Lawrence : 9. Reading ; 10. Kieffer. They ripen in about the order they are arranged, except as to the three latter. The Lawrence, which begins to ripen, or can be made to ripen, early in November, will keep until April, it being the only winter pear which with us keeps beyond February.

In the above list, from No. 1 to 7 are summer varieties; from 8 to 14 autumn (early and late;) and 15, 16 and 17 winter, thus affording a sufficient number for each of the periods of the best known

sorts for this region. We have dropped Kirtland, which though a constant, heavy bearer, rots so rapidly at the core as to interfere with its profitable marketing. We have also ing name.
