

THE TOBACCO MARKET.

IN NEW YORK AND LANCASTER. Sumatra, Seed Leaf and Havana for the Week Ending Saturday, April 28, 10 a.m.

Sumatra—Sales 300 bales. Out of town jobbers and local manufacturers were the main takers. Transactions will not be very extensive in the next few days, as buyers are awaiting samples of the new, which, it is expected, will arrive here next week.

Seed Leaf—White the week just passed has again been marked by a spirit of dejection and general apathy, it can reasonably be expected that the next and some of the following weeks will be characterized by an improvement, at least as far as the number of buyers and the number of transactions are concerned.

Connecticut—Crop '82: 300 cases, 10 1/2 to 11 cents. Ohio—Crop '81: 400 cases, low grades, at 5 1/2 to 6 cents.

Pennsylvania—Crop '80: 200 cases, 7 to 13 cents. Crop '81: 100 cases, reported at 14 cents. Havana—Market very active. Sales 750 bales. Prices from 90 cents to \$1.20.

Sales of seed leaf tobacco reported by J. S. Gans' Son & Co., tobacco brokers, No. 131 Water street, New York, for the week ending April 30, 1883: 250 cases 1882 New England second and fillers private terms; 80 cases 1881 New England, 1 1/2 to 2 1/2; 300 cases 1880-81 Ohio, 4 1/2 to 5 1/2; 200 cases 1881 Pennsylvania, 6 to 10; 100 cases sundries 4 to 15c. Total 980 cases.

The Philadelphia Market. Seed Leaf—Jobbers and packers are very quiet, especially in the handling of old leaf; in fact, for the present the bulk of the time of packers is taken up in 1882 crop, of which a large quantity of various kinds have been packed by our city dealers; nevertheless, a fine line of goods of all grades would be hard to find than that now held by dealers. Prices are moderate so that we look very shortly for "better times."

Sumatra finds favor in a small way, while Havana continues to gradually improve in all grades which deserve attention at all figures. Receipts for the week—151 cases Connecticut, 310 cases Pennsylvania, 51 cases Ohio, 29 cases Wisconsin, 72 cases York State seed, 79 bales Havana, 50 bales Sumatra, and 296 hds. Virginia and Western leaf tobacco.

Sales have been—150 cases Connecticut, 219 cases Pennsylvania, 33 cases Ohio, 40 cases Wisconsin, 52 cases York State seed, 51 bales Havana, 17 bales Sumatra, 52 hds. Virginia and Western leaf tobacco in transit direct to market. Total, 1,001 lbs.

Expected leaf tobacco to Liverpool, 23,725 lbs.; to West Indies, 1,001 lbs. Total, 25,726 lbs.

THE LOCAL TOBACCO MARKET. Buyers Active but Close-mouthed.—Prices Firm. There has been great activity among buyers during the past week, but it is impossible to find out the extent of their operations. Wherever they hear of an unsold crop they post off and look at it, sometimes driving many miles for the purpose. They generally buy, but seldom tell what they pay; and latterly the farmers have become almost as close-mouthed as the buyers, and it is with difficulty the terms of sales can be obtained. It is generally conceded, however, that not one-fourth of the crop remains in the hands of the growers; that a large proportion of it is low grade goods, and the bulk of the good goods remaining unsold will be packed by the growers and held for a rise. A week or two more will probably wind up the season for the purchase of new tobacco.

There was a good deal of activity in the old tobacco market also last week, and the crop of 1881 is growing in favor. Holders are firm, and even those who bought at high figures, and were willing a few weeks ago to sell at a sacrifice are now more hopeful and demand a margin of profit.

Now that the revenue tax on tobacco and cigars has taken effect it is hoped and believed that both dealers in and manufacturers of tobacco and cigars will be benefited, and that there will be more stability in the trade than has existed for many months past.

The farmers are doing very little yet towards getting in the crop of 1883. The unusually backward spring, the succession of late snow storms with frequent heavy frosts, have tended to deter operations. From various sections of the county reports come that the farmers will cultivate less tobacco this year than they have been in the habit of cultivating. The reasons given are that the crop at all times is an uncertain one, subject to ruin by draught, hail, flea-bite and other causes, and that the prices received for the past year's crop were not remunerative, and that larger and surer returns from the output of labor and capital may be made by devoting other crops. Then the reports stated that the importation of Sumatra tobacco would drive Pennsylvania leaf out of the market has had something to do in determining our farmers to devote less time and space to the weed.

Our Bari correspondent says: A few lots of tobacco have been sold in the two past weeks amounting to about 5 acres; we have been unable to get the prices. Kendrick was the purchaser. Buyers occasionally pass through, but do not stop longer than time enough to "wat up" at Fritz', and tell him the market has gone to "scare worth a cent."

PLAIN TALK FROM DR. SWAYNE: To Whom It May Concern: Itching Piles is one of the most annoying complaints known to physicians. Every one can tell whether he is thus afflicted by observing the following symptoms: Intense itching, particularly after getting warm. It seems as if pin worms were crawling in or about the rectum. Small hemorrhoids sometimes form. The private parts are often affected. The more you scratch the worse the itching. Knowing that my condition is superior to any article in the market, I guarantee it to cure the worst case of itching piles in existence.

RESCUED FROM DEATH. The following statement of William J. Coughlin, of Somerville, Mass., is so remarkable that we beg to ask for it the attention of our readers. He says: "In the fall of 1876 I was taken with a violent bleeding of the lungs, followed by severe cough, soon began to lose my appetite and flesh. I was so weak at one time that I could not leave my bed. In the summer of 1877 I was admitted to the City Hospital. While there the doctors said I had a hole in my lung as big as a half-dollar. I expended over a hundred dollars in doctors and medicines. I was so far gone at one time a report went around that I was dead. I was told by a friend to use Dr. Wm. Hall's Balsam for the Lungs. I laughed at it, but I got a bottle to satisfy them, when to my surprise it gratified me. I commenced to feel better. My hope, once dead, began to revive, and I lay in bed better spirits than I have in the past three years.
