OUR REGULAR CORRESPONDENCE

Events Along the Susquehanna-Items Interest In and Around the Borough Picked up by the Intelli-

gencer's Reporter. The waters of the river fell 15 inches last night and are still going down. Ice from the upper waters is passing through here, but not in the great quantities expected. No further trouble from high water and the ice is now anticipated. A channel has been worn by the water under a gorge near Turkey Hill and the ice passes quietly through it. It was reported that a log boom had broken somewhere up the river, but if such be true none of the logs have yet reached this place. The Vigic Ball.

The 13th annual ball of the Vigilant hiro company, which was held last night in | tor of George Groff, late of Upper Leacock, the armory, was a grand success. A neat sum will go to the coffers of the company. The armory was beautifully trimmed and decorated with festoons of greens and colored paper and flags. A large crowd was present, many being from neighboring towns. The boys feel highly clated with their success. Entiroad Sand House,

Borough Ludget. Frank Mayo, in "Davy Crockett," played to a good sized house last night. To-morrow and Saturday evenings the spectacular play of the "World" will be presented. The company is an excellent one, and the play itself is very exciting. The new coal shute at Braner's coal yards will have a storage capacity of two car leads of coal when finished. Another is soon to be commenced which will have

The E. E. Luther in church fair opens to night in the armory and will be continued Friday and Saturday evenings. Don't fail to go and see the beautiful fan drill by the young ladies. The pavement in front of the Round

" OASH! CASH."

Rallroading the Money to the Cashier's Desk cash from the different salesmen employed, without the aid of a cash boy. The new method is known as " Lamson's cash carrier system," a Yaukee invention that does its work quietly and infallibly. In the centre of the store, on a platform raised about six feet above the floor, is the eashier's desk. From this centre there are ten or a dozen elevated feet above all the counters in the store room. The railroad is constructed of light wood and is suspended on cords fastened to the ceiling. The lower tracks have a slight down grade from the cashier's desk and the upper track a down grade in the opposite direction, not unlike the trough in which ten pin balls are returned to the player from the opposite end of the alloy. Along the railroad there are 18 stations, at each of which the salesmen act as agents. 'The "cars" on this curious radroad are bellow balls made in two sections that can be easily coupled and uncoupled. The balls belonging to the several stations are of different sizes. Whenever a sale is made the salesman

sale, and the amount on a leaf of his note book which he tens out and places it, together with the money which he receives, in one of the balls belonging to his station. He places the ball in a wire basket, pulls a cord which lifts the basket to it runs by gravity to the cashier's desk. The eashier opens it, takes out the contents and returns the ball to the station from which it was sent via the lower line balls than the one next to it; the second so on to the end of the line. By means of a peculiarly constructed trap, the largest ball is caught at the first station and descends to the salesman to whom it belongs. The second largest ball is not big enough to touch and spring the trap at the first station, but never fails to spring the one at the second station, and so on to the end of the line, cach ball springing its own trap, and no other. The apparatus appears to be a very desirable one in a large

Martin, esqs., of the Lancaster bar, went to Harrisburg to-day to meet representatives of other bars and the members from other counties, in regard to the proposed bill fixing salaries for county offices. A special dispatch from Harrisburg to the INTELLIGENCER, says : Delegations from Lancaster, Berks and Schuylkill, are here to discuss before the committee this afternoon the salary bill proposed by the Lancaster county bar. The Schuylkill delegation oppose the salary allowed the coroner, and will submit an amendment to meet their views."

Decree Revoked In Court.

In the matter of exceptions to report of auditor appointed to pass upon exceptions to the account of Solomon C. Groff, execudeceased, the court of January 29th, last, made a certain decree, surcharging the executor with \$454, &c., to which ex-ceptant's council then agreed and consented, which counsel for accountant supposed would be acceptable to him, but it did not prove satisfactory to either of the parties, and they now join in asking the court to set aside and revoke said decree and file an opinion, and now February 22, 1683, on said request to revoke and annul said decree or order as aforesaid

RESCUED FROM DEATH The following statement of William J. Cough in, of Somerville, Mass., is so remarkable that we beg to ask for it the attention of our read ers. He says: "In the fall of 1876 I was taken with a violent bleeding of the lungs, followed by a severe cough. I soon began to lose my appetite and flesh. I was so weak at one time that I could not leave my bed. In the summer of 1877 I was admitted to the City Hospital While there the doctors said I had a hole in my left lung as big as a half-doilar. The great statesman endured the pelting good humoredly, laughing heartily, but making not attempt to return the fire; but his wife and daughter entered with great ardor into the excitement of throwing confetti.
