A Discovery Which is of Incalculable Ber fit to South American Skyllisation, A dispatch from Panama says: The Barilochi pass, between Chili and the Argentine territory, which has been recently discovered, had been long searched for, but the astuteness of the Indians in time of peace and the precautions taken by them in time of war have hithers taken by them in time of war have hitherto prevented it becoming known to the Argen-tines or Chilians. The Jesuits knew of its existence and a century and a half ago un-successfully explored for the entrance to it, while Pessis, author of the map of Chili, confidently stated that the easiest route between the Atlantic and Pacific would become known when the Argentines drove the Indians from the plains and mountains.

It is difficult to over estimate the value of this discovery as it will certainly have an immediate effect in promoting the development of the vast plains of southern Argentine and Patagonia and of the regions now being for the first time explored and opened to civilization by Argentine and Chilian sol-

Swept by a Cyclone. A cyclone swept through Howell county Mo., last Friday and Saturday causing great loss of property. Every house in the town of Moody was blown down and several persons are badly injured. Great damage was also done by a tornado in Mares county. A horse was picked up and carried a quarter of a mile A turtle eleven inches in diameter was scooped out of the creek by the wind and dropped in Vienna, three miles distant. Several persons were severely injured. In Millen county the storm was also very severe. As far as heard from a dozen farms in the neighborhood of Iberia were rained and a school house torn to pieces.
