GEOLOGICAL SURVEYS?

COMPLAINTS OF MINERALOGISTS.

No Actual Field Work-The Old Report Supplemented by Answers to Inquiries to be Furnished.

West Chester Correspondence of the Press. It is said that the state geological commission have their report upon this county in press, but no surveying party has visited the county to the knowledge of the Press representativo here. Dr. William D. Hartman, who prepared the article in the history of Chester county, upon its geology, expressed much surprise at the repert, and said: "I have no knowledge of a single member of the geological survey having been in this county for the purpose of making a survey, and am under the impression that they are chiefly engaged in working over the first survey. A short time ago Joseph Wilcox, one of the commissioners, visited this borough and secured some information from W. W. Jeffries. I was on a prior occasion called upon for the same object, and sent to Mr. Leslie my paper and map on the geology of the county—the same that is published in Futhey's history of Chester. county. The old or original survey was made about 1838 39, when a party of engineers, sent by Rogers, who had the work n charge, came into the county, but they the slate ridge, which, with the limestone strata, extends through the county from east to west in the scant all the state. While the did not tarry long; they simply measured east to west in the great valley. They came to West Chester and visited the members of the Chester county cabinet of natural sciences, of whom such noted scientists as Dr. William Darlington, Joshua Hoppes, Joshua Hemphill, Judge Haines, all of whom are now dead, and Philip Sharpless, John Rutter, William and Washington Townsend and myself were members that they procured their information. Dr. Darlington and Joshua Hoopes used to say that the geology of Chester county was not written by those who were delegated to do the work, but

Jefferis, cashier of the National bank of Chester county, who posesses a very fine collection of minerals estimated to be worth at least \$20,000, and who is a gentleman who has devoted a life time to the study of mineralogy says: "I understand that the geelogy of Chester county was about being published from Joseph Willcox, who, a few days ago, called upon me, asking for information regarding the discovery of corundum in this county. 1 told him it was first found in 1825, and wrote out a brief account of it, giving him some data. Mr. Willcox told me that in general as alleged in the divorce petihe wanted it for Mr. Leslie, who would incorporate it in his geological report of of the two children to the petitioner, and the county. I have not met with any as per agreement of counsel, gave the other member of the commission, nor have I ever heard that there was one of them in this country that there was one of them in this country that there was one of them in this country that there was one of them in this country that there was one of them in this country that there was one of the country that there was one of the country that the them in this county excepting Mr. Will. was also agreed that \$5,000 of the alimony cox, whose visit, as I have said, was I should be set aside for the support of the think the day before the election. The few passennet know or ever heard of any of the state gers who had witnessed the scene enjoyed survey party being in the county, though of a Mr. Lewis who was reported to belong to the enterprise in some way, but he was only there for a short time last summer. Chester county has a greater variety of minerals than any other county in the state and should not be passed over in this loose way. Serpentine outcrops in various parts, bring up with it a great and beautiful variety of minerals. The survey party should have come into the county, examined its mines and streams, noted its mineral deposits and have consulted with its known scientific mer, like Dr. Hartman, Wm. my idea of making a true survey." BILL NYE'S EXPERIENCE,

It begins to look now as though Major F. G. The major has not only prevarieated, but he has done so in such a way as to beat his friends and make them yearn for his person in order that they may kick him over into the inky night of space. He has represented himself as confidential adviser and literary tourist of several prominent New York, Chicago, Omaha and Tie Siding dailies, and had such good documents to show in proof of his identity in that capacity that he has received many courtesies which, as an ordinary American dead beat, he might

THE FOSTER DIVORCE SUIT. Mis. Fester Granted the Custody of the Children and \$16,250 Alimony. The famous Meriden divorce suit of Foster vs. Foster has been decided in the superior court in New Haven in favor of the wife The respondent, Samuel H. Foster, is a wealthy manufacturer of cabinet hardware in Meriden, Conn., and has been prominent in local Republican politics. He is a swarthy, heavily-built man of 35. The co-respondent is Miss Hattie Symonds, a pretty little blonds school teacher, who, until recently, has borne an excellent reputation in the community. The scandal first became public last summer, when Mrs. Foster left her husband, taking her two minor children, and began a suit for divorce, the custody of the children, and \$30,000 alimony. She is a most estimable woman, pretty, and highly educated, and a relative of Mr. Stanley, of the Stanley rule and level company in New Britain, and gossips were discussing the separation of man and wife, another sensation was caused by Foster going to the house of a friend of his wife with whom Mrs. Foster and her children had found temporary shelter, and with an axe breaking down a door and assaulting one of the inmates of the house in a vain effort to recover possession of the children. For this he was fined in the Meriden police court. Clerk Ingersoll, of the superior court

was appointed a committee to try the divorce case, which came before him on Monday last. In the answer filed by Mr. Foster he pleaded that he did not commit adultery, and that if he did his wife con-doned it and connived at it. For nearly two days the five lawyers consulted in the hope of reaching a settlement that would obviate the necessity of a public trial. Friends of the Fosters also exerted themselves for the same purpose. At length an agreemen was reached, and the committee proceeded to privately hear the case as set forth by Mrs. Foster in her complaint. The report of the committee was submitted to Judge Sanford. The report found that the facts tion had been proved, awarded the custody

BROWN'S IRON BITTERS.

Oh, My Back!

That's a common expression and has a world of meaning. How much suffering is summed up in it.

The singular thing about it is, that pain in the back is occasioned by so many things. May be caused by kid. ney disease, liver complaint, constipa-tion, cold, rheumatism, dyspepsia, overwork, nervous debility, &c.

Whatever the cause, don't neglect it. Something is wrong and needs prompt attention. No medicine has yet been discovered that will so quickly and surely cure such diseases as Brown's Iron Bitters, and it does this by commencing at the foundation, and making the blood pure and rich.

> Logansport, Ind., Dec. 1, 1880. For a long time I have been a sufferer from stomach and kidney disease. My appetite was very poor and the very small amount I did eat disagreed with me. I was annoyed very much from non-retention of urine. 1 tried many remedies with no success, until I used Brown's Iron Bitters. Since I used that n y stomach does not bother me any. My appetite is simply immense. My kidney trouble is no more, and my general health is such, that I feel like a new man. After the use of Brown's Iron Bitters for one month, I have gained twenty pounds in weight. O. B. SARGENT.

Silk novelties innumerable and indescribable. Everything that ladies or dressmakers have occasion for in matching, decorating, combining. What we are remarkable for, more than for anything else in silks, is variety; or, at least, we are reputed so. You hear it said by

everybody: "If you want to match anything, or find a rare

silk, even an unexpectable one,

go to Wanamaker's," The other peculiarity that everybody expects to find here is less pleasant to speak of; lower prices. We put it second, because there are people who don't credit us with lower prices. Still, we imagine that if one should assert the contrary, almost everybody in Phil-

adelphia would believe it. Oftener we speak of other aspects of our trade; aspects less obvious or less recognized. It is well occasionally to give old news.
