THE EPHRATA CHURCH CASY.

Judge Patterson's Decree Declared Im Following is the opinion in full of the supreme court, written by Judge Paxson, in the Ephrata church case, with the particulars of which our readers are fa

"The decree in this case was entered in the court below by the additional law judge, the president judge being present and dissenting; the court was therefore equally divided and the rule in such cases is that no valid order or decree can be made. It there is a motion before the court it falls. This is the rule everywhere, and it requires no argument to vindicate it. Equal divisions sometimes occur in this court, owing to the absence of one of its members. The only order we can make in such a case is to affirm the judgment or decree of the court below. The plaintiff in error or appellant, who is the actor, fails and his motion to reverse falls to the ground. An affirmance here by a divided court means merely that the judgment or decree below cannot be disturbed.

"In order to reach his conclusion the learned judge who entered the decree below reversed the master and set aside his findings of fact. His decree included an order for perpetual injunction and the disposition of the costs. To all this the president judge, who possessed at least equal power, dissented; he had an equal right to enter a decree embodying his own view of the case. We would then have had the unusual case of conflicting orders issued out of the same court. To state such a proposition as this is to answer it. The learned judge (a. l. j.) below was evidently misled by the case of Cahill, vs. Benn, 6th Binney 99. It does not sustain his position. In that case there had been a trial at law and a verdict for the plain tiff. The defendant moved for a new trial, and upon this motion the court was equally divided. The motion necessarily fell. Afterwards the plaintiff's counsel moved for judgment, and two judges being present, one ordered judgment, as a matter of course, and the other objected to the entry. The prothonotary entered judg-ment and upon a writ of error the judg ment was sustained by this court. It is manifest that the plaintiff was entitled, as of course, to judgment upon the verdict after the motion for a new trial failed, and it would have been wrong to have denied it. This was the view taken by Tilghman, C. J., who delivered the opinion of the court, in which he said : cannot suppose that Judge Campbell meant to act with such impropriety as to arrest the regular course of law, by for bidding the prothonotary to make a proper entry. We rather think that he wished his opinion against the verdict to be entered | they had enough for a fine supper, which on record, and to leave the rest to the law. Any other proceeding would have been highly improper, and we will not, without necessity, suppose that Judge Campbell intended to do what was wrong The distinction between entering a

TWO BAILROAD ACCIDENTS. A Fireman Fatally injured and a Tramp

This morning about 3 o'clock a tramp named Samuel Frost was found lying on the New Holland pike at the point where the new line of the Pennsylvania railroad crosses, by Night Watchman Hickey. The man had been stealing ride on a freight train and had jumped from the train at this point, not knowing that there was a bridge. He was taken to the county hospital when it was found that he was suffering from a severe concussion of the brain besides a four inch scalp wound. Several of his ribs were broken from the back bone. His injuries are so serious that they may prove fatal At the place he jumped the bridge is fif-

THE EXTRA SESSION. A MESSAGE FROM THE GOVERNOR,

An Appeal For the Constitution-The Sen ate Starts Business-Four Committee of Fifteen Senators.

Special Dispatch to the INTELLIGENCER. HARRISBURG, Pa., June 7.- In the Sen ate to-day a resolution was adopted authorizing the president pro tem. to appoint four committees of fifteen members, each, congressional, judicial, senatorial and legislative. Bills were introduced to start the business. A resolution was adopted to begin all business anew at the

close of the session. A communication was received from the governor, who urges the passage of the apportionment bills. He concludes, as follows: "Otherwise we place ourselves in an attitude of hostility to the constitution of the people; we deny them their most important rights; we continue a flagrant legislative default and occupy a position in every way reprehensible, inex cusable and defiant of law."

Cooper proposed an adjournment until the first Tuesday in January next, with the proviso that no pay be allowed in the interim, but at the instance of a number of friends he withdrew it and the House resolution to adjourn until Tuesday, June 19, was concurred in. In the House,

The speaker announced that there would be no change in the committees. A con current resolution was adopted to adjourn to day until June 19. An amendment to adjourn until September 12th had been adopted. Sponsler moved that the mem bers be allowed no payduring the adjournment, which was not seconded. Several apportionment bil's, not differing materially from those already considered, were inroduced.
