Away Across the Mississippi is Held a Convincing Conversation

est combinations ever produced, and my experience of that sort of thing has been wide enough to entitle my judgment to some re

speaker's friend, with a little yawn, as thoug ne didn't take much interest in the subject "I have never been able to see much differ ence in those things. They are all pretty nearly the same size, and made of about the

The talk, of which the foregoing is a fragment, took place in Gallatin, Missouri, not long ago, in the snug office of Dr. M. P. Flowers, one of the leading physicians of the state, who followed up the yein in which he had in troduced it substantially in these words:

" Nonsense, that is the riginarole of a boy, or rather of a man who either doesn't know o doesn't care what he says. These things, a you call them, are just as different as the moon is from green cheese. Now, limments lotions and ointments are very good in mos cases for the relief of pain and inflammation But, in the first place, they are unclean. They soil the hands and the linen, besides being always out of reach when they are most

wanted."
"Well, my dear doctor," sighed the traveler from the North, "what would you have? This is a wretched world anyhow, and nothing is ever at hand when it is wanted, You can't suggest anything—"
"Yes, I can," broke in the doctor, thumping the table with his first, "I can suggest BENSON'S CAPCINE POROUS PLASTER. I have tried it on my nationis, and have tried it. have tried it on my patients, and have tried it on myself for an attack of Neumonia, and ha all cases relief has followed in from three to torty-eight hours. The old plasters are stage

coaches—the Capcine is a telegraphic dispatch. For instance, in cases of Neuralgia. Muscular Rheumatism. Lumbago, retarded action of the Kidneys, and—,"

"I give it up. doctor, and in case of need I'll

CABLE MOTERS.

IN OPERATION IN PHILADELPHIA. is at Last Successfully Operated-Cars

Running to the Park, a Distance of

Ten Blocks. People who passed in the neighborhood of Twenty-third street and Columbia avenue, Philadelphia, yesterday morning, were surprised by the low, rumbling noise which eminated from the one-story building, used as an office and stable by the Union passenger railway company. The noise was caused by two Porter & Allen engines of a hundred horse power each, which were used to propel the cable which the company has laid to haul their cars from the depot to the park. A test of the system was made and was witnessed by a number of citizens, including members of councils, ex-Mayor Stokley, F. Theodore Walton, at one time recorder of deeds, but now a resident of New York city; judges of the supreme court, the officers of the

railway company and many others. The laying of the cable was begun on the 25th of last May under the supervision of William B. Reauey, The castings were made and patented by Morris, Tasker & Co., and 2,500,600 pounds of iron were laid in the streets in the construction of the tunnel through which the cable passes.

The system used is in many respects similar to the method employed in Chicago, though many improvements have been made. An endless cable 9,200 feet long pases over a series of wheels, of very simple construction, into the street and propels the cars, which were built by J. G. Brill & Co., of this city. The cars differ but little from the regular cars of the company, except that are and rounded in front and the windows cannot be lowered or raised as in the ordinary ear, but must be taken out altogether to admit the air during the summer.

A better section of the road could not be found on which to fully test the workings of the cable system of propelling cars. About a quarter of a mile from the start ing point a hill, with an ascent of three feet to the mile, rises, and three-quarters of a mile further on a sharp curve or rather a round turn serves further to test the practicability of the new motor. Not long after 11 o'clock the buzzing of the big fly wheels was increased, and even the most unobservant spectator could perceive that the speed of the engines had been increased and that all was in readiness to make the trial. The car was brought from the stable, the grip placed in position and the word was given to start. Before doing so,

however, three of the regular cars of the company were joined to the motor, making a train of four cars, When all was in readiness the engineer caught hold of an arrangement somewhat similar to the handle which regulates the brake of the ordinary car, and a few revolutions served sudden, however, and a sharp jolt was the suffering from costiveness and Hop Bitters is consequence. The car was then stopped and another start made. This time the

The car ascended the grade without dithe curve without the slightest halting. At the curb an arrangement of the tunnel throw the grip off the cable altogether and the car is carried on by its own momentum. After passing the curve the grip again catches the cable and the car pro ceeds as before.

Down the hill on the return trip the train preserved the regular rate of speed and arrived at the starting point within ing, having traversed a distance of 9,200 merely to offer increased facilities to the you. cable system as easily as one car.

cable system as easily as one car.

Any number of people were present to witness the trial. People stood on the sidewalks on the line of the road and crowded the windows of the houses Many and varied were the comments. One old man, who has been a driver of the company for many years, was positive that old man, who has been a driver of the company for many years, was positive that the system would never be a success.

