DENSON'S CAPCINE POROUS PLASTER

THAT SETTLES IT.

At the great Centennial Exhibition of 1876, the leading broducts of all the branches of the World's industry were assembled at Philadelphia. To carry off a prize in the face of that tremendous competion was a task of no ordinary difficulty. Inventions and preparations for the alleviation of pain and the cure of disease were present in the greatest possible variety, representing the skill and the profoundest study of the age, and it may be o vital importance to you, personally, to know that the highest and only medal given to rubber Porous plasters, was awarded to the man ufacturers of BENSON'S CAPCINE POROUS PLASTER, by the following jury :

DR. WM. ROTH, Surgeon-General, Prusslan

Knowing the value of such high and unbiased testimony, the medical profession, both in the United States and in Europe, quickly threw aside the old, slow-acting plasters they had been using, and adopted Benson's in their regular practice. That physicians and surgeons of the broadest reputation did this, distinctly proves the intrinsic merit of the article. It is no more than just to add that the aver-

age physician of to-day is not dominated by the prejudices which retarded the progres and modified the successes of his predecessor of not more than twenty-five years ago. He accepts hints from all quarters and endorses and adops demonstrated healing agents where ever he finds them.

The right of Benson's Capcine Porous Plaster to stand at the head of all external applications whatsoever, for the mitigation or cure of disease, is no longer questioned. Let the purchaser, however, be on his guard against imitations. The genuine has the word

DEVELOPMENTS IN LABOR MATTERS the Demands of the Workingmen-Late

Happenings From all Directious, The end of the shoemakers' lockout in Cincinnati does not, it is stated, affect the lockout of the bootmakers. The boot. makers in six of the ten factories were locked out because, as they say, they refused to agree to submit the question of wages to a board of arbitration. They assert that the manufacturers desire in that way to compel a reduction of wages. The men have adopted a rule prohibiting the members of their assemblies from working extra hours at night, and the same rule has been adopted by all the shoemakers'

The workmen in the rolling mills at Cincinnati have agreed to ask \$6 per ton, and will present the scale of prices to their employers to day. The manufacturers say that "they will agree to no bill of prices not in accordance with the agreement made with the men a year ago, which was to abide by the scale agreed on at Pittsburgh." They say further that 'if the men iusist on demanding other terms and thus violate their agreement, they will make no new agreements with

The bricklayers and master builders in Chicago have compromised on \$4 a day, and agreed to refer their future differences to arbitration.

High Winds and Death. A "double tornado" swept past Clay City, Ind., about 5 o'clock on Monday afternorn, the extremities of the storm being five miles apart. Clay City being in the centre escaped with but little damage; but at Neal's mill ou one side of the town, a house and a bridge were demolished and six persons killed. One the other side of the town several houses "were blown to pieces," five persons were killed and a child "was blown away and has not yet been found." Besides those killed twelve persons were injured.-A torcado at Edinburgh, Indiana, the same evening, blew down the spire of the Metho dist church upon the parsonage, wrecking the latter, and levelling a grove of timber. Farther on a barn was demolith, Arkansas, levelling shade trees and fences and unroofing the Southern hotel.-A wooden flag-staff 50 feet high, on a store in Washington street, Boston, was blown into the street yesterday morning. It fell upon a passing omnibus, crushing in the roof, and knocking the driver to the ground, where he was injured, perhaps fatally, by being run over by a carriage. None of the pas sengers in the omnibus were burt. Part of the cornice of a building was also knocked off and fell upon an waknown man,

fracturing his skull. A Young Woman's Mysterious murder. In Kansas City, on April 17, Miss Anna Bauerlin, aged 25, daughter of a wealthy German, mysteriously disappeared. No clue was obtained until yesterday, when at Boonville, one hundred and fifty miles below, on the Missouri river, a body was found in the river by fishermen and iden tified as that of Miss Bauerlin. There was a bullet wound in the back. The jewelry on the person was undisturbed. The fact of murder is established, but the circumstances remain a complete mystery. Burned to Death.

THE RECORDER'S OFFICE NO MORE. The Bill to Abolish Finally Passed and Sign ed by the Governor.

