HOUSE FURNISHING GOODS. L'LINN & BRENEMAN.

A FEW WORDS ABOUT PAINT,

In painting a building the most important consideration is to select the very best Paints, be doing so you avoid the expense of repainting before the proper time for repainting occurs. And as the paint costs less than the putting on, what you most want to save is labor. The best paints cannot be prepared by hand-mixing so that that they will prove durable and cover as great a quantity of surface as the best paints which are produced by thoroughly experienced and practical paint makers, with the aid of complete machinery. We have been selling WADSWORTH, MARTINEZ & LONGMAN'S PAINTS for two years and the reports received from all our customers justify us in offering to furnish our pure paints FREE of COST to any buyer who having painted his building with our paints can demonstrate that our paint has not cost 10 per cent. less for paint used than cost would have been for either pure White Lead and Linseed Oil, or any other mixed paint in the country. We only ask you to give it a test

" Bariy last spring I was severely afflicted ment of the liver, and the Kidney disease came upon me so fast and so suddenly that before I was scarcely aware of the cause of my trouble I became badly bloated, and my body and limbs very much swollen, so that it was with great difficulty and severe pain that I was able to walk any. I became greatly troubled by being short-breathed, so that even a slight exertion or a little exercise would tire me almost to exhaustion, and I was so distressed when I retired nights that I could not sleep and was very restless. One of my limbs especially had a very severe nervous pain, which always seemed to be more severe at night than at any other time, and would frequently ache so sharply as to rouse me from sleep I was very nervous and uncomfort able all the time, and was being doctored, and taking all kinds of medicine for this complaint and that and the other, but all to no good purpose, until at about the time when I was tired out and somewhat disgusted nd almost discouraged with medicines and doctors, a relative and highly esteemed friend persuaded me to try Hunt's Rev. edy. I began persuaded me to try Hunt's Rev. edy. 2 began to take it a few days ago, and am happily disappointed by the result, for before I had used a bottle of it I began to feel relieved, and soon a bottle of it I began to feel relieved, and soon commenced to sleep splendidly; the severe nervous pains in my limb which I had to han-dleso tenderly do not appear any more, uy headache and backache havo disappeared. I teel well every way and rest well at night. Toe swelling has disappeared from my body and limbs, and I am now able to do my housework comfortably and easily. Hunt's Remedy has certainly done wonders for me. MRS. GEO. DAWLEY."

KIDNEY-WORT.

IN THE SPRING TIME

DISEASES OF THE LIVER. IN SOME PORM,

Biliousness, Jaundice, Constipation or Headache.

The disorders which always follow the failures of the Liver and Bowels to perform their proper functions, can be conquered at once by the use of Kidney-Wort. Any derangement of the bile at once manifests itself in loss of appetite and in despondency.

Pain in the right side which is very sensitive to pressure. The pain will sometimes appear to be located under the shoulder blade. There is also irregular appetite, flatulency, a sense of fullness in the region of the stomach and sooner or later the skin and whites of the eyes become yellow, the stools clay-colored and the urine yellow, depositing a copious sediment. There is generally a turred tongue and at time diarrhoa, and at others obstinate constipation; in short, disordered functions of the stomach and entire tract of the bowels. These symptoms, if not speedily grappled with, will result in the most serious conse quences to the whole system, prostrating it and destroying all its vitality and energies. When the liver becomes torpid or gives evidence of undue activity, a few doses of Kidney-Wort and a little caution in relation to a diet, will restore the patient to health and vigor as it by enchantment.

Most remedies used for disorders of the liver and bile, act on the wrong principle, as they are simply catharties, and merely carry of the accumulated secretions.

All Kidney-Wort on the contrary goes to the very root of the evil, as it acts on the Liver and Kidneys at the same time, and by its mild but efficient cathartic action moves the bowels treely. The morbid poisons that have been the cause of all this disease and suffering will be thrown off, new life will be infused into every organ, and the health giving forces will again exert their power.

It is well known that the kidneys are nature's sluiceway to wash away the debris and impurities that are being constantly developed in every human system. If they fail to act freely health will suffer. But the kidneys cannot perform their own proper office-, and at the same time eliminate those impurities that should pass off by free action of the bowels. How important it is then, to have a remedy that will have the power to keep up the

Gentlemen: I have just commenced on my seconal bottle of "Kilney-Wort," I have but little faith in either doctors or medicine, more seco ad bottle of "Kidney-Wort." I have but little faith in either doctors or medicine, more partic warly in medicines extensively advertised. However, I have suffered perhaps as no other man has suffered, from liver disease—brought on by malaria. I suffered for years, till it becan ne chronic, simply trom neglect. I have taken quinine till my head swam, and my nerves were totally unstrung. Last year I went to Europe to try and better it; but came back worse. In reading many of your towertisemen us I came to the conclusion, as a dernier resort, to try the "Kidney-Wort," and did so. After the fourth 'ay I got an attack of the old mala. 1y. I prayed God to relieve me by death, but kept to the medicine as ordered, and I went to tell you to-day, and all sufferers from liver disease, that the last three weeks I have enjo yed such good health as I have not had in ma by, many years. I simply write you this that there sufferers may benefit by it. Very truly yours.

