Mr. Paul Strobach, who was recently appointed United States marshal for the District of Alabama, has had the misfortune to run afoul of Mr. Brewster Cameron, formerly of this county, one of the principal attaches of the department of justice at Washington, and has had five indictments returned against him for presenting false accounts. He avers that it is a persecution on the part of Mr. Brewster's active assistant and desires a speedy trial. Strobach has long been a figure in Alabama politics. He is a German baron who and profitable field of carpet bag officethen come up to the House, reciting the owingo, the Conewago and Octoraro. well-worn story that if the election had been fair he would have been chosen. Land Reform.

The land laws of Ireland having been so changed that the remnants of feudal ism are doomed to destruction, Mr.Gladstone has now turned his attention to the relations of landlord and tenant in England and Scotland. The bill, which has just been brought in for the purpose, will be the only important domestic legislation of the present session. It has wisely been made a government measure as it is one on which Mr. Gladstone can well afford to go to the country. "OLD SUBSIDY" POMEROY, of Kansas, the Senator Dilworthy of Mark Twain's "Gilded Age" is, it is said, en gaged in a movement to organize a new party on the prohibition idea. This is a mistake for a man who was expelled from the United States Senate for bribery Manifestly his place is in the Republican party, where he suffered the pangs of martyrdom for conscience and party's sake. He was a Christian statesman in the fullest meaning of the term, and it is not in the nature of things that an other party can be organized during the lifetime of any one man, which shall combine in all the elements essential for giving Pomeroy a leading place. He has always been at home in that party. It conferred its highest honors upon him; therefore, why should he desert it? Shall statesmen of his stamp have no gratitude? Shall old acquaintances, old privileges, old immunities all be forgot? Schuyler Colfax (ah! there was the real Christian statesman!) has never indi cated a desire to leave a party which was good to him; and shall Pomeroy, the first flower and fruitage of "bleeding Kansas," prove himself less grateful than the precious smiler of the Hoosier prairies? Surely, a little time and reflection will save Pomeroy from this charge, and the Prohibition party from such an affliction.

THE death by suicide of Amasa Stone, the Cleveland millionaire, is one of those events which overthrows the accepted theories concerning self-destruction. With every outward advantage of wealth, position, occupation, with no greater bodily infirmities than naturally belonged to his time of life, he yet choose, voluntarily, to leave all this and take prematurely the leap in the dark. With a career almost uninterrupted by Wood, of the Catholic church, with a failure, there yet came to him in his later days some financial difficulties which involved the honor of others, his own remaining unstained. This brought depression and, being brooded over, led him to seek that relief which seemed to him beyond human power. Mr. Stone leaves an enviable name behind him. His success never narrowed him. He did not forget his obligations to society, but as he had been freely dealt with in the bestowal of the gifts of fortune, so he gave back with liberal and thoughtful benevolence. That such men should choose death by suicide has had much to dreary orphanage. A quaint old writer do with softening the old feeling which like Gurnall, might then have set forth existed toward this method of death, the state of the case by saying He had until the privileges of the cemetery and Jacob up after Him. MET DEATH IN THE BATH TUS. Cleveland's Leading Citizen Takes His Own

Life-Tragic End of a Romark-Amasa Stone, Cleveland's leading citizen and one of the most philanthropic men of this century, committed suicide yesterday afternoon at his residence on Euclid avenue. Mr. Stone had been suffering for some time from various disorders of the stomach, which produced, among other things, indigestion and insomnia. For the past five or six weeks he has been confined to his house the most of the time, riding out with his family occasionally in the mornings. He has not been able to secure over two hours' sleep out of the twenty-four during the last five weeks. Yesterday morning he

suffered more than usual and appeared very much depressed. He did not arise, as has been his usual custom, but re mained in bed until about noon. He then spoke to members of his family about being much worse and was left alone in his room about 1 o'clock in the hope that he might get a nap. The family not caring to disturb him, did not go to his room until about 4 o'clock. His wife knocked at his door, but received no response. She passed into the room, which is an elegant chamber on the first floor. and found it empty. She found the door of the bath room closed and locked. She called her husband's name, but no answer came. She repeated the call several times, but to no purpose, and concluded that he had fainted. She gave the alarm quickly and Edwards, the butler, was the first to come in the room. He climbed over the transom into the bath room, where a horrible sight met his gaze. He found Mr. Stone in the bath tub.

partially dressed. From the appearance so called private way of executing it, has of his clothing and position in the tub it is believed he got up out of bed, took his bath and had patially dressed himself when he was taken with a sudden attack of mental aberration and shot himself through the heart. By his side on the floor lay a small silver mounted Smith & Wesson revolver, with one of the barrels empty. Death must have been instantaneous. There was no noise whatever and the sound of the shot was not heard.

Mr. Stone was 66 years of age. He came scendant of one of the Pilgrim fathers. His father was a farmer of Charlestown, Worcester county, Mass. Amasa was born April 27, 1818. He learned the carpenter's trade when he was 17 years of age and afterwards was engaged, with his prother, in the construction of railroad bridges. He was married at an early age to Miss Julia Gleason, a native of Warren, Mass. His eldest daughter is married to ill. Col. John Hay, who with his wife sailed from Liverpool yesterday for home, after an absence of over a year. He leaves another daughter, Mrs. Samuel Matthews, and two brothers, Liberty Stone, of Brook-field, Worcester county, Mass., and A. D. His only sister is Mrs. A. T. Burgess, mother of George Howe, collector of cus 1865. Adelbert college, recently comory of the dead son. Mr. Stone was worth about six million dollars, and was a most other manufacturing concerns. He is said iron and steel company failure in Chicago, and the failure of Brown, Bonnell & Com pany at Youngstown, Ohio. He did not brood to any great extent over his financial losses, but they wounded his pride. He considered himself one of the ablest financiers in the country and his recent

losses unuerved him. When the Ashtabula bridge was buil Amasa Stone looked upon it as his pet scheme. He built the bridge as an experiment as well as an investment. After Charley Collins, engineer of the bridge, killed himself for fear of being punished during the investigation of the disaster. or some say he was murdered, Amasa Stone feared he would be legally heid. This fear has been a burden to him ever since and of late, as he became old and childish, he became almost a monomaniac on the subject. In 1845 Stone purchased with others, the right to build the famous Howe bridge for New England, and is said to have made improvements on the structure. He left the bridge business and turned his attention to railroading. being first a railway superintendent and finally a magnate, owning millions of stocks in different roads.

