LANCASTER, PA. FRIDAY, MARCH 30, 1883.

Price Two Cents.

HOUSE FURNISHING GOODS.

A FEW WORDS ABOUT

CHILDREN'S CARRIAGES.

We take pleasure in calling the attention of the public to our Large Assortment of CHILDREN'S CARRIAGES. As these goods have been made to our own special order, we feel safe in saying that in Durability of Construction, Elegance of Finish or Beauty of Design, they are ahead of any goods in the market. The styles this season are more varied than ever. The finest goods are of Rattan, Cane or Wood-slat bodies, with gear and wheels either painted or varnished. Parasols or Canopy Tops are equally fashionable. Our finest goods are upholstered in the richest Plain or Brocaded Satins. But we have Elegant Goods in Wool, Terry, Tapestry and Ram's Cloth. Notwithstanding our Carriages are better and handsomer than ever, the prices are lower. Call early and make your selections.

MEDICAL.

Simmons' Liver Regulator

For Dyspepsia, Costiveness, Sick Headache, Chronic Diarrhoea, Jaundice, Impurity of the Blood, Fever and Angue, Malaria and all diseases caused by Derangement of Liver, bowels and Kidneys.

Symptoms of a Diseased Liver. Bad breath, Pain in the Side, sometimes the pain is dull, the Shoulder blades, taken for Rheumatism; general loss of appetite. Bowels generally constive, sometimes alternate with laxity. The head is troubled with pain, is dull and heavy, with considerable dizziness, especially when rising in the morning. A sensation of leaving undone something which ought to have been done; a slight, dry cough and flushed face is sometimes an attendant, often mistaken for consumption; the patient complains of weariness and dizziness; nervous, easily excited, nervous, sometimes a prickly sensation of the skin extends; spirits are low and despondent, and although satisfied that remedies would be beneficial, yet one can hardly summon up fortitude to try them. In fact, distress every remedy. Several of the above symptoms attend the disease, but cases have occurred when but few of them exist. The following is a list of cases shown the Liver to have been extensively deranged.

It should be used by all persons, old and young, whenever any of the above symptoms appear. Persons traveling or living in Unhealthy Localities, by taking it occasionally to keep the Liver in healthy action, will avoid all Malaria, Biliousness, Nausea, Drowsiness, Depression of Spirits, etc. It will invigorate like a glass of wine, but is no intoxicating beverage.

If you have eaten anything hard or digestion, or feel heavy after meals, or sleepless at night, take a dose and you will be relieved. Tripe and Doctors' Bills will be saved by always keeping the Regulator in the House.

For whatever the ailment may be, a thorough cathartic, purgative, alternative and tonic can never be out of place. The remedy is harmless and does not interfere with business or pleasure.

IT IS PURELY VEGETABLE.

And has all the power and efficacy of Calomel or Quinine, without any of the injurious after effects.

A Governor's Testimony.

Simmons' Liver Regulator has been used in my family for some time, and I am satisfied it is a valuable addition to the medical chest.

Governor of Alabama.

Hon. Alexander H. Stephens, of Ga., says: "I have derived some benefit from the use of Simmons' Liver Regulator, and wish to give it a further trial."

"The only thing that never fails to relieve me, is your Liver Regulator. It has cured my Liver Affection and Debility, but never allowed anything to benefit me to the extent that your Liver Regulator has. I sent from Minnesota to Georgia for it, and would send further for such medicines, which would avail all who are similarly affected to give it a trial as it seems the only thing that never fails to relieve."

P. M. JANNEY, Minneapolis, Minn.

Dr. T. W. Mason says: "From actual experience in the use of your Liver Regulator, in my practice I have been and am satisfied to use and prescribe it as a purgative medicine."

"Take only the Genuine. Beware of cheap imitations on the wrapper the RED TRADE-MARK and SIGNATURE OF J. H. ZEILIN & CO. For sale by H. B. Cochran, Druggist, 137 and 139 North Queen Street.

FOR SALE BY ALL DRUGGISTS.

LANCASTER, PA.

KIDNEY-WORT

It has proved the surest cure for

KIDNEY DISEASES.

Does a lame back or disordered urine indicate that you are a victim? THEN DO NOT HESITATE, use Kidney-Wort at once. (Druggists recommend it) and you will speedily cure the disease and restore healthy action.

