Philadelphia Times. Ten of the fifteen Philadelphia Demo-cratic members elect of the new state House of Representatives, at a meeting in the law office of Emanuel Furth at Third and Chestnut streets Wolnesday, indersed John E. Faunce, of the Secenteenth dis-trict, for speaker, but declined to formally commit themselves in his upport. Be sides Mr. Furth and Mr. Faunce there were present James C. Hassett and Patrick O'Neill, of the Second district; William Carberry, of the Third; John Donahue, of the Fourth; William C. Bullitt, of the Eighth; Albert Crawford, of the Eleventh; litt. said Mr. Furth, quietly.

Eighth ; Albert Crawford, of the Eleventh ; two." B. Frank Abbott, of the Twentieth, and Ichabod Fortner of the Twenty-fifth. Shortly after 5 o'clock Mr. Furth called the conference to order. He said the meeting had been called not hs a cancus. but to enable the members to become better acquainted with each other and that they might be able to exchange expressions of their preferences for speaker of the House, and consult upon any other matters which might commend themselves

to their consideration. "The Democratic party," he added, "is on probation, and upon the manner in which we discharge the duties committed to as by the people of this state may depend the result of the uational election of 1884."

Mr. Bullitt was nominated for chairman of the meeting by Mr. O'Neill and was unanimously elected. In taking the chair he said that he accepted the presidency in the belief that the meeting was a conference and not a caucus, and that the members were not to be bound by any action which they might take should their judgment in the future dictate a different course.

Faunce's Merits Set Forth.

Mr. Furth immediately arose and after strong culogy of Mr. Fannce presented the following resolution and moved its passage :

"WHEREAS, HOF. John E. Faunce h: 8 served with signal ability as a member of the House of Representatives for six consecutive sessions ; and ... WHEREAS, He has twice received the

compliment of a Democratic caucus nom ination for speaker; and

" WHEREAS. We believe him to be porsessed of the requisite fairness of purpose, executive ability and knowledge of parliamentary law eminently fitting the occu-

pant of the speaker's chair ; ... Resolved. That we cheerfully units in presenting the claims of Hon. John E. Faunce for speaker of the next House of Representatives and pledge our elves to use every honorable means to accomplish

who were elected. Then Mr. Hassett claimed the floor. "If this resolution

is brought before the meeting in this shape," said he, "I shall withdraw.

While from the little that I know of Mr.

Faunce I should judge him to be most eminently fitted for spcaker, I am not yet prepared to sink my identity in a caucus

or to pledge myself to support anyone when that pledge might, in the event of circumstances which I cannot now forcese,

interfere with my duty to the people and

"That is my position also," said Mr. Builitt. "I believe that the resolution

commends Mr. Faunce no more than is his due. I concede his worth and ability

and would probably vote for him to-day if

the choice for speaker were to be made;

but I came here believing that this was not to be a caucus and I shall certainly

refuse to bind myself to support anyone. If the members of the Philadelphia dele-

gation desire to see Mr. Faunce elected

they can work for him individually and

#### Small Potatoes.

At a recent session of the San Francisco (Cal.) Academy of Sciences, Mr. J. G. Lemmon, who spent six months in the mountains on the Mexican frontier among Apaches and cowboys, announced that he had bronght up five boxes of new plants, and that he had found two or three new kinds of nativo potatces, some of which were growing on a peak 10,000 feet high. They were about the size of walnuts. This was regarded as an important find that might throw some light on the nativity of that potato, as the real home of the "Murphys," as they are familiarly styled, has not yet been estabished. They were reported to have been found in Peru in 1500. Sir Walter Raleigh found some and sent them to England.

but they have only been known to the poor man on his table for a century.

A Baptist Minister's Experience. I am a Baptist Minister, and before 1 even though of being a clergyman, 1 graduated in medicine, but left a lucrative practice for my present profession, 40 years ago. 1 was for many years a sufferer from quinsy : "Thomas' Eelectric Oil cured me." 1 was also troubled with hoarseness, and Thomas' Eelectric Oil al-ways relieved me. My wife and child had diphtheria, and "Thomas' Eclectric Oil cured them," and if taken in time it will cure seven out of ten. I am confident it is a cure for the most obstinate cold or cough, and if any one will take a small teaspoon and half fill it with the Oil, and then piace the end of the spoon into the head by sniffing as hard as they can, until the Oil fails over into the throat, and practice that twice a week, I don't cure how offensive their head may be, it will clean it out and cure their catarrh. For deatness and earache it has done wonders to my certain knowledge. It is the only medicine dubbed patent medicine that I have ever felt like re-commending, and I an very anxions to see it in every place, for I tell you that I would not be without it in my house for any considera-tion.
