

House House Bills Reported—Anti-Cremation and Anti-Treating Legislation—House Proceedings.

Special Dispatch to the INTELLIGENCER. HARRISBURG, March 14.—In the Senate to-day Emery's free pass bill was favorably reported; as were the following House bills; providing for evening school; authorizing superintendents of public institutions to issue certificates to teachers in cities of the fourth class; equalizing taxation for school purposes in independent school districts; authorizing railroad companies to extend their lines and to provide for the construction or equipment of their roads, either by enlarging their capital stock by new subscriptions or by issue of new bonds.

Nelson introduced a bill to prohibit cremation, imposing a fine of not less than five hundred dollars and imprisonment of not less than one year; Greer, prohibiting persons treating other persons to intoxicating liquors and providing for a fine of twenty-five dollars.

McKnight's joint resolution for a constitutional amendment decreasing the number of senators to thirty-three and of members to one hundred was defeated. Similar action was taken on the bill imposing costs on unsuccessful candidates in elections hereafter. The following bill was finally passed: Cooper's water trough bill; allowing the United States to purchase lands in Erie for public buildings.

House Proceedings. The House considered bills on second reading. The appropriation to the state board of health was \$2,000,000, to \$3,000,000, a change of \$1,000,000, the bill providing for the payment of liquor and other license into the county treasurers was passed on second reading, notwithstanding the fact that a communication was read from the auditor general that such a law would take from the state treasury this year \$2,020,000.

BUTLER MAKES A SENSATION. He vetoes the Bill Making Appropriations For Charitable and Reformatory Institutions.

BOSTON, March 14.—A sensation was created in the Legislature to-day by a message which Governor Butler presented, vetoing the bill making appropriations for the expenses of various charitable and reformatory institutions of the state. He declines to sign it for various reasons, first, that it contains appropriations for distinct purposes, some of which are objectionable, and others are not and are but a continuation of what he says is the vicious practice of writing in the bill different appropriations for entirely diverse objects.

He quotes this method as applied to congressional appropriations, where it is a great and serious objection. Taking the total appropriations of the bill, to wit: \$47,000, he equalized the various items which make up that amount. Most of the appropriations, he says, are for the payment of salaries, expenses and cost of supervision in the state almshouse, workhouses, prison, reformatory and reformed school for boys and girls and he estimates the appropriation for salaries at 69 per cent. of the amount to be expended for the maintenance of these institutions. The salaries diminished. Upon a better acquaintance with the cost of doing business for the state, he is more than ever convinced that the commonwealth employs more efficient agents than are necessary to do its business, and reviewing the statements made in his inaugural address reaffirms his assertions therein: that the state institutions are managed with unnecessary extravagance.

The Flooded Districts. MEMPHIS, March 14.—A dispatch from Helena, Ark., says that the discharge from morning abatement shows a decline of one inch during the night. A line of skiffs has been started between this point, Johnston and Clarksville, Miss., and flatboats are delivering goods back through the country on the accessible streams and the Pacific and Southern express companies have resumed their regular trip over the St. Louis, Iron Mountain & Southern railroad. Business is generally resuming. For the first time in many years there is a swift current coming down the shore, indicating a disposition on the part of the river to again change its channel this vicinity. Should this occur the big bar in front of Helena will be greatly diminished if not washed away, while the present channel of the river will again fill up.

A true romance in real life recently took place in Louisville, Ky. The circumstances were these: Miss Acme Vandenberg, the beautiful and accomplished daughter of our well known young gentleman, also of Louisville, paying her attentions, and both being possessed of speculative spirit, and unknown to the other, purchased a ticket in the Commonwealth Distribution Company. It happened that each took a half ticket with the same number, and when the drawing terminated they had drawn \$5,000 each, their respective shares of the \$10,000 prize. When the young gentleman called to tell his good fortune, his surprise was great to find his sweetheart was also entitled to congratulations. Of course, a wedding is contemplated.
