TOTICURA.

Fitteen Years of Suffering.—Body Covered with Humor.—Had Twelve Doctors.—Paid Out \$500.—No Cure.—No Hope

Out \$500.—No Cure.—No Hope

I will now state that 1 made a miraculous cure of one of the worst cases of skin diseases known. The patient is a man forty years old; had suffered fifteen years. His eyes, scalp, and nearly his whole body presented a trightful appearance. Had had the attention of twelve different physicians, who prescribed the best remedies known to the profession, such as iodide potassium, arsenic, corrosive sublimate, sarsaparilla, etc. Had raid \$500 for medical treatment, with but little relief. I prevailed ugon him to use Curicura Resouverst (blood purifier) internally, and the Curicura and Curicura Soav externally. He did so, and was completely cured. The skin on his head, face, and many other parts of his body, which presented a most loathsome appearance, is now as soft and smooth as an intant's, and no scar or trace of the disease left behind. He has now been cured twelve months. Reported by

Helpless for Eight Years.—Unable to Walk for One Year.—Got About on Hands and Knees—A Wonderful Cure.

I have had a most wonderful cure of Salt Rheum. For seventeen years I suffered with Salt Rheum; I had it on my head, face, neck, arms and legs. I was not able to walk, only on my hands and knees, for one year. I have not been able to help myself for eight years. I tried hundreds of remedies; not one had the least effect. The doctors said my case was incurable. So my parents tried everything that came along. I saw your advertisement and concluded to try Curicera keysoles. The Curicera brought the humor to the surface of my skin. It would drop off as it came out, until now Lam entirety well. All I can is, I thank you most heartily for my cure. Any person who thinks this letter a traud, let them write or come and see me, and find out for themselves.

A MOTHER'S CRIME.

CUTTING THE THEOATS OF HER CHIL-DREN AND HERSELF. Awful Tragedy at Huntsville-Mrs. Martin Douglass and All Her Little Unes

Found Dead. The people of the little village of Huntsville, in Penn township, Cumberland county, were horrified Friday morning by the information that Mrs. Martin Douglas, and her three children were lying dead in their house, with their throats cut from ear to car. Martin Douglas is a young laboring man and works at Pine Grove furnace, probably five miles or so from his home. His custom has been to go to his work on Sunday evenings, work all the week and return to his family on Saturdays. His children were all small, the oldest being five years and the youngest but six months old. They and their mother were the only occupants of the house, but as Mrs. Douglas' parents lived near and her mother was frequently back and forth it was thought entirely safe for the hus-

band to remain away all the week.

Some months ago, however, the family's physician thought he noticed symptoms of insanity in Mrs. Douglas and so informed the woman's husband, and also her parents, but they saw nothing wrong in the woman's conduct and paid little heed to what the doctor said. Thursday evening Mrs. Douglas' mother was to see her, remaining until about 9 o'clock, the children having been put to bed before she left. She saw nothing in her daughter's actions to cause any suspicion that she was not in her right mind or that it was not entirely safe to leave her alone with her little chil dren. Friday morning, no one appearing outside the Douglas house for so long the neighbors became suspicious that there was something wrong and Mrs. Douglas' mother went to inquire.

Upon entering the house a most horrible sight met her gaze. There lay the three small children in the bed where she had seen them put to their slumbers the even-ing before, but their throats were cut and they were dead. On the floor lay her daughter, the mother of the three lifeless children, with her throat cut and gashed in a trightful manner, and near her lay the razor with which the bloody work was

The mest plausible theory is that the mother in an overpowering fit of insanity committed the shocking deed, though some persons are half inclined to think some one else might have done it. Justice of the Peace Null held an inquest and a verdict was rendered that the mother had killed the children and then taken her own life. The sad affair has cast a gloo m over the whole community.

A FRENZIED LOVER'S ACT

He Changes His Mind About Kuling title tweetheart and Stabs Himself. Jacob Knopfel, a Swiss, 27 years old. started from his boarding house, 1544 N. Sixth street, Philadelphia, about 8 o'clock Friday evening, with the premeditated design, it is believed, of slaying Miss Mary Shibe, a pretty young brunette to whom he had been paying attention and of afterwards dispatching houself. Cheamstauces prevented the consummation of the first part of the programme, but Knopful is in the Pennsylvania hospital saffering from a dangerous wound in the abdomes from a cane sword. Miss Shibe resides at THE PARENTS. 1703 North Seventh street and is 18 years old. She and Knorfel were employed at the Raudelph silk mill, at Randelph street and Columbia avenue. Kropfel had asked her about two weeks ago to marry him, but she refused and had done everything to show that she cared nothing for He had threatened to kill her within a few days. Friday he appeared at the mill with his left hand tied up, and told her he had received that injury in trying to shoot himself in Franklin Square. He called at her home Friday morning and alarmed her so by his actions that she was afraid to return for her dinner.

