### MORAVIAN LOVE FRAST.

Address by Kev. Theophilus Richard. There were interesting services at the Moravian church last evening, the occasion being the formal reception of Right Rev. Theophilus Richard, a legate sont by the Moravian fathers at Herrnhut to pay a fraternal visit to the churches in the Unite States, and to inquire into and report upon their temporal and spiritual condition. Rev. Richard is a German well versed in several languages, but not well enough acquainted with the English to make an address in it. He spoke, therefor in German, and his remarks were trans. lated by Bishop Edmund de Schweinitz, who was also present. His remarks were to the effect that though the churches had done much for the cause of Christ, and the spread of the Gospel in all parts of the world, much more might be accomplished by earnest and united offorts of those who are interested in the great work given them by the Master.

At the conclusion of Rev. Richards address, there was a love feast served in the usual Moravian form, during which the choir sang Chadwick's To Deum-the solos being sung by Miss Maggie Potts, Miss Edith Johnston, Mr. John Warfel and Mr. Al. M. Zahm, leader. The piece was admirably executed, as indeed were all the hymns sang during the opening services.

At the close of the love feast the distinguished visitor was formally introduced to each member of the congregation present. The service closed with a bene diction by Bishop De Schweinitz.

BASEBALL.

#### Where the Ironsides Stand.

The Ironsides baseball club have sent a long communication to this paper in order, as the writer states, to set the club escaped from Chief of Police Diechler, right before the public and to give the while being taken to prison, some time reason why they do not play more games. They have already played one game which cost them considerable money, and the uniform on, having enlisted in the regular members had to contribute it out of their army but a few days ago. own pockets; as they are all working men they cannot afford to lose the time and pay their own expenses just to please the public. They have a club of the best materiat in town, but will not play again years and been honorably discharged at until an enclosed ground is secured. The Fort Yates, Dakota territory, reached his reasons they do not play clubs in other home in this city this morning. He is in towns is that those outside of Lancaster fine health and is receiving congratulations have enclosed grounds and would pay the | from many friends Ironside's expense from gate money in case of a visit. A return game could not

be played here for want of a ground. The club now propose to attempt to raise \$500 to rent and enclose a ground. There will be 25 shares at \$20 a share, and these who desire to invest their money can do so and see some ball playing. The members will furnish \$200 of the amount themselves. As for the college club, the writer adds that they will not play them unless they receive \$20 to pay expenses. There is a good deal of sens > in the communication and it goes far to explain why we have no baseball games. Game Postponed.

The game between the Millersville and College clubs was postpoaed to day on account of the absence of several of the latter's players.

#### Supposed Stolen Goods.

The name on the handkerchief found on John Thompson, the man arrested on suspicion, is "H. N. Mitchell," not "Whitehall," as at was made to read in last night's paper. On his person was found a fine pair of gold sleve buttons with links, bearing the initials "T. H.," and a dime, which looks as though it was made for a lady's bangle with a monogram of the letters "M. V. P." All were likely mons Liver Regulator.

### RESCUED FROM DEATH.

The following statement of William J. Cough in, of Somerville, Mass., is so remarkable that wo beg to ask for it the attention of our read ers. He says : "In the fall of 1876 I was taken with a violent bleeding of the lungs, followed

by a severe cough. I soon began to lose my appetite and flesh. I was so weak at one time that I could not leave my bed. In the summer of 1877 I was admitted to the City Hospital. While there the doctors said 1 had a hole in

my left lung as big as a balf-dollar. I expend-ed over a hundred dollars in doctors and medteines. I was so far gone at one time a report went around that I was dead. I gave up hope but a triend told me of DR. WM. HALL'S BAISAM FOR THE LUNGS. 1 laughe at my friends, thinking my case incurable, but I got a !! ttle to satisfy them, when to my sur-

prisea d gratification. 1 commenced to feel better My hope, once dead, began to revive, and to lay I feel in better spirits than I have the past three years. "I write this hoping you will publish it, so

#### that every one affilieted with Diseased Lungs will be induced to take DR. WM. HALL'S BALSAM FOR THE LUNGS, and be convinced that CONSUMPTION CAN BE CURED, I have taken two bottles and can positively say

that it has done me more good than all the other modicines I have taken since my sick ness. My cough has almost entirely disap peared and I shall soon be able to go to work." old by H. B. Cochran, 187 North Queen street