Ladies. For complaints peculiar to your sex, such as weakness, retention of urine, brick dust orropy deposits, and dull, dragging pains, all speedily yield to its curative power. SOLD BY ALL DRUGGISTS. Price, \$1.

KIDNEY-WORT.

Acts at the same time on the Kidneys, Liver and Bowels.

"My friend, E. C. Legard, of this city, used to be drawn double the painful Kidney Disease. 'Kidney Wort cured him.'—Jas. M. Kline, Druggist, Allegheny City, Pa., Aug. 22-82.

KIDNEY-WORT

—IS A—

Sure Cure for All Diseases

OF THE

KIDNEYS AND LIVER.

It has specific action on this most important organ, enabling it to throw off torpidity and infection, stimulating the healthy secretion of the bile, and by keeping the bile in free circulation, effecting its regular discharge.

Malaria. If you are suffering from malarial fever, chills, have the bile, and every one should take a thorough course of it. Sold by Druggists. Price, \$1.

KIDNEY-WORT

"I've gained 50 lbs. in two months," writes Mr. J. C. Power, of Trenton, N. J. (Dec. 2-82) and an old well man. I'd suffered with liver disorders since 1821. Kidney-Wort cured me."

Strong words from a New York city physician: "I unhesitatingly recommend Kidney-Wort. It greatly benefited me," writes Rev. C. R. Kemble, of Mohawk, N. Y.

KIDNEY-WORT

For the Permanent Cure of

CONSTIPATION.

No other disease is so prevalent in this country as Constipation, and no remedy has ever equalled the celebrated Kidney-Wort as a cure. Whatever the cause, however obstinate, use this remedy, and it will overcome it. Acts at the same time on the Kidneys, Liver and Bowels.

This distressing complaint is very apt to be complicated with constipation. Kidney-Wort strengthens the weak and quickly cures all kinds of Piles, even when physicians and medicines have before failed.

"If you have either of these troubles use Kidney-Wort. It has cured me." "For 12 years," writes Lyman T. Abell, of Georgia, Va., "I found no relief from piles, until I used Kidney-Wort. It has cured me."

KIDNEY-WORT

—IS THE GREAT CURE FOR—

RHEUMATISM AND GOUT.

As in all the painful diseases of the KIDNEYS, LIVER AND BOWELS. It cleanses the system of the acid poison that causes the dreadful suffering which only the victims of Rheumatism can realize.

THOUSANDS OF CASES of the worst forms of this terrible disease have been quickly relieved, and in short time PERFECTLY CURED. Price, \$1. Liquid or Dry. Sold by Druggists. Dry can be well by Richardson & Co., Burlington, Vt.

KIDNEY-WORT

Acts at the same time on the Kidneys, Liver and Bowels.

"I had habitual costiveness, pain in the back and rheumatism," writes S. J. Scott, Burlington, Vt., "Kidney-Wort has cured them all."

KIDNEY-WORT FOR SALE AT H. B. COCHRAN'S DRUG STORE, 137 AND 139 NORTH QUEEN STREET.

FARMS AND FARMERS.

AN OSTRICH FARM IN AFRICA.

A Novel Industry—Grazing Lands in the South—Seasonable Hints for Husbandmen.

In company with a crowd of dukes and right honorable, who have lately been visiting the scenes of Lord Wolsley's "latest and most glorious achievement," a correspondent went to see the Cairo ostrich farm. Everything in Egypt has an archaeological bearing. The village of Tel-el-Kebir, or Big Mound—is nothing less than the relics of the city called Piston in the Old Testament that was built by the Jews with bricks without straw. The Cairo ostrich farm is situated within a pistol shot of the famous pyramid, which is still standing, and under the shade of which tradition tells us that the Virgin with the infant Jesus and Joseph reposed when they fled into Egypt from the wrath of Herod. Quite near the Virgin's tree and hidden among thick foliaged shrubs, is a French restaurant, that has become the favorite resort of princes and of golden youth, of comedians and ladies of the corps de ballet, and of the tourists who do not make an excursion to the sacred tree and refresh their inner man at the convivial booby.