She had two visitors last evening when Knopfel called. Almost immediately on entering the parlor he drew the stiletto from the case and plunged it into his abdoman Miss Shibe ran up stairs, fearing World's industry were assembled at Philadel- that she would be attacked. Peliceman Foulkred, who was at the corner of Col umbia avenue, was called and had a desperate struggle with Knopfel before he could disarm him. The weapon was badly bent. Knopfel had only a pocket knife

besides. The wounded man was removed to his boarding house and thence to the Pennsylvania hospital in the ambulance. He remarked that he would kill himself yet. His wound is serious. Miss Sallie was greatly unnerved by the affair. She said she believed Knopfel would have attacked her had she been alone and fears that he may return in case her recovers. He has followed her for several nights past on the

TWO NEGROES HANGED

The Execution of John Bailey and Harry At Macon, Ga., John Baily, aged twenty-eight years, and Harry Wimbish, aged thirty, negroes, were executed at ten o'clock on Friday in the presence of a estimated at eight thousand. crowd Bailey murdered Parish Tappan, an old legro, last July, during a dispute over one dollar. He escaped, but was captured in September. He was tried in November and found guilty. Wimbish killed Mor gan Washington, a negro, last June. Both men were working on a railroad shoveling dirt. Wimbish quarreled with Washington and hot words passed. Wimbish told Washington to say "heep" and he would shear him. Washington said "sheep and Wimbish jumped behind him and cut him so that he died soon afterwards. Wimbish was tried in November and found guilty. Both cases went to the supreme court and new trials were refused. Both men were defended by able counsel, who stood by them till the last. The condemned men joined the Catholic church while in prison and spent most of their time in praying. Friday morning they arese in good spirits and appeared ready to die. The morning was spent in devotional exercises. The mon a cended the scaffold with firm steps. They had previously confessed their crimes and made only short statements at the gallows. The drop fell at one o'clock and they were pronounced dead in thirteen minutes. The majority of the crowd present were negroes.

A BROKEN ROPE'S MISCHIEF. One Man Killed and Another Dangerously

Hurt by a Falling Tank. Four men attempted to raise a water storage tank, weighing 375 pounds by means of an inch rope, which only bears a strain of 300 pounds, from the pavement to the fifth story of E. J. Howlett & Co.'s paper ware house, 520 Commerce street, Philadelphia, about half-past 11 o'clock yesterday morning. The rope broke, the tank tumbled and Edward Kelley, of 2555 Mutter street, received injuries that caus ed his death soon afterward, and Joseph McCullough, of 822 Dickinson street, was struck on the head and dangerously hurt. The reservoir was to be used for water

story, the rope snapped and the vat fell. Kelley was crushed under it and McCullough was caught in its rebound from the side walk. McCullough was removed to the Pennsylvania hospital and Kelley to the Episcopal hospital, but died soon af-ter reaching it. A Dangerous Counterfest, A Dangerous Counterfeit,

There are dangerous counterfeits in circulation purporting to be "Walnut Leat Hair Restorer." The strongest evidence of its great value is the fact that parties knowing its great efficacy try to imitate it. Each bottle of the genuine has a fac simile of a walnut hat—blown in the glass: and a Green Leat on the outside wrapper. The "Restorer" is as harmless as water, while it possesses all proporties necessary to restore life, vigor, growth and color to the hair. Purchase only from responsible parties. THOM THE OLD WORLD.

