#### SIGNIFICANT SPRING.

A Dissertation upon its advent, and it

"The green leaf of the new come Spring. Every body recognizes spring, when it is once upon us, but many persons are not familiar with the exact date of its appearance. Webster, the world-renowned lexicographer, gives usa definition, which may not be inappropriate here. "Spring," says he " is the season of the year when p ants begin to vegetate and rise; the vernal season, comprehending the months of March, April and May, in the middle lati-

tudes north of the equater." Thomson, in his "Seasons," and Snakesp are in many of 1 is works, have, perhaps, no peers in describing it, and yet "etherial spring" is treighted with malaria, "that insidious foe, lurking unseen in the very air we breathe." It spreads over the fairest portions of our land : brings death and disease to thousands; cuts oil scores upon scores of our children and youth, as well as those in advanced life. A pestilence is regarde t with little less apprehansion, and people everywhere are asking, what is it?" "Where does it come from?"

"What will cure it?" KIDNEY-WORT, AS A SPRING MEDICINE. When you begin to lose appetite: -have a headache, a pain in your side, back and shoul-ders;-to toss about at night in restless dreams;-wake in the morning a foul n outh and furred tongue; teel disinclined to go about your work, heavy in body and oppressed in mind ;-have a fit of the blues ;when your urine gets scanty or high colored -to sufferer with constipation, diarrheat, or indigestion ;-have a pasty, sallow face, dull eyes and a blosched skin ; -one or all of these common complaints will certainly be evidences that your liver is disordered torpid, or perhaps diseased. A bottle of Ki iney-Wort is, under such circumstances, a priceles boon

Bare assertions of proprieto s have come o possess less torce than they frequently nerit. The cause of this condition of popular skepticism is, in the main, to be o nd in the fa t that charlatism covers our broad land.

land. Mettorious articles are too trequently found in had company. The proprietors of Kidney vort always preveall their assertions, touching the merits of their preparation. When we affirm, therefore, that Kidney-Wort is a specific for just such disorders as have been mentioned in this article, the proof, too, belongs to and shall tollow this statement.

A PHYSICIAN'S EXPERIENCE. Dr. R. K. Clark, a regular physician o: ex-tensive practice in Grand Isle county, and a worthy deacon of the Congregational church at South Bero, Vt., has used Kniney-Wort for several years in his practice, and before the present proprietors purchased an interest in it, he had given his unbiase t opinion in its tavor. This opinion has not changed. " It has done better than any other remedy I have ever used," says the doctor, and further on he writes: "I do not recollect an instance where the patient to whom I have given it has fai'ed to receive benefit from its use, and in some severe cases most decidedly so," These are strong words. They are from a representa-

true.
Kidney-Wort will bear all the enconium lavished upon it by its triends and their name is legion. "I will swear by Kidney-Wort all the time," writes Mr. J. R. Kanffman, of Lancas'er, Pa. We will supplement this by asserting, as a matter of fact, and one capable of demonstration, that all honest patrons of his reme iy are its friends and advecates.

THE SCHOOL BOARD.

A WARM MEETING ON A WARM NIGHT.

Teacher Appointed-Bills Approved-Revi sion of Kules-Uity Superintendent's Re-port—Amendment of Rules-High School Commencement-A Dash

A stated meeting of the board of directors of Lancaster school district was held last evening. The following named members were present : Messis, Baker, Breneman, Brosius,

Messis, Baker, Breneman, Brosius,
Brown Byrne, Carpenter, Cochran, Darmstetter, Eberman, Evans, Hartman, Johrston, Marshall, McComsey, Morton,
Oblender, Raub, Reimensnyder, Rhoads,
Richards, Ringwalt, Samson Schwebel,
Slaymaker, Smeych, Spurrier, Warfel,
Wilson, Zecher, Christman, Zecher, Geo. W., Levergool, president.
On motion of Mr. Cochran the reading

of the minutes of last meeting were dispensed with. Appointment vs. Election.

Mr. McComsey, from the superintending committee, reported verbally that the temporarily fill the vacancy caused by the resignation of Miss Davis, a teacher in Miss Suydam's West Chestnut primary school. In view of the short time intervening between now and the summer vacation he thought it unnecessary to elect a teacher, and he therefore moved that the action of the superintending committee be confirmed.

