avidity. Evidently those who visited the market do not believe in a rise in prices of leaf, and, it seems, rather expect a decided reduction. For that expectation there is no good foundation, except in cases where purchasers of '81 have paid extravagent figures.

extravagant figures.

The prices which have ruled in the market during the past few months will undoubtedly continue, be they profitable or unprofitable to the holders.

The much cherished idea that an inis probable that about one-half the crop of that of the previous one. Such increase of the county has been bought. In some will undoubtedly create lower prices for sections much more than that proportion has been taken, but in other section the bulk of it is yet in the hands of the growers. Increased activity is noticed in the warehouses, where large numbers of men are employed assorting and packing.

Evelowing and packing. Following are some recently reported small and not enough to seriously check sales of the crop of 1882:

Jacob Shirk bought last week in Quarryville, from L. M. Peters, 3 acres at 18, 9,

July 1. The new crop of Sumatra will be offered in Amsterdam some time in May.

We were the first to urge an increase of duty on Sumatra tobacco. We suggested strongly that a duty of \$1.50 per pound be imposed. Pretentious meddlers thought fit to convey to Congress the idea that any increase would be welcome and effective. Hence the insignificant one provided for Wood & Gill, 1 acre at 15, 4, 2; Kirk & in the tariff bill. We did want we thought Bro., 1 acre at 17, 5, 2; J. A. McCarrigan, to be our duty in this matter and we ask no thanks. Let the blame rest where it

belongs. From Pennsylvania we hear of rapid purchases of the new crop at what appears reasonable, but not low figures. Investors hold that the 1882 Wisconsin crop is a failure, and that therefore Pennsylvania will have to take its place. The recent purchases of the '82 New York state are

attributed to the same cause. From Connecticut the reports of sales are less animated, a cooler reflection than lately prevailed seemingly having taken The Ohio crop is believed to be of

unusually fine texture, and quite an army of buyers are now to be seen in the tobacco districts of Ohio. The sales of the week were as follows: Pennsylvania, crop '80, 500 cases; 6½ cents for fillers; 10 to 15 cents for run-

Crop '81, 150 cases ; p. t. Connecticut, crop '81, 125 cases wrappers, at 16 to 27 cents.

Ohio, crop '81, 800 cases, low, at 51 to 6½ cents. Sumatra-Market very active. Sales, 350 bales, mostly to manufacturers. As the stock of fine, dark, old is shrinking, holders assume quite an independent action as to figures and terms. Importers 10, 4, 2; J. B. Seed Leaf-As with other branches of cigar leaf, dealers show more life, while purchasers examine and buys with dicided encouragement. They seem to understand what they are now doing, hence for the goods sold satisfaction is claimed. Some of our manufacturers have recently been examining the packing bought of '81 crop, and express an agreeable surprise at the favorable showing of the leaf. It has texture, color and quantity, and can therefore be used profitably. Dealers show up

Sumatra still commands attention from certain admirers, notwithstanding the increased duties. Havana is moving elegantly in the

Loss and Gain of Land by Flood.

One of the strangest freaks of the flood

Cincinnati Enquirer.

is reported from Whitewater river, a few miles above Lawrenceburg, where Farmer Hunt lost 40 acres of land, and his neighbor, Fred Newhouse, has a barran and rocky mill site converted into 10 acres of as rich land as the fertile valley affords. The land along the Whitewater is as rich as any in the West. An acre of ground here is au independence for a gardener, and 10 acres are little less than a bonanza. During the flood the Whitewater bottoms were overflowed for miles along the stream and the extraordinary height of the water created currents that had never been known before. Since the subsidence of the flood it has been found that 40 acres A. M. Baughman, 1 acre at of Farmer Hunt's richest soil has been 12, 5, 2; B. Fritz, 2 acres at 11, 5, 2; Robert Hughes, 3 acre, 14, 4, 2. The farm practically worthless until restored by a system of tillage and fertilizing. Fred Newhouse, who recently removed to the Whitewater bottoms from Aurora, owned a mill site just below Hunt's farm. Newhouse's property consisted of 10 acres of recky and barren land, unfit for farming purposes. A portion of this was a large mill-pond. The mill pond is now filled to the level of the breast of the dam with the richest soil and Mr. Newhouse's remaining acres of unproductive house's remaining acres of unproductive rocks are covered to the depth of several feet with the same rich deposit. Instead of being a loser by the flood he is ahead the value of 10 acres of Whitewater valley land, which, when there is any of it in ley land, which, when the land which l the market, commands from \$200 to \$500 an acre. Walnut Leaf Hair Restorer. It is entirely different from all others. It is as clear as water, and, as its name indicates, is a perfect Vegetable Hair Restorer. It will immediately free the head from all dandruff, restore gray hair to its natural color and produce a new growth where it has fallen off. It does not in any manner effect the health, which Sulphur, Sugar of Levd and Nitrate of Silver preparations have done. It will change light or faded hair in a few days to a beautiful glossy brown. Ask your druggist for it. Each bottle is warranted. SMITH, KLINE & CC., Wholesale Agents, Philadelphia, and HALL & RUCKEL. New York. jun6-lyd.cod&w
