HOUSE FURNISHING GOODS.

L'LINN & BRENEMAN.

In painting a building the most important consideration is to select the very best Paints, by doing so you avoid the expense of repainting before the proper time for repainting occurs. And as the paint costs less than the putting on, what you most want to save is labor. The best paints cannot be prepared by hand-mixing so that that they will prove durable and cover as great a quantity of surface as the best paints which are produced by thoroughly experienced and practical paint makers, with the aid of complete machinery. We have been selling WADSWORTH, MARTINEZ & LONGMAN'S PAINTS for two years and the reports received from all our customers justify us in offering to furnish our pure paints FREE of COST to any buyer who having painted his hailding with our paints can demonstrate that, our paint having painted his building with our paints can demonstrate that our paint has not cost 10 per cent. less for paint used than cost would have been for either pure White Lead and Linseed Oil, or any other mixed paint in the

THE NEW YORK MARKET.

Sumatra-Less active as compared withlast week's exhibit of sales. Nevertheless, the sales reached over 300 bales, but mostly in small parcels. Holders are exceedingly stiff, especially since the report was received of the sale of 8,000 bales on Wednesday at Amsterdam, the prices for which were telegraphed as being extraordinarily high. Exact figures cannot be given, as the bids were not made public at once. Another sale of some 10,000 bales will take place on or about the 8th of May. In this market the desire to invest in the new crop offered at Amsterdam is shown by the almost daily dispatches sent from here by leaf dealers, in order to secure as much of it before the increased duty goes into effect as their finances permit. Quo tations here are from \$1 to \$1.60.

of farmers, most of it is low grade and much absolutely trashy. It is estimated that fully three fourths of the crop of 1882 has been taken, and there will be no difficulty in cleaning up, the balance if farmers will sell for what their goods are There continues to be great diversity of

opinion as to the condition of the crop. Some buyers say their purchases are equal to any ever secured in this county, while others complain that much of it is coarse, short and flea-bitten. Between 400 and 500 cases of old to

bacco were sold last week on private terms. It is understood that holders are a little stiffer in their demands now that their stock is growing less than they were carlier in the season. There continued to be a fair demand for goods from local cigar manufacturers, which indicates that that branch of trade is prospering fairly. Following are recently reported sales of th: crop of 1882:

Probable Murder in Massachusetts. Margaret Patterson, aged 27 was found dead by the roadside near West Stock-bridge, Mass. An Irish girl passing noticed a bundle of old clothing beside the highway, and found a marriage certificate and a photograph of Thomas Patterson inside. She notified Patrick Carr, the father of Margaret, who, near by the spot, under the last remnant of a snowdrift, found the body, thinly clad, with a waterproof and straw hat. Carr says Margaret married Patterson without his consent, and that Patterson, who was a worthless fellow, quarrelled with the girl. The last the father saw of her she said she was going to New York and Patter son to Hudson. Foul play or suicide is

suspected. Celluloid Eye-Glass frames, in their beauty, strength and durability, far surpass the ordi-nary tortoise-shell frames commonly in use. They are superior to all others—For sale by ail leading Jewelers and Opticians.

Feb. 12, 1880. Gents:-Upon the recommendation of a friend, I tried Brown's Iron Bitters as a tonic and restorative for my daughter, whom I was thoroughly convinced was wasting away with Consumption. Having lost three daughters by the terrible disease, under the care of eminent physicians. I was loth to believe that anything could arrest the progress of the disease, but, to my great surprise, before my daughter had taken one bottle of Brown's Iron Bitters, she be-gan to mend and now is quite restored to former health. A fifth daughter began to show signs of Consumption, and when the physician was consulted be quickly said "Tonics were required;" and when informed that the elder sister was taking Brown's Iron Bitters, responded "that is a good tonic, take it."