Harrisburg Dispatch to the Times. The Philadelphia recordership is abol-The governor signed the bill yesterday as soon as it reached him, and immediately messaged his approval to the House, where it was received with applause on the Democratic side. The bill takes effect immediately. The Senate passed it in its original shape, having unanimously stricken out, on motion of Reyburn, the House amendment transferring to the clerk of quarter sessions the duty of approving the liquor license bonds. Reyourn argued that not only was the amendment unnecessary, but it also raised question as to the constitutionality of the bill. After the abolition the approval of the bonds would be done, he said, by the clerk of the quarter sessions, as had been the case prior to the passage of the act of 1875, which gave the recorder a hand in the approval, so that his emoluments

would be increased. The bill having passed the Senate the Republican side gave up the idea of confirming William H. Smith, although they night have enacted the farce before the bill got back to the House for concurrence n the change.

When the bill reached the House Frank lin Hall, its father, moved to concur. Mc-Reynolds and Ammerman, Democrats, opposed this, Ammerman declaring that the striking out was a trap to catch the Democratic House. He feared that if no provision were made for the license this reform bill would strike a snag. Sharpe, THE GREAT HEALTH KEEPER. pressed views like Reyburn's and advo cated concurrence. Crawford backed them up. There were 165 votes for and only 14 against concurrence. Abbett and Builitt were the only Philadelphians voting against it. Franklin Hall ejaculated: Requiescat in pace."

"Hughey, what did Hall say?" inquired Ammerman of Mackin. draw Mackin into another vox populi, vox dei translation.

The Presbyterians at Saratoga Deciare Against Prohibition—An Appeal for the Indians.

In the Presbyterian general assembly Judge Hooper C. Van Vorst offered reso intions of respect to the memory of Judge George Sharswood, a lay commissioner from the Philadelphia presbytery to the assembly.

The temperance committee made its report and after amendments offered by Rev. Dr. Herrick Johnson had been carried, declaring against prohibition as a distinctive measure, but hailing with joy and thanksgiving the efforts to check intemperance and the sale of intoxicating beverages by the power of the Christian conscience of public opinion and the strong arm of the law, the report was adopted, the vote of two thirds of the assembly being favorable to Dr. Johnson's

amendments. The amended book of discipline was then adopted as a whole and sent down to the presbyteries.

A resolution of Dr. Herrick Johnson was adopted that the general assembly shall unite with the Episcopal general convention and the Methodist general conference in asking the United States government to preserve faith with the Indians; to grant them lands in severalty; to prevent intrusions in the Indian territory and reservations, and that the matter be presented to President Arthur and the ecretary of the interior by the special ommittee on a civil government for Alas

Dr. Howard Crosby said that he had presented a similar petition in a former committee and had been snubbed twice by the officials and he had no desire to again present it. He moved that he be excused from serving on the committee and that Dr. Johnson be appointed. He was accordingly excused and Dr. Johnson was

named in his place.

The report of the committee on narrative showed a favorable state of religion in regard to the financial condition of the churches and the growth of Christian activity and beneficence. The matter of the proposed transfer of the Danville seminary to the care of the Southern church, was confided to a joint committee to be appointed from both assemblies. Saratoga Springs was chosen as the place of next year's meeting.

A MARYLAND TRAGEDY.

Wounding an Incensed Father and Marry-ing the Daughter the Next Day. A sensational affair, which has just come to light, has shocked social circles in Bal-timore county, Md. The case is a rather remarkable one, involving the seduction of an estimable young lady, the shooting of ished, killing one man and fatally injuring ter's seducer, followed almost immediate been intimate with the family of Mr. Grover, living a few miles distant, and last winter Miss Alice Farwood spent several weeks visiting the Grovers. While there an intimacy sprang up between Miss Alice and Charles Grover and an engagement of marriage followed. A day or two ago Mrs. Farwood discovered that her daughter was in trouble. She drove to Mrs. Grover's residence and both ladies at once went to Baltimore, where young Grover was stopping. He agreed to make all the reparation in his power by marrying Miss Alice, but upon returning to the country seemed disposed to postpone the

ceremony. Mr. Farwood became incensed, and accompanied by his son, both armed, drove to the Grover mansion at night, and when young Grover appeared fired upon him. After the second shot, neither of which took effect, Grover procured a pistol and shot Farwood through the shoulder. On the following day Grover drove to the county seat, but was not arrested, no charge having been preferred against him. He procured a marriage license, returned to the Farwood residence and married the girl, who, for the present at least, will reside with her parents. It