INDIAN CHILDREN. A MONG LANGASTER COUNTY FARMER

Where They are Placed, Want They are Doing and How They are Getting

It may not be generally known, but it is nevertheless a fact, that there are several Indians now living in this county, and instead of being ruthless savages on the warpath with tomahawk and scalping-knife, like those described in the dime novels, they are quiet, inoffensive Christian people following the peaceful pursuits of civilized life. They are pupils from the Carlisle Indian Industrial school and have been placed in respectable families that they may have a better opportunity of learning the English language and of acquiring a knowledge of the agricultural and household arts than they can have at the schools. Following is a list of those now in this county :

"Mary North," a bright, intelligent Indian girl about sixteen years of age, who can speak English very well, and reads and writes very well, and is well posted in all household duties, has been in the family of John Bachman, of Strasburg, for about a year, and is highly esteemed by him and his family.

the family of Henry Huber, at Willow Street. We have not seen him or his em ployer, but learn that he is a faithful,

industrious young man.
"Howard Chawup," "Millie Brown"
aud "Minnie Atkins" are in the family of George Lefevre, of Strasburg. Howard speaks English very well, is polite in manner, genteel in appearance and industrious at work. Minnie and Millie are bright, sharp, intelligent girls, quite equal in every respect to the average white country girl. They read and write well, can run a sewing machine and perform almost any kind of household duties, and are contented and happy in their new

"John Primaux" is in the family of B H. Snavely at Lime Valley; has been there since last full. He speaks English right well, works well, and is in every respects a good faithful boy.

"Frank Morris, a 16 year old Omaha is with C. R. Herr, at Lime Valley. He stands over 6 feet in his mocassins and is as straight as an arrow. He can speak English right well, but is diffident, and seldom speaks unless spoken to. He has a very pleasant face and is of gentle manner. He has been with Mr. Herr only short time, and we have not learned how they get along together; but Frank was a good boy in the school and at the shop at Carlisle, and is no doubt doing well on

"Julia Oldcamp" was for some time in the family of A. J. Groff, of Strasburg. She is a full blooded Indian girl of sixteen, and a good worker, being willing and knowledge of that fact makes her so diffident that it is almost impossible to get a word out of her. Mr. Groff has a house full of children, playful, noisy and talkative as children always are, and it was for the care and companionship of these that he wanted Julia. But though she was kind to them, she entered into none of their sports, and for weeks scarcely uttered a word. As this was not the kind of an attendant Mr. Groff wanted for his little ones, it was arranged that Julia should return to Carlisle until she was further advanced in the white folks' ways -she having come from the western wilds

only a few months ago. A few other Indians have been in fami lies in this county, and all of them we believe gave satisfaction. After the annual examination of the Carlislo school is over several other pupils will be placed

with families in this sicinity. The annual examination will be held at Carlisle barracks on Wednesday, May 23. The programme will consist of the examination in the school rooms commencing at noon. At 1 p. m. there will be dress parade, to be followed by general exercises in the gymnasium from 1:30 to 4:30 p. m. These exercises are very interesting. Several members of the cabinet and mem bers of Congress will be present, together with many other distinguished visitors.

Appointed Guardian. John A. Coyle, esq., was appointed mardian of John Kane, minor son of atrick Kane, deceased, late of this city. Applying for a Mandamus, This afternoon court met at 2} o'clock

when Samuel H. Reynolds, Andrew M. Frantz and B. F. Eshleman, esqs., counsel for the petitioners presented to the court a petition asking for a mandamus on the county commissioners, compelling them to rebuild and reconstruct "Binkley's bridge" across the Conestoga, which was recently destroyed by fire. The petition is signed by Jacob R. Zook, D. Mellinger, George Styer and a number of other citizens of the county and town who have been put to great inconvenience by the failure to have the bridge rebuilt. A rule was granted to show cause why a mandamus should be granted.

Injunction Granted. On petition of Wm. Oster and Valentine Hoffman, the court granted a preliminary niunction against John I. Hartman, predent, and J. Fred Sener, treasurer, of the old Washington fire company, to restrain them from distributing among its mempetitioners, who are members of the com-

KICKED BY A HORSE. A German Hostler Fataily Injured.

Andrew Slattinger, a German, probably 60 years of age, was fatally kicked by a horse at Millersville on Thursday evening. He was employed as a hostler at Christian Herr's hotel, and towards evening Edward Kauffman stopped there, ordering his horse to be put away. Slattinger unhitched the animal and was told to watch that he did kick him. While in the stable the horse kicked him in the stomach and as he was getting up struck him again on the head. He was carried into the house, and medical aid was sent for, but he died about 12 o'clock. There was no inquest. and the body was taken to the almshouse for interment. The deceased had no rela tives in this country, but is believed to have a son in Germany. He had worked as hostler for years and has been in Millersville at different times for a number of years, He went to live with Mr. Herr but a few days ago.