INCENDIARISM.

MARYLAND TOWN SCORCHED. Destructive Fires-The Work of Incen diaries Other Calamities and Crimes at Home and

In Crisfield, Md., about 1 o'clock on Saturday morning fire broke out in the tenement house owned by John Sterling, situated on the corner of Goodsell's alley and Main street and had gained considerable headway before the sleeping inhabitants were aroused. It spread to a building occupied by Field Hastings as a sail-loft and in half an hour the entire block bounded by Main street, the river, Broad street and Hern street was in flames. The buildings, being all frame structures, furnished quick fuel from the flames, and the occupants of sixteen buildings were compelled to fly from their beds in short order. The town fire company worked with great energy, but was unable to save any of the buildings. The wind was fortunately blowing from the north and towards the river, thus retarding the progress of the flames, which would otherwise have spread to the upper portion of the town, when the whole place would have been laid in ashes. Along Goodsell's alley were a number of tenement houses. occupied by colored oyster shuckers many of whom made narrow escapes from burning. The store of J. W. Gillett & Co., a large and pretentious establishment, was occupied on the upper floors by Thomas S. Hodson, collector of the port. The flames burned freely during the greater portion of the day, until they died out for want of fuel. The total loss

will be about \$60,000. A singular fact in connection with the fire is that a conflagration took place in Crisfield one year ago, lacking two days, on which occasion eighteen houses, constituting the greater portion of the business century, were swept away, causing a loss of \$100,000. The fire took place on April 16, 1892, and was the work of an incendiary. The present fire is also believed to have been of incendiary origin. The little town is greatly excited over the matter, as very few of the families have escaped without loss. Most of the stores burned face on Main street only one block distant from the scene of the fire last year. A rigid investigation of the cause is being made by a committee of citizens and if, as suspected, the flames were started by some drunken man, the culprit, if captured, will have every chance of being sum-

marily banged. Other Losses by Fire. Three dwelling houses at Northside, a little hamlet between Cohoes and Waterford, N. Y., were burned Saturday morn ing. The fire originated in Jas. Taylor's saloon. Taylor and his wife were asleep and a pet dog, whose sagacity satisfied him that something was wrong, hastened to the sleeping chamber, which was filling with smoke. The dog jumped on the bed, scratched his master's face until he drew blood, and finally awakened him. Taylor was partly suffocated. He and his wife

escaped in their night clothes. The loss is about \$10,000. In Williamsport fire about midnight de stroyed the large barn on the premises of H. L. Holden, used by S. Q Mingle for stabling his horses. Three horses were burned to death, together with a cow, two carriages, two wagons, a new organ and other property. Mr. Mingle's loss is \$1,700, and he had an insurance of \$550. The fire was of supposed incendiary ori

In Leavittsburg, Ohio, the pipe line of the Standard oil company burst, discharging 100 barrels per hour. The oil ran into a creek, when some miscreant set fire to it and the entire vicinity was filled with smoke and flame. A culvert over the highway costing \$500 was destroyed. An explosion of fire damp which occur

red in the coal mines of Louriches, in the department of Nord, France, resulted in the death of seven miners. Many others were severely injured.

CRIME AND CALAMITY.

Houses Blown Away and Many Badly Injured. At nearly 1 o'clock Saturday morning a

disastrous tornado struck White Oak Station, on the Little Rock and Fort Smith railroad, ten miles West of Ozark, Ark., F. P. Pizer, postmaster, lost his store and residence and probably most of the mail. Three hundred dollars in currency was also scattered by the winds, \$89 being found. He was seriously injured about the spine. L. R. H. Wallace's residence, stables and store occupied by S. C. Cox, were leveled, as were also the residences of J. B. McMurrah and others at that place. The storm averaged three miles in width. Reports of destruction of property and loss of life come from every direction. Thomas E. Ross and wife, and William Herron, one mile north, were fatally injured, and their houses swept away. W. E. McCain, David Hain, John Brazure and Wallace, all lost their houses. D. Wade, Wm. Hann and Seach Harper also lost their build ings. The Union church and schoolhouse a mile northwest, are also in ruins. Daniel Wade lost everything in his house. At Gray's mill, two miles west, one small residence is all that remains standing. F. J. Lewis' house and a half dozen others are in ruins. The ternado reached Conway, Faulkner county, on the same railway, at 3 p. m., from the northeast. No one was killed, but several very badly in

