The Greatest Curative Success of the Age.

Winston, Forsythe Co., N. C., March 15, 188.
Gents—I desire to express to you my thanks for your wonderful Hop Bitters. I was troubled with Dyspepsia for five years previous to commencing the use of your Hop Bitters some six months ago. My care has been won derful. I am pastor of the First Methodist church, of this place, and my whole congregation can testify to the great virtue of your bitters,

Very respectfully.

Gentlemen—No medicine has had one-half the sale here and given such universal satisfaction as your Hop Bitters have We take pleasure in speaking for their welfure, as every one who tries them is well satisfied with their results. Several such remarkable cures have been made with them here that there are a number of earnest workers in the Hop Bitters cause. One person gained eleven pounds from taking only a tew bottles. Hop Bitters Company—I think it my duty to send you a recommendation for the benefit of any persons wishing to know whether Hop Bitters are good or not. I know they are good for general debility and indigestion: strengthen the nervous system and make new life. I recommend my patients to use them.

Treater of Chronic Disease;
Superior, Wis., Jan. 188).

I heard in my neighborhood that your Hop Bitters was doing such a great deal of good among the sick and afflicted with most every kind of disease, and as I had been troubled for fifteen years with neuralgia and all kinds of rheumatic complaints and kidney troubles, I took one bottle according to directions. It at once did me a great deal of good, and I used four bottles more. I am an old man, but I am now as well as I can wish. There are seven or eight tamilies in our place using Hop Bitters for their family medicine, and are so well satisfied with it they use no other. One ladv here has been bedridden for years, is well and doing her work from the use of three battles.

What It Did For an Old Lady Coshocton Station, N. Y., Dec. 28, 1878.
GENTS—A number of people had been using your Bitters here, and with marked effect. A hady of over seventy years, had been sick for the past ten years; she had not been able to helders. the past ten years; she had not been able to e around. Six months ago she was helplers Her old remedies, or physicians, being of no avail, I sent forty-five miles and got a bettle of Hop Bitters. It had such a effect on her that she was able to dress herself and walk about the house. After taking two more bot-tles she was able to take care of her own room and walk out to her neighbor's, and has inand walk out to her neighbor's, and has im-proved all the time since. Gents—Whoever you are, I don't knew; but I thank the Lord, and feel grateful to you to know that in this world of adulterated medicines there is one compound that proves and does all it advertises to do, and more. Four years ago i had a slight shock of palsy, which unnerved me to such an extent that the least excitement would make me shake like the ague. Last May! was induced to try flop Bitters. I used one bottle, but did not see any change; another did so change my nerves that they are now as steady as they ever were. It used to take both hands to write, but now my good right hand writes this. Now, if you continue to manufacture as honest and good an article as you do, you will accumulate an honest fortune and confer the greatest blessing on your fellow-men that ever was conferred on mankind.

Anna Maria Krider, wife of Tobias K.

Chambersburg, July 25, 1875.

This is to let the people know that I, Anna Maria Krider, wife of Tobias Krider, am now past seventy-four years of age. My health has been very bud for many years past I was troubled with weakness, bad cough, dyspepsia, great debility and constipation of the bowels. I was so miserable that I could eat nothing. I heard of Hop Bitters and was resolved to try them. I have only used three bottles and I feel wonderful good, well and strong again. My bowels are regular, my appetite good, and cough gone. I think it my duty to let the people know how bad I was and what the medicine has done for me, so they can cure themselves with it.

My wife was troubled for years with blotches, moth patches, freckies and pimples on her face, which nearly annoyed the life out of her. She spent many dollars on the thousand infabible (?) cures, with nothing but injurious effects. A lady friend, of Syracuse, N. Y., who had similar experience and had been cured with Hop Bifters, induced her to try it. One Anna Maria Krider, wife of Tobias K.

A Bich Lady's Experience.

I traveled all over Europe and other foreign coantries at a cost of thousands of dollars in search of health and found it not. I returned discouraged and disheatened, and was restored to real youthful health and spirits with less than two bottles of Hop Bitters. I hope others may profit by my experience and stay at home.

I had been sick and miserable so long, causing my husband so much trouble and expense, no one knowing what ailed me. I was so completely disheartened and discouraged that I got a bottle of Hop Bitters and used them, unknown to my family, but when I told them what had helped me, they said, "Burrah for Hop Bitters! long may they prosper, for they have made mother wall and us happy."

My mother says Hop Bitters is the only A Bich Lady's Experience.

My mother says Hop Bitters is the only thing that will keep her from her old and severe attacks of paralysis and headache—ED.

Luddington, Mich., Feb. 2, 1880 I have sold Hop Bitters for four years and there is no medicine that surpasses them for bilious attacks, kidney complaints and many diseases incident to this malarial climate. H. T. ALEXANDER,

seed Leaf, Samatra and Havana for the Week Enging Saturday, June 9, 10 A. M. . S. Tobacco Journal.

