

Wanamaker's. Silk novelties innumerable and indescribable.

Silk novelties innumerable and indescribable. Everything that ladies or dressmakers have occasion for in matching, decorating, combining.

The other peculiarity that everybody expects to find here is less pleasant to speak of; lower prices.

Warm skirts for ladies, and leggings for ladies, girls and little girls.

Furs have to be thought of. We're busy enough as to making. If we advertise at all, we ought to say what will not oppress us with too much making.

Black satin rhadamacs and satin de Lyons, 25 to 35 cents below our own recent prices.

Wool serge embroidered with silk dots that ought to sell for \$1.50--no that isn't the way to put it; it ought to sell according to our theory.

THE MESSAGE. GOV. HOYT'S LAST DELIVERANCE.

Reviewing and Discussing the Interest-Resources and Requirements of the State--An Interesting and Valuable Document.

In the interval since the last biennial session of the general Assembly, the Commonwealth has gone steadily forward in her orderly and healthy growth.

All good citizens apprehend those broad underlying principles of intelligence, virtue and industry, upon which this superstructure has been raised.

Four years ago our people had not emerged from the effects of the long and disastrous prostration of business; and their ability to pay the demands of the treasury to meet expenses was seriously impaired.

There is at present, under the administration of State Treasurer S. M. Bailey, in the sinking fund, \$3,077,073.99 cash.

The result of these operations has been to reduce the annual interest which the state pays upon its interest-bearing debt from \$1,293,282.12 in 1878 to \$871,160 in 1882.

HOME DEMAND. The number of school districts is fifteen thousand three hundred and thirty-five.

Steadily Growing. The total expenditures for the same time were \$5,024,766.41.

months; as also, that the appropriation made by the state to each district should be distributed on the basis of the average number of children in attendance.

By an act of the general Assembly, approved on the 8th day of June, 1881, it was directed that a state industrial reformatory should be constructed.

The details of the plans have been submitted in view of the opening of the reformatory. They have been agreed upon, after the most thorough examination of the whole subject.

The report of the State Board of Education of public instruction, read in a full, clear and satisfactory manner.

The number of school districts is fifteen thousand three hundred and thirty-five.

As the superintendent of schools says: "This work is going on without a stop or glimmer in the small houses that dot our hills and valleys, unseen and unheeded by the gauding world."

There are two penitentiaries in the state--one in Allegheny and one in Philadelphia.

It has, for more than fifty years, held consistently to the statute creating it. Much as the system has been controverted, I deem it just, as one who has given some attention to this subject, to say, that for centuries the system afforded the criminal class--for those whose age or repeated conviction render them amenable to punitive rather than reformatory methods--and for those against whose violent passions or confirmed habits society can find no protection but in incarceration, the separate system affords the most complete opportunities of reformation, and yields the best attainable results.

In neither of the penitentiaries in this state has there ever been a tempter, yet the warden, unworthy consideration of making them self-sustaining.

opened, and the buildings being approved with the necessary furniture and appliances, they have advanced the funds required.

Besides these state institutions, very liberal appropriations have been made to the interests of the defective classes in institutions not under state control.

Among the most important agencies of the state is the board of public charities. It is their duty, at all times, to look into and examine the condition of all charitable, reformatory, or correctional institutions within the state.

The board of commissioners is quietly doing work which necessarily requires a wide public interest and attention.
