his blood back to an emperor who owned 10,000 mules, but Wholebone will pay a fine of three dollars ober time he spits on de stove, same as de dees of you. Boomerang Johnson could no doubt establish de fact dat he am descended from a household which could pay a milk bill widout havin' to pawn de sideboard, but I am nebertheless sartain dat Brudder Johnson won't have any panecakes grow cold on his table dis winter.

"Judge a man as you find him, and doan' forget dat de son of a senator kin display all de meanness expected of de son of a convict. If dar am any members in dis club who wants his lineage traced back six or seven thousand 'yas to show whether his relation to de fader or grand wite passage in de ark, or wants his blood strained so see if it am blue or red, let him go ahead; but at de same time I feel it my duty to warn all sich pussens dat it am far cheaper to buy a ten-cent tinnet an' hire a five-cent boy to bore a hole in de top of yer 'ead an' let de wanty blow itself off. Deasectary will now call de roll an' make out a list of such members as want to trace deir blood back to Ham."

The roll was called, and not one member of the 141 present responded. When the call had been finished Prof. Knsforth Parker arose and asked if there was any objection to his taking steps to find out whether his grandfather was a poet or a blacksmith.

"Dat am!" was the prompt reply. "Jase it would a loss of time. I knowed de ole man myself, an' I kin inform you dat he was nullif and a wery common nigger, who wouldn't do an hour's work a week unless he was kicked to it. I also remember dat he was squint-eyed, an' had heels so long dat he could war his butes hind-tofters."

The professor wared to and fro for a moment and then fell back in a dead faint and it took four members to carry him to de ante-room and steal his pocket knife and plug tobacco and restore him to consciousness by shouting "mad dog!" down de back of his neck.

My daughter says, "How much better father since he used HOP BITTERS. He is getting well after his long suffering from a disease declared incurable, and we are all so glad that he used your Bitter. A lady of Rochester, N. Y."

"A coward can be born at a distance of presence of danger. It is a presence of mind. Presence of mind is the value of a coward. Kidney-Wort challenges this test at ways end everywhere, so far as all complaints of the lower, liver and blood are concerned. It cures all, no asks any odds."

Explicit directions for every use are given with the Diamond Dyes. For dying, Mousing, Gramine, etc. For coloring, etc.

Canada Opinions of the Lancaster Watch

"First-Class Time-Keepers."

MESSRS. ZIMMERMANN, MCNAUGHT & CO., Wholesale Agents, Toronto, Canada, says: "Your Watch gives out the best time that I have ever experienced. It is good, and we can safely recommend it to jewelers as being a first-class time-keeper in every particular. We could send you a hundred testimonials from our customers if they were desired."

MR. B. RICHMOND, Aurora, Ontario, writes: "The Lancaster Watch has been the greatest satisfaction to my customers, who all agree in pronouncing it a splendid time-keeper and first-class in every particular. I have examined it thoroughly, and in my opinion, it is a practical workman, and unequalled in their time-keeping qualities. They give more value for the money than any other American Watch I have ever handled."

HOME RECORD. About January 1st, 1881, I purchased a 'McLure' Watch No. 2122, manufactured by the Lancaster Watch Company, and ran it until the 10th day of July with a variation of only eight seconds in that time, compared with the time from Washington, having frequently compared by those between the dates above named. This would be at the rate of fifteen seconds variation to the year.

I hereby certify that I have carried a 'McLure' Watch, No. 2122, manufactured by the Lancaster Watch Company, for more than one year, and that it has never varied thirty seconds from the time sent from the National Observatory at Washington. JACOB KOCH.