Others however, were more hopeful. The derstand and none will give you credit for—an enleebled condition: a general strongly feat the whole system; twitching of the lower and a feat sistency has become identified with almost all public exhibitions, turned out in great force, and his cheers resounded to the success of the undertaking. He raced alongside the train, and his efforts to get ahead of the motor, if unsuccessful, were

at least worthy of mention. The success of the cable system is assured. No more thorough test could be made than was made. Several trips were taken and the more severe the tests the more satisfactory the results. Ten motors have been built, and if more are required they will be made at once, but as the they will be made at once, but as the starting of the trains will be four minutes apart it is thought that the present number of motors will be sufficient to accombine described by all leading Jewelers and Opticians.

modate the summer travel The test may be described in one word as satisfactory. After the trials had been made a banquet was served in the office of the company. Speeches were made by councilman Smethurst, who has so strongly advocated the five cent fares; Mr. P. A. B. Widener, president of the Market street railroad; Mr. William Lawson, expresident of the Callowhill street railway; Wm. II. Kemble, president of the Union passenger railway

dent of the Union passenger railway company, and others

Mr. Kemble said that nineteen years ago the Union railway company had been started, and at that time but one paper, the Public Ledger, thought enough of the undertaking to mention it. Since then it had gradually grown, until it had reached its present proportions. "In the last year" he said, "we have carried thirty three million passengers." Referring to the cable line he said: "If the public accepts the first effort with favor, the company will build a line from Market street ferry to the depot. Such a line will cost over five and a half million dollars. If the present project is not received with favor the company will not attempt any other project of the kind." He then referred to the figo cent fore question and said that it in every place, for I telt you that I would not in the figo cent fore agreement ago.

A Baptist Minister, and before I even thought of being a clergyman, I graduated in medicine, but left a linerative practice for my present protession, 49 years ago. I was for many years a sufferer from quinsy: "Thomas' Eclectric Oil cured me." I was also troubled with hourseness, and Thomas' Eclectric Oil cured the." I was also troubled with hourseness, and Thomas' Eclectric Oil cured the." I was also troubled with hourseness, and Thomas' Eclectric Oil cured the." I was also troubled with hourseness, and Thomas' Eclectric Oil cured the." I was also troubled with hourseness, and Thomas' Eclectric Oil cured the." I was also troubled with hourseness, and Thomas' Eclectric Oil cured the." I was also troubled with theorems. I was also troubled with hourseness, and Thomas' Eclectric Oil cured the." I was also troubled with hourseness, and Thomas' Eclectric Oil cured the." I was also troubled with hourseness, and Thomas' Eclectric Oil cured the." I was also troubled with hourseness, and Thomas' Eclectric Oil cured the." I was also troubled with hourseness, and Thomas' Eclectric Oil cured the. I was also troubled with hourseness, and Thomas' Eclectric Oil ject of the kind." He then referred to the five cent fare question and said that it was the opinion of all railroad men who had been informed of the distance that the Union line carried passengers for a single fare, that the five cent system could not be introduced without positive loss.

A MORMON REUNION.

In Kirtland, Ohio, yesterday cold winds and rain interfered somewhat with the attendance at the Mormon reunion. The organization was not perfected till afternoon. The Rev. Z. H. Gurley was made temporary chairman and E. L. Kelley secretary of the conference. After prayer by the Rev. Joseph Smith, committees on credentials and organization were appointed. The chair then introduced the Rev. Joseph Smith, jr., president of the reorganized church of latter-day saints.

The speaker gave a brief outline of the purpose of the reunion, the condition of the church, the outlook for the future and the programme for the church conference. The Rev. W. W. Blair, counselor of the church and present missionary to Utah, spoke next. He said that if Joseph Smith was not inspired by God Almighty he was the most wonderful man of this century. This address closed the afternoon's proceedings. The Rev. Z. H. Gurley, of Washington, spoke of the Utah Mormons as Brighamites, and said they were dissenters from the original church. He also said: "The people of Utah, men and women, have practiced the meanest things that ever disgraced the world. I am very sorry such a terrible thing as polygamy exists. It is a curse as black as Egyptian darkness. I do not take stock in any religion the followers of which do not love the nation and obey its laws. We hope the government will draw a distinc-

#### IN LOVE WITH EDWIN BOOTH.

devils at Utah."

Foolish Giri Tempts Fate and is Fortu-nate in the Man's Honesty. New York Star.