Mr. Johnston moved to go into an election to fill the vacancy caused by Miss Davis' resignation. The superintending committee had the right to temporarily fill vacancies, but it was the province of the board to elect teachers. He thought the superintending committee had made a good temporary appointment and he wanted an opportunity to vote to make it permanent. Other members had a right to vote for other candidates if they preferred them.

Mr. Eberman said that at the last meet ing of the board the superintending committee had given assurance that there was no necessity to elect a teacher in Miss Davis' stead; that the teaching force was strong enough without one; and yet, in the face of this declaration, they come here to-night, announce that they have appointed an additional teacher and ask the board to confirm their action. Had it not been for the declaration of the superindending committee an election would have taken place at last meeting, and it is quite probable Miss Falck would not have

Mr. McComsey explained that the committee were of the opinion at last meeting that the additional teacher would not be needed, but further investigation proved that they were mistaken, and they appointed Miss Falck. The committee had no intention of exercising power that id not belong to them, but, as th closes in less than a month, they had ap pointed Miss Falck for that time, and asked the board to confirm their action. Mr. Johnson renewed his motion to go into an election.

Mr. Baker moved to lay Mr. Johnston's motion on the table, and this was agreed to-yeas 18, nays 11. The recommendation of the superintend ing committee that Miss Falck's appoint ment be confirmed until the end of the

season was then unanimously agreed to.

Bills Paid.

Mr. Evaus, from the finance committee, presented the following bills, which, having been examined and approved by the committer, were ordered to be paid : George M. Steinman & Co., hardware, 143 76; John King, night school work, \$10; Sheriff Breneman, costs in case of Lancaster school district vs. Lancaster county, \$1.33; Kanffman, Keller & Co., coal, \$475 67; Lancaster Gaslight and Fuel company, \$33.40; Goo. W. Zecher, to making tax duplicate, \$125; New Kra printing and advertising, \$11.50; Stoner, Shreiner & Co., hardware, &c., \$3.37; W. A. Wilson, esq., professional sorvices in drawing contract for Ann street school house, \$10; Geo. W. Zecher, expenses to Philadelphia, &c., \$3,93; G. L. Fon De:-smith, stationary, \$12.59; Chas. II. Barr,

books and stationery, \$11.70. Revision of Rules. Mr. Byrne, from the special committee, appointed at last meeting to inquire into the expediency of making a general revision of the rules of the board, presented a written report to the effect that while no general revision of the rules was necessary, a number of them should be recast, especially rules 66 to 73 inclusive. The report was received and the recomnendations of the committee approved.

not residing in the immediate vicinity refuse to be attracted thither, and it is therefore suggested that the girls now at-tending the primary schools there whenever prepared to be promoted be admitted into the third division of the Rockland street school, thus constituting it a mixed secondary for the pupils of the immediate neighborhood, and gradually obviating the necessity of compelling those more remote to come thither. The four lower rooms would then correspond to those in Manor, James and New streets which seem to give general satisfaction, while the remaining of their toilets at the coming commencetwo rooms would be used for the regular

boys' secondary.

Considerable difficulty has been, and is still, experienced in maintaining two systems of grades in the primary and second-ary schools, those in the old buildings being organized as three division, and those in the new as two division schools. I can see no reason for retaining this arangement except that it has been customary, and as this is the time when changes in grade are most conveniently made, and as these changes would not necessitate changes in teachers or salaries, and as more than half the schools are now organized on the two division plan, and as this plan is not only more economical but better in other respects, I would suggest that all the schools be organized in accordance with it, thus securing the much wished for uniformity.

Very respectfully, Your obedient servant, R. K. BUEHRLE.

Suggestions Concurred In. On motion of Mr. McComsey the salary of Miss Smith was increased from \$31.50

to \$35 per mouth. On motion of Mr. McComsey the sug gestion of the city superintendent that the girls attending the Rockland street primary schools, when prepared for promotion, be admitted into the third division of the Rockland street school, thus constituting it a mixed secondary for pupils of the immediate neighborhood, was unanimously agreed to.

Mr. McComsey also moved that the suggestions of the city superintendent relative to reorganizing the three-division school on the two division plan be agreed

Mr. Evans maintained that the board was going too fast; that there is a standing rule which requires the several parts of the report of the city superintendent to be referred to the proper committees and lie over for consideration at the next suc eceding meeting.