Among the many specifies introduced to the public for the cure of dyspepsia, indigestion, derangements of various kinds, and as a general family medicine, none have met with such genuine appreciation as Hop bitters. Introduced to this country but a comparatively short time since, to meet the great demand for a pure, safe and perfect family medicine, they have rapidly increased in favor, until they are, without question, the most popular and valuable medicine known. Its world-wide renown is not due to the advertising it has received; it is famous by reason of its inherent virtues. It does all that is claimed for it. It discharges its curative powers without any of the evil effects of other bitters or medicine, being perfectly safe and harmless for the most frail woman, smallest child, and weakest invalid to use. Few are the homes indeed where the great discovery has not aiready been halled as a deliverer and welcomed as a triend. It does what others affect to do. Composed of simple materials, it is a marvel of delicate and successful combination. Nothing is wanting. Every ingredient goes straight to the mark at which it is aimed, and never fails. Pleasant to the painte, agreeable to the stomach, and thoroughly effective as a cure, it has won for itself the confidence of all.—Times, London, Eng. From the great London (Eng.) Times.

Sir:—Having suffered from extreme nervous debility for four years, and having tried all kinds of medicine and thange of scene and air without deriving any benefit whatever, I was persuaded by a friend to try Hop Bitters, and the effect, I am happy to say, was most marvellous. Under these circumstances I feel it my duty to give this testimonial for the benefit of others me I may say. I am now en benefit of others, as I may say I am now en tirely well; the efore I can justly and with confidence give personal testimony to any one wishing to call on me. Yours truly,

NORWICH, ENG., June 20, 1828. To the Hop Bitters Co : Gentlemen:—Having suffered for many years from billionsness, accompanied with sickness and dreadful headache (being greatly fatigued with overwork and long hours at business), I lost all energy strength and appetite. I was advised by a friend in whom I had seen such beneficial effects to try Hop fitters, and a tew bottles have quite altered and restored me to better health than ever. I have also recommended it to other triends, and am pleased to add with the like result. Every claim for it I can fully endorse, and recom-

I have had, during the course of four years, three times an inflammation of the kidneys The last, in January, 1880, was the worst; and I took a lot of medicine to cure the same, in consequence of which my stomach got terribly weakened. I suffered from enormous pains, had to bear great torments when takpains, had to bear great torments when tak-ing courishment, had sleepless nights, but none of the medicine was of the least use to me. Now, in consequence of taking Hop Bit-ters, these pains and inconveniences have en-tirely left me, I have a good night's rest, and am sufficiently strengthened for work, while I always had to lay down during the day, and this almost every hour. I shall think it my duty to recommend the Bitters to all who suf-fer, for law every Learnest thems the story fer, for I am sure I cannot thank the ! ord enough that I came across your preparation, and I hope He will maintain you a long time to come for the wellare of suffering mankind.

DARKER'S TONIC. HE REPEATS THE REMARK.

"Will you please repeat that remark, Mr Turning so as to look your representative squarely in the face, the head of the house o Soren Mathison & Co., Pharmacists, No. 1802 State street, Marble Block, Chicago, renlied "Yes, sir, with pleasure. My remark was that we consider PARKER's GINGER TONIC, nov called PARKER's Toxic, the best article of its kind in the market. Our sales for the last six months tell the whole story and settle the question. The Tonic, like a good dinner, carries its own recommendation with it. It's bound to sweep the West like a prairie on fire. In cases of rheumatism, dyspepsia and liver and kidney troubles it scores successes and wins friends every day."

Hiscox & Co. beg to call public attention to the fact that hereafter Parker's Ginger Tonic will be advertised and sold simply under th name of PARKER's TONIC. We make this change for the reason that unprincipled dealers are constantly deceiving their customers by substituting interior preparations under the name of ginger; and as ginger is really an unimportant flavoring ingredient, we drop the misleading word.

There is no change, however, in the prepara-tion itself, and all bottles remaining in the hands of dealers, wrapped under the name of PARKER'S GINGER TONIC contain the genuine medicine if the fac-simile signature of Hrs. cox & Co is at the bottom of the outside BERTGAL.

The decision as afterwards confirmed by the medical jury at the last Paris Exposition. Knowing the value of such high and unblased testimony, the medical profession, both in the United States and in Europe, quickly threw aside the old, slow-acting plasters they had been using and adopted Benson's in their regular practice. That physicians and surgeons of the broadest reputation did this, distinctly proves the intrinsic merit of the article. It is no a ore than just to add that the average physician of to-day is not dominated by the prejudices which retarded the progress and modified the successes of his predecessors of not more than twenty-five years ago. He accepts hints from all quarters and endorses and a lops demonstrate bealing agents wher-The right of Benson's Capcine Porous Plas