Speaking of the persecutions of actors eminds me of a very pretty story regarding Edwin Booth. It was while he was playing at the winter garden that a young miss in her teens fell desperately in love with him. She was the only daughter of wealthy parents, and night after night she would make some excuse to leave home and go to the theatre. She deluged Booth with love letters, and finally he wrote to her telling her to meet him at the stage door at the end of the performance on a certain evening. She was there according to appointment. Booth handed her into his carriage and gave some whispered instructions to the driver. The horses were driven rapidly and in a few moments the girl found herself in front of her own home. The carriage stopped and Booth assisted her to alight. Taking her arm in his he walked with her up the stoop and rang the boil. It was late and the girl's father, who had become very auxious about her whereabouts, opened the door. When he saw her in the company of the actor he started back in astonishment. "Mr. --. " said Booth very quietly,

'I have brought your daughter home. She has been very foolish, but she has promised never to be so again, and I would advise you to take better care of With these words he turned and That young girl is a happy wife and mother now, but she never tires of telling the lesson she received of the great

SOMETHING FOR EVERYBODY.

Read, Mark and Inwardly Digest.

the Sure Cure. It your vital forces are depressed, if you motion was as gradual and easy as could have a teeling or general lassitude and weakbe desired. The car, with its train at ness, are easily fatigued, perspire freely on tached, started off with an easy motion, going to sleep are short of breath on every and the speed was gradually increased slight effor and have a general feeling of natil it reached the rate of six miles an melangholy and depression, you are suffering from general debility and Hop Bitters removes

It all If you have a sense of weight or fullness in minishing its speed and gracefully rounded the stomach; a changeable appetite, sometimes voracious, but generally feeble, a morbid craving; low spirits atter a full meal, with severe through which the slot passes serves to pain for some time after eating, wind rising on the stomach : sour stomach : vomiting and fluttering at the pit of the stomach and a soreness over it; nausca, headache, or some of these symptoms, you are suffering from dyspepsia. and Hop Bitters will permanently cure you. If you freeze one hour, burn the next and sweat another; if you are suffering all the tortures of the Inquisition, one moment fearing you will die, and the next fearing you won't fourteen minutes from the time of start- if you have blue nails and lips, yellow eyes and ghost-like complexion, you are suffering from feet. It is not the object of the company, that missmatic curse, Billious, Malarial Fever,

lowever, to gain an increase of speed, but or Ague, and Hop Bitters will speedily cure public in the mode of traveling. As was demonstrated to day, a train of four or even five cars can be propelled by the cable system as easily as one car.

If you have a dry, harsh and yellow skin, a dull pain in the right side, extending to the shoulder blade and pit of the stomach carble system as easily as one car.

out the whole system; twitching of the lower limbs; a desire to fly all to pieces, and a fear that you will; a steady loss of strength and health—any of these symptoms show that you are suffering from that hyra-neaded disease. Nervousness, and Dop Bitters will effectually If you have Bright's disease of the kidneys, or any other di-ease of the kidneys or urinary organs, Hop Bitters is the only medicine on earth that will permanently cure you. VIDNEY WORT.

#### Biliousness and Bilious Patients.

Pertaining to Bile, Billous Symptoms, Billous Temperaments. THE REMEDY. The Bilious is a disorder of the human sys-

em. A technical definition of the term is this: "Pertaining to the bile; disordered in respect to the bile; as a bilious patient; dependent on an excesss of bile; as, bilious tem perment ; bilious symptoms. The word bile, when employed in the sense

in which it is to be understood in this article, signifies, according to the dictionaries, "a yellow, greenish, bitter, vicid, nauseous fluid, ecreted by the liver." "Any derangement of the bile at once manifests itself in great bodily discomfort, in loss of appetite and in despondency," recently remarked an author of a valuable treatise upon this subject. The same writer further adds: "Some of the

following symptoms are usually prominent tion between the reorganized church of latter-day saints and those latter-day Pain in the right side, which is very sensitive to pressure. The pain will sometimes appear to be located under the shoulder blade. There is also irregular appetite, flatulence, a sense of fullness in the region of the stomach, and, sooner or later, the whites of the eyes becom yellow, the stools clay colored and the urine rellow, depositing a copious sediment." The balance of the too familiar train of ills needs no further mention here. The bilious is, as will be seen, an affliction of great magni-tude and of varied forms of direct and indirect appearance. The disease is no respecter of persons or localities. Its deadly and implacole enemy is found in KIDNEY-WORT,

It acts on the liver and kidneys at the same ime, and by its mild but efficient cathartic effects moves the bowels freely. The morbid poisons that have been the cause of all this lisease and suffering will be thrown off; new life will be infused into every organ, and nature, thus aided will soon restore the patient o health.

