Recent Intelligence From Down in Dru. mere-A Werried Republican-Other Items From Other Places in The County.

Our Popular Correspondence. Mr. Evans A. Gregg died at his residence, in Fairfield, last Wednesday, in the sixtieth year of his age, of heart disease, falling from the table as he finished his breakfast. Mr. Gregg was a kind father, a good man and a true friend. Protracted meeting commenced Sunday evening, at Zion church, Fairfield. The future success of Zion is very doubtful,

for "they say" it has lost one of its guar dian angels. The Democrats were never so happy The young ones realize that a victory for us is possible, and the old ones, grown gray in the service, but never sick with hope deferred, rejoice to see the wanderers come back to their old love. Truly a happy time for them. And our Republicans never took a defeat with a wiser, more courageous grace, and many of them declare their entire satisfaction with the course things political have taken. They were sick and tired of a greenback to know who some one is?sent him a salt river ticket, knowing per-

their abused power, but too weak-kneed to help "ring out the old" and in the new and share with us the glory. Verily, their ways are past finding out. But one of our Fairfield Republicans is especially unhappy. Some one—and wouldn't he give haps how such documents worry the aforesaid Republican. Your itemizer is interested in this particular Republican and his particular ticket, for the latter endeavors to construct for the former a reputation for the manufacture and circulation of all the vile literature in the lower end of the county; which fact has a tendency to keep your itemizer awake at nights, and streak his curls with worry. Had the victory been less famous, such a life could not be "a happy one—a happy

On the 8th inst., the morning after the election, there was a grand surprise at the Colerain Baptist parsonage, not at the returns of the election, but of wagons, carriages, horsemen and footmen. Your correspondent was invited out to dinner with the family, by a near neighbor, and as he arose from the table, being but a short distance from the parsonage, he noticed a wagon or two in the back yard unloading coal. We hurried home, and as we neared the house saw men and women full possession of the premises. And they were still coming. We did not understand it at first, but soon learned that the good friends and neighbors were making a douation. One friend sent us a load of wood early in the morning, but this raised no suspicion that there were more to follow.

There were brought several loads of coal, wood, corn, potatoes, sweet and Irish, turnips, bcets, cabbage, lard, coffee, sugar, tea, flour, dress for daughter, with many other articles. Also a purse of money to the daughter as organist. We had some music, a speech and a prayer.
All were happy, the givers and the receivers. We heartily thank the good
Christian people for their kindness to me and mine.

Religious. The extra meeting at Colerain Baptist church is increasing greatly in interest There are many persons, old and young, making choice of the good part. The congregations are large, some evenings the ushers have great difficulty in scating the people. The only help the paster has is from the deacons of the church and their service is quite acceptible.

Thousands of persons are constantly troubled with a combination of discases. Diseased kidneys and costive bowels are their tormentors. They should know that kidney-Wort acts on these organs at the same time, causing them to throw off the poisons that have clogged them, and so re newing the whole system.

LANCASTER WATCH COMPANY.

Gentlemen: I take pleasure in adding my testimony as to the comparative merits of your Watches. Having had many years experience in the manufacture of Fine Watches—eighteen years with the American Watch Company of Waltham, Massachusetts, on their best grades; with the Nashus Watch company, the Auburndale Watch Company, and also with the Lancaster Watch Company, for some two years in charge of their Adjusting Department, I have had ample opportunity to examine and compare the various grades of all the leading Watch Factories in America; and without hesitation, my decision is in invor of the Lancaster Watch as The EEST TIME-KERPHE FOR THE MOMENT WITHIN MY KNOWLEDGE. The "Lancaster." when adjusted close, has run, while carried in the pocket, to one second a month with standard time, and can be rated to keep as close time as any watch made anywhere in the world.

anywhere in the world.

The winding and setting arrangements at the stem are the best I have seen—simple, strong, and not liable to get out of order. The new stem-wind I like very much. It works so smoothly, and the changing does not throw the minute hand out of place, as in some other American movements. The patent regulator is the best in use.

Indeed, I regard all your changes as improvements, and teel assured that the Lancaster Watches, as they become known, will (Between the Cooper House and Sorrel, Horse Hotel.)