The ostrich farm extends from the Virgin's tree to the desert, and comprises several acres of land surrounded by high mud walls. The greater part of the farm is desert, not because it is incapable of cultivation, but because it is too pebbly and essential to the well-being of the ostrich. There are at present on the farm 120 birds of more than a year's growth, and of these fifteen are female and twelve are male adults—that is to say they are more than three years old, the average at which they commence to lay. Twelve of the adults are now laying, three are engaged in hatching—one being upon twenty-two, one upon fourteen and one upon eleven eggs. Strange to say, the male birds attend more to the hatching part of the business than the female, especially in cold or rainy weather, and in fact often undertakes the whole of that tedious duty himself, being only relieved by his better half at local hours.

Mr. Wetter, the ostrich director, has been very fortunate in his efforts to domesticate the ostrich in Egypt. Out of 108 birds hatched last season eighty yearlings are now alive and healthy—a very successful result when it is borne in mind that during the late Arabi unpleasantness the ostriches were much neglected. After visiting the breeding enclosures and those where the eggs were packed, we were conducted to the incubating house and to a wire cage where this season's birds were scamparing about full of health and vigor. By applying one of the eggs to a hole cut in a piece of blackened cardboard and placing against the sun the farmer shaved his young bird which had been incubated by artificial means and had reached maturity, actually pecking at the interior of the shell and struggling to break out of prison.

Fruits in Fertilizers.

The recent bulletin of the Pennsylvania state college issued under the direction of Prof. W. H. Jordan, gives the following statement of the advantages of analysis at the State experiment station:

"Until within a few years, the fertilizer trade in this country undoubtedly offered an easy chance for the practice of fraud. The changes have been wrought by the dealers, is very certain. At the present time fraud is more surely and quickly detected, especially in those states where the inspection of fertilizers is vigilant and active. Attempts at fraud are still made. The last quarterly of the Pennsylvania board of agriculture shows one instance where a fertilizer worth forty-six cents per ton was selling for twelve dollars; and another, worth five dollars, was selling for twenty dollars. The report of the Connecticut experiment station, for 1881, gives several examples of fertilizers which were sold at ten to twenty three dollars per ton more than their real value. It is gratifying to know, however, that the majority of fertilizers now inspected have a value that compares favorably with the selling price. The report of analysis made under the direction of the board of agriculture, shows that out of 117 samples of fertilizers, the 'estimated value' of 69 either nearly equaled or exceeded the selling price, and in many other cases the selling price was only about \$5 too high; any dealer, therefore, who attempts to sell at prices much above their value, indicating the need of constant and careful inspection. In Connecticut, where an experiment station has for several years kept a close and extensive supervision of the fertilizer trade, farmers can buy conscientious men, and report from the New Jersey station indicates that in that state also the same kind of supervision is securing the farmers against fraud. The advantages of such inspection, both to farmers and to all honorable dealers, is beyond question, and so far experience has shown that an experiment station is the most efficient organization for securing it.

A Good Move and Good Advice

Baltimore Sun.

The purchase of grazing lands in Virginia by a number of gentlemen who have recently come here from Europe is referred to with approval by the New York Times as a 'going half way across the continent' to open new grazing farms at the far West.

"Agricultural men of large resources are most without number," says the Times, "are neglected in the older states that luck may be counted in the extreme interior." Virginia has long been a favorite state for English settlers, nearly all of them being persons of education and high standing in their own countries. Some of them are younger sons of good families, who have taken to farming in the valley and at other points in the state, and who still retain their old country fondness for dogs and houses.

The introduction of large amounts of English capital which have been invested in the purchase of ore beds, and in the construction of some of the finest furnaces in the state for the making of iron, will tend very materially to draw other English emigrants in the same direction. And now we have the present account of English capital to be invested in buying up many acres of those fine grass lands of Virginia, from some of which the choicest cattle now sent to market are driven. Such a movement, well begun, promises to extend to the border states, Tennessee and North Carolina, and it is one in which Maryland herself may reasonably expect to share whenever the proper steps are taken to set forth the advantages of our soil and climate, our mineral resources and our facilities for transportation to market, and same direction. And now we have the present account of English capital to be invested in buying up many acres of those fine grass lands of Virginia, from some of which the choicest cattle now sent to market are driven.
