Proposed Reading Room.

It has been proposed to establish a reading room in the second story of the Vinilant fire engine house for the use of mem bers of the entire fire department. The location is not central enough. No Shawnee fireman would walk the long distance from his engine house to the Viligant for the sake of doing any reading. A centrally located reading room might prove a success but most assuredly one situated where proposed would be a total failure. Rattroad News

IN A DREAM.

A Father Is Told Where the Body of His Drowned Boy Lies.

The body of John Pierce, who was drowned on February 4, at the time the Franklin street bridge at Titusville gave way during the flood, was found on the flats about a mile below Titusville, and just opposite the old Pierce homestesd in Venango county. The finding of the body was the result of the dream of a electryman named Hoover, who lives at Suaville. In his dream he saw the place where the body was to be found, and though he never remembered having seen the place in his waking moments, he and the boy's father started out from Tstusville with the result stated. When found the body was lying several rods from the bed of Oil Creek, with the head lying down stream and buried in the sand at the foot of some willow brush, with the lower extremities protruding. When dug up the face was found to be bloody, while the clothes remained intact, the overcoat being buttoned around the throat. The limbs were yet frozen, although some parts of the corpse had commenced to mortify.

High Licenson

Hon. C. F. Manderson, the new United States sepator from Nebraska, claims that the new high license liquor law of that state " is the best liquor law in the United States." The license for cities is \$1,000 a year and in small towns \$500 a year. Bofore it went into effect Omaha had 160 saloons, " and some of them were pretty bad," remarks the senator; now the number has been reduced to 90, a little nore than one half. Where there were 160 saloons paying \$100 per year, the revenue they yielded was only \$16,000; now the 90 under the law yield \$90,000 a year, and there is no such thing as selling without a license, becau e those who pay dearly for the privilege take good care to see that the law is not violated to the detriment of their business.