The week was a lively one in many respects. The number of sales was quite large when compared with the diminutive-ness of those of many previous weeks. Many buyers were perambulating through the market, and those who sold nothing or bought nothing passed the time in dis-cussing the merits or demerits of the new Sumatra. Leaving aside opinions regard. ing this tobacco, the plain fact remains that beyond all probability our market will offer between 8,000 and 10.000 bales of Sumatra after July 1 next. This means competition that cannot be regulated materially by the quality of the stock. If it is poor, it will sell at low figures, if it is good, it will sell at high ones. Sell it will. To balance this formidable competition, holders of indifferent seed leaf must ex pect hard times in disposing of their stock at paying figures. But even at the best, profits will be very small-so small, in fact, that the packing of leaf tobacco for the jobbing and large manufacturing trade will turn out, at least this season, a most

unrenumerative enterprise. The outlook for a lively export business s not very encouraging so far. The spontaneous exertions of exporters, who will now rush into the market and secure suita ble lots at acceptable figures, and then suddenly become deaf to offers at even ridiculously low figures, cannot be taken as safe prognostications for the export

If a lively export business does not set n soon, all tobaccos but the finest will remain unsaleable at even nominal prices The sales made for home trade last week comprise all crops, and realized very moderate figures. There were reports of sales of about 600 cases of '82 Penn sylvania and about 800 cases of '82 Wisconsin Havana seed for export; but upon investigation it appears that these sales were in reality effected about three weeks ago, and duly noted in these columns. Certain arrangements regarding the transactions were brought to a close this week only, hence the reports. The Pennsylva | ment. nia sold this week for home trade is spoken of has having realized as much as 191 cents. This tobacco is, beyond doubt, at present the superior of all other tobaccos in the market. '82 Wisceasie Havana seed is burying '82 Connecticut seconds and lower grades of Connecticut. New York state Havana seed is showing finely also; and though by no means as good as that of last year, stands a good chance of finding buyers.

A specification of the sales made during the week shows the following : Pennsylvania-Crop '82, 500 cases: highest figure, 19; cents.

Crop '81-300 cases, at 8 to 15 cents. (The reported sales for export are in eluded in the above.)
Wisconsin—Crop '82, 600 cases Havana seed, at 8 to 111 cents.

(The reported sales for export are included in the above.) Connecticut-Crop '82, 250 cases, at 11 to 20 cents. Crop '81-300 cases, mostly wrappers, at

16 to 38 cents. New York state-Crop '82' 300 cases, Ohio-Crop '82, 250 cases; broker who reported it calls it "Little Dutch," and

says it is worth 14 to 151 cents. Sumatra-Very active. All old, sound and dark goods are eagerly sought after; \$1.15 to \$1 50 are the ruling figures. Havana-Market active. Importers are accepting the situation and unloading at reasonable figures. Quotations, 80 cents

The Philadelphia Market.

Seed Leaf-The trade doing in eigar leaf is very catisfactory; in fact, so far this year, sales are far ahead of last. For the month of May the leaf trade was excellent and opens promisingly for June. The '81 Pennsylvania daily finds approval by buyers. Connecticut and Havana Seed always sells. The '82 Connecticut and Visconsin moves off much earlier than

last year at full figures. Sumatra still commands full attention and advanced figures, while Havana moves off in the usual quantities.

Receipts for the Week: 279 cases Con necticut, 303 cases Pennsylvania, 41 cases Ohio, 96 cases Wisconsin, 19 cases York State Seed, 16 cases Little Dutch, 71 bales Sumatra, 117 bales Havana and 241 hhds. Virginia and Western leaf tobacco. Sales have been-236 cases Connecticut,

trade in this city and vicinity. Some 400 cases of old tobacco were sold during the week, portions going to manufacturers in New York, California and other distant markets, and the balance being sold to home manufacturers No figures are given, buyers and sellers alike keeping to themselves the prices paid. The sales embraced goods of all grades, but good fillers appear to be in greatest demand.

The crop of 1892 continues to attract a great deal of attention. As far as the packings have been examined they turn out well, and the belief prevails very generally that when the crop shall be fully cured and sweated and ready for the market, it will show up better than any other crop for many years past. The scattering lots remaining in the hands of growers are being picked up by packers wherever they can be found.

Acres of young plants have been set out in this county—just how many thousand cannot of course be known. The wise ones declare that the acreage this year will be much less than heretofore; but the wise ones have a chronic habit of decreasing the acreage, annually, about planting time, and extravagantly increasing it about buying time. The reason for doing so is easily understood: A short prospective crop stiffens prices and benefits heavy holder, and this is the time of year that the dealers are all approached.

well loaded. Next fall, after they shall have unloaded, they will discover that the crop of 1883 is the largest ever planted, that the planting has been terribly overdone, and that the weed is a drug on the market; that it is of very inferior quality, hail cut and flea bitten, and that there will be no sale for it except at filler prices

It was ever thus, and ever will be. For our own part we can see no signs of a dimunition in the acreage. From almost all the sections of the county, from which we have advices, the acreage will be about the same as last year. Some farmers are, of course, contracting the space devoted to tobacco, but others are enlarging it, thus keeping up the equilibrium very

The weather thus far has been generally favorable for the young plants; the fre quent showers have kept the ground in good condition, and though the sun for a few days was very hot, we hear of but little complaint of the plants being burnt out. The storm of wind and rain on Sunday night and Morday did some damage, but not enough to cry about. The season is sufficiently young yet, to replace all plants washed out or burnt up. The days the flea has not been unusally bad, and with continued favorable weather there is every reason to believe that the tobacco farmer will, as usual, produce a full crop, and that if he keeps himself posted as to the condition of the market, he will receive a sufficient reward for his labor.