A Clairvoyant's Attempted Revenge A clairvoyant known as Mrs. Waters, of Troy, N. Y., charged recently with caus ing, by malpractice, the death of a prominent young lady, received as a boarder a day or two ago an innocent country girl, aged 19 years. She was unacquainted with the woman's character, and when the clairvoyant asked her to sacrifice her virtue, she took refuge with a neighbor named Mrs. Colton. The designing quack, incensed at her intended victim's refusal to return, threatened to burn Mrs. Colton's house. She mixed a quantity of sulphur, tayenne pepper and kerosene oil, and placed the mixture on a window sill of Mrs. Colton's bedroom. She later discovered the woman in the act of applying a match to the preparation. Foiled in this attempt to suffocate the girl and her protectoress, the clairvoyant endeavored to accomplish her deadly intention by blowing creosote through the keyhole of a door.

Mrs. Colton informed the police, and on her return found her hall floor saturated with kerosene. Mrs. Waters has been arrested and released on bail. She still occupies her apartments and the owner of the building, fearful that she will fire it, refuses to leave the house an ejectment suit will be necessary before the danger of her paesence is removed.

Swollen Waters. Three hundred feet of the Northern Pacific track at Bismarck on the west side of the river, has been washed out, and the lowlands are all under water. Trains are delayed both ways. The river is rising

rapidly.

The Hudson river is rising steadily and is higher than at any other time this year. All indications point to the most serious freshet in years.

A HEARTLESS SON.

The Offspring of a Wealthy Banker Poisons His Father and Mother. A somewhat sensational crime is reported from Lafayette, Ind. On Monday last Thomas Coleman and wife were taken with sudden and severe illness. Mr. Coleman is a retired banker and quite wealthy. It was believed by his physicians that the medicine that he was taking for a slight indisposition had been tampered with and that along with the quinine capsules was a notable quantity of strychnine. Yesterday it became known that this was true and that the poison was put in the medicine by Mr. Coleman's son George, a young man probably thirty years old and of a profligate disposition. He could not be found, having left the city when his crime was known to have been discovered. The only cause assigned for the horrible crime of the son was a desire to obtain his share of the estate, although it is believed that he is mentally deranged. Mr. Coleman, under the skillful treatment of his physicians, had recovered, but his wife is very low and may not survive the

shock. Capture of Frank Hudson The man captured at Midway, Tenn., proves to be Frank Hudson, a member of the James gang. He had shot his mistress in the face, and she called on Detec-tive Rouzas and gave the whole party away. The balance of the gang are within 50 miles of Jonesboro, in the mountains of Virginia. A man at Greenville recognized Hudson as being the same man he saw in jail at New Albany, Ind., charged with express train robbery, and who afterwards escaped. The detectives think he was in East Tennessee planning another raid.

Fatal Shooting in Nashville, In Nashville, Tenn., George Simpson, son of Dr. Simpson, got into a quarrel with Reuben Kigert, and shot Kigert in the arm. Kigert returned the fire, shooting Simpson through the right lung. Simpson staggered across the street and back and fell dead. Kigert gave himself up. Kigert and his friends claim that the killing was in self-defense. Simpson had just returned from Arkansas.

A Sad Drowning Accident At Seven Mile Fork, Mo., William Razor attempted to drive a wagon, in which were his wife and three children, across the St. Francis river, which had been swollen by rain. The wagon was upset, and Razor, his wife and two of the children were drowned.

The blood is the foundation of life, it circulates through every part of the body, and unless it is pure and rich, good health is impossible. If disease has entered the system the only sure and quick way to drive it out is to purify and enrich the blood.

These simple facts are well known, and the highest medical authorities agree that nothing but iron will restore the blood to its natural condition; and also that all the iron preparations hitherto made blacken the teeth, cause headache, and are otherwise injurious.

BROWN'S IRON BITTERS will thoroughly and quickly assimilate with the blood, purifying and strengthening it, and thus drive disease from any part of the system, and it will not blacken the teeth, cause headache or constipation, and is positively not in-

Gents:-Upon the recommen dation of a friend, I tried Brown's Iron Bitters as a tonic and restorative for my daughter, whom I was thoroughly convinced was wasting away with Consumption, Having lost three daughters by the terrible disease, under the care of eminent physicians, I was loth to believe that anything could arrest the progress of the disease, but, to my great surprise, before my daughter had taken one bottle of Brown's Iron Bitters, she began to mend and now is quite restored to former health. A fifth daughter began to show signs of Consumption, and when the physician was consulted he quickly said "Tonics were required;" and when informed that the elder sister was taking Brown's Iron Bitters, responded "that is a good tonic, take it."