Physicians of repute and standing, men who are honored for their probley, and respected and trusted for their scientific attainments, are using Kidney-Wort in their practice regularly. No stronger evidence of the worth of the remedy would seem to be necessary. Such endorsements are few and fer between. We had almost said that they were without precedent in the history of a proprietary remedy Be that as it may, hower, the fact remains es tablished that Kidney-Wort is a matchless remedy, and one that needs only to be tested to demonstrate its rare merit as a healer of most of the common malacties of the human DR. PHILIP C. BALLOU,

lives in Monkton, Vt. Under date of April 20th, 1882, the doctor wrote to the proprietor of Kidney-Wort, and said, among other things: Nearly a year ago I wrote you about the success I had had in the u-e of Kidney-Wort in my Practice. The past year I have used it more than ever, and with the best results. It cured Mr. Ethen Lawrence, of this town, of a to throw the grip upon the cable and the liven have nausea, want of appetite, flatuerar started. The start was altogether too leney, dizziness, feverish symptoms, you are leney, dizziness, teverish symptoms, you are fully with it. Constipation, in all its forms yields to it, and in rheumatic affections I have known it to givenlmost immediate relief. In temale diso; ders it is equally successful. Take tall in all 1: is the most wonderful me licine I have ever used." Dr. Ballou does not stand alone in bis experience with this remedy. R. K. Clark, M. D., of South Hero, Vt., says "Kidney-Wort does all that is claimed for it." Whilst Dr. C. M. Summerlin, of Sun Hill, Washington Co., Georgia, says, in a nutshell "Kidney Wort cured my wife when my own and other physicians' prescriptions only palm30 Iwdcod&w liated her troubles."

MEDICAL. DROWN'S IRON BITTERS.

#### Strong Facts

A great many people are asking what particular troubles Brown's Iron Bitters are good for.

It will cure Heart Disease, Paraly sis, Dropsy, Kidney Disease, Consumption, Dyspepsia, Rheumatism, Neuralgia, and similar diseases.

Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation, and by building up the system, drive out all disease.

A Lady Cured of Rheumatism

Baltimore, Md., May 7, 1880.

My health was much shattered by Rheumatism when I commenced taking Brown's from Bitters, and I scarcely had strength enough to attend to my daily household duties. I am now using the third bottl and I am regaining strength daily, and I cheerfully recommend it to all.

I cannot say too much in praise of it. Mrs. Mary Brasher,

Kidney Disease Cured.

Christiansburg, Va., 1881.
Suffering from kidney disease, from which I could get no relief, I tried Brown's Iron Bitters, which cured me completely. A child of mine, recovering from scarlet fever, had no appetite and did not seem to be able to eat at all. I gave him fron Bitters with the happiest results.

J. Kylk Monraoue,

Heart Disease.

Vine St., Harrisburg, Pa. Dec. 2, 1881. After trying different physi After trying different physicians and many remedles for pulpibation of the heart without receiving any benefit, I was advised to try Brown's Iron Bitters. I have used two bottles and never found anything that gave me so much relief.

Mrs. Jennie Hess.

For the peculiar troubles to which ladies are subject, Brown's Iron Bitters is invaluable. Try it.

DARKER'S GINGER TONIC. For the Happiness of Home. From a Clergyman's Home O mesa Mossage Containing the Wis-dom of Experience.

Home is the centre of the social system. From it proceed the best and purest influences felt n the world and toward-it gravitate the ten around it their last thoughts linger lovingly when those days are done. Yet home does not usually approach in prac-tice its own ideals. The mother is overtaxed with household duties and the rearing and training of her children, while the father lights the outside battle to win the wherewithal to

erect expenses. Sooner or later care and toil have their marks. It is true enough, as King-sley sings in the "Three Fishers," that "Men must work, and women must weep," "Men must work, and women must weep,"
but too much working and weeping brush all
the bloom from life's truit.

Mental anxiety and lack of rest and pleasure
induce physical diseases of many kinds;
whence the need of a trustworthy tonic to
give health and strength in times of need.
Among the good women of the land who have
found such a sure anchor is Mrs. A. C. George,
wife of Rev. A. C. George, D. D., pastor of the
Centenary M. E. Church, of Chicago, who so
words we have her permission to to quote:

"I use Parker's Ginger Tonic in my family
and can say that we are highly pleased with it. and can say that we are highly pleased with a as a tonic. From my experience of its value, I recommend it as a reliable family medicine." Please note: First, PARKEE'S GINGER Tosic is not a mere essence of Ginger; second, it contains nothing to create an appetite for intoxicating drinks! third, it is a splendid health restorative for all who sufer from disordered Liver or Kidneys or any disease arising from indigestion and impure blood. Accept no substitute for it. Prices, 50c. and \$1 per bottle. It is cheaper to buy the larger size. Hiscox & Co., New York.

MIRONIC SORETHROAT,-THE MAR-I der symptoms are simply uncomfortable local sensations, provocative of voluntary elforts of insalivation to keep the parts cleansed and comfortable. These efforts are supplemented in some instances by frequent use of drinks, which keep the discomfort in alleyance. Throat, Ear and Eye diseases successions
