Missionary meeting.

The missionary meeting at the Metho dist church last evening was fairly attended. It was addressed by the Rev. W. J. Mills, of Manayunk, and the Rev. Dr. T. T. Everett, of Germantown. The latter's address was very brief, on account of the length of that of the Rev. Mr. Mills. The services were of an interesting nature, dwelling of course upon missionary work.

The Week's Business. NEW YORK, Nov. 17 .- The business of failures reported for the week number 137, of which eight were in New York city. MISSISSIPPI EIVER.

Some Peculiar Expenditures That Seem Need investigation. The congressional committee investi-gating the Mississippi river has received a long communication addressed to Ham. J. C. Burroughs, the chairman, from Graeral Q. A. Gillmore, president of the Mississippi river commission, in answer to a written request for special information. After various details of the character of the work in progress, reference is made to some items of expenditure which appear to demand explanation. At Plum Point Beach last year \$6,202 was expended for equipment of the office, and at Lake Providence \$10,284 for a like purpose. Very lare of the office of the purpose. sums have been put into what is termed the plant. The financial exhibits of last year, for which \$1,000,000 was appropria-

ed, are the only lines included in this re-

port. The grand total of that year is itemized as follows: Office constructions and equipment, \$16-486.46; administration, 8,645.67; labor, \$108,458.11; subsistence, \$42,256.18; materials, \$76,035.77; purchase of plant, \$191 798.43; towage, charter and expense of steamers, \$64,147.84; fuel, \$115,319.3); miscellaneous operating expense, \$23,500. 90; survey, \$15,120.40; last item coversonly wo places. The committee can't understand why so much money should have been spent for office equipment, purchase of the subjects of inquiry at Memphis, where the engineer in charge of the division will be summoned as a witness.

The Era of Propriety.

An era of propriety seems to be arriving very rapidly. The time honored customs of hazing in colleges have been frowned down, and even the law courts have been called into operation to purish unseemly horse play resulting BALTIMORE, Nov. 17.—A fire broke out some of the young and exuberant brokers of Chicago have been suspended for fact that'an unmitigated scoundral and outlaw is being feasted and fawned upon in a Missouri jail, indulged with brussels carpet, feather bed and floral offerings, called upon in strict social style by the governor and his wifewe might really believe that the world public morals is merely a shifting of the vencer. On the whole we think it would be preferable that hazing should continue, that silk hats should be smashed, and that the good old-fashioned practice of hanging murderous outlaws should be kept up.

A Texas Blaze. BELTON, Nov. 17,-A fire occurred here about 1 o'clock this morning which destroyed property to the amount of \$35,000.

Tell It Out.

The losses are covered by insurance.

Why not? Good news ought to be told, and it is good news that Hunt's Remedy has cured the worst of kidney diseases, and can do it again and again. There are abundant testimontals to this fact. Mr. Joshua Tuthill, of Saginaw, Mich., was cured of Bright's Discuse: Mr. John Hunt, of Providence, of dropsy, when death seemed imminent; Mr. S. G. Mason, of Providence, of rheumatism which crippled him; and a host of others of similar diseases which threatened dissolution. And what Hunt's Kenedy has done, it will still do.
