### GEN. CBOOK CAPTURES THEIR CAME

The Indian righters Beturn From Mexico With Nearly Four Hundred Prisoners and Much Plunder-Five Rescued Mexican Women.

A courier arrived at Tombstone, Ari Tuesday night from Gen. Crook's headquarters, at Silver Creek, Ari., bringing the first official information of Crook's expedition. It left United States soil on the 3d of May, marching 200 miles southeast from San Bernardino, on the boundary line of Chihuahua and Sonora, following a trail of the hostiles. Crook was guided by an Apache named Nadaski, who was captured near San Carlos, just previous to the expedition leaving. At a point about 200 miles south of the line the command crossed the Sierra Madres range, advanced 50 miles over an indescribably rough trail, eight mules being killed by falling over precipices, and passed on without delay. The men were rendered nearly barefoot by the sharp rocks. After 14 days' hard marching-

day and night-the Indian camps of Chato and Bonito were discovered in the heart of the Sierra Madres, in an almost impreg uable position. The Apaches did not dream of an attack, for entrance to the stronghold was next to impossible, and the warriors were principally out on a raid under Juh, only 37 bucks being in camp with the women and children.

The San Carlos scouts, under Captain Crawford and Lieutenant Atwood and Mickey Free, chief of the scouts, surrounded the camp before the hostiles were

menced firing upon the camp, creating a perfect panic. A number succeeded in escaping, though nearly all surrendered. Seven were found dead in the camp and five Mexican women and a little girl were recaptured. They were taken from Carmen

and Chihnahua and are now with Crook, in good health. Everything in the camp was burned or carried off by the sconts. Among the property captured were 100 ponies and mules, forty being loaded with plunder, saddles, girdles, clothes, gold and silver watches, and several thou-sand dollars of gold and silver and greenbacks, showing they had been very suc-cessful in their raids. After the fight the most of those who escaped came in. Altogether 383 prisoners were taken. The

instantly killed yesterday by a fall of top instantly killed yesterday by a fall of top coal. McAndrew and a companion were engaged in drilling a hole in the rib of an empty breast. Dinner hour having arrived the latter urged McAndrew to stop work, but as the hole was almost complete he remained to finish it. Half an hour later he was found dead. A large piece of coal fell on his head, crushing his skull. Mc-Andrew was 45 years old and leaves a wife and five children. DARBY'S PROPHYLACTIC Eradicates For Scarlet and Ty-phoid Fevers. Diph-theria, Salivation, Ul-mali Contagious Diseases. Persons walting on the sick should use it freely, Scarlet Fever has never been known to spread where the Fluid was used. Yellow Fever has been cured with it after black vomit had taken place. The worst cases of diphtheria yield to it.

Treating and Quarantining Cattle. The secretary of the treasury has issued a ircular to customs officers containing regulations for the treatment and quarantining of imported cattle. The circular provides that "all cattle arriving in the United States from Europe, Asia, Africa, Aus-tralia or New Zealand, shall be subject to a quarantine of ninety days, counting from the date of shipment. It shall be the duty of the veterinary inspector at each port to see that the cattle imported shall be securely guarded against the risk of transmitting or receiving contagi on uptil they shall have entered the quarantine grounds, and all imported cattle shall be under his control from the time of landing until they reach the quarantine grounds. He shall also be superinten dent of the quarantine, and shall have charge of the grounds, buildings, yards and all property thereto belonging.". Specific instructions are given in regard to the care of the animals, and disinfee-

The ex Chief Carlos Aguero, at the head of a number of bandits, continues to make frequent depredations in the juris diction of Colon. On the Sth instant the band abducted a wealthy proprietor, whose friends had to pay \$3,000 for his ransom. Plantation proprietors have asked per-mission of Captain General Prendergast to organize a guerilla company for selfprotection.

### A WOMAN'S EXPERIENCE.

writes on March 15, 1883, as follows: " During the past three years I have been a great sufferer from a complication of diseases which baffled the skill of the most experienced doctors, as I could not obtain permanent relief by their treatment and prescriptions ; and I have also tried many so-called cures in the medicine line but could get no relief. The pains, aches, and weakness increased so rapidly and constantly that I was so reduced in strength as to be unable to leave the bed, and CATARRA. Sanford's Radical Cure. Sanford's Radical Cure.

Knees.—A Wondertui Cure. I have had a mest wonderful cure of Salt khenm. For seventeen years I suffered with Salt Khenm; I had it on my head, tace, neek, arms and legs. I was not able to walk, only on my hands and knees, for one year. I have not been able to help myself for eight years. I tried hundr.ds of remedies; not one had the least effect. The doctors salt my case was in-curable. So my parents tried everything that came along. I saw your advertisement and concluded to try CUTICURA REMEDIES. The CUTICERA brought the humor to the surface of my skin. It would drop off as it came out, until now I am entirely well. All I can is, I thank you most heartily for my cure. Any person who thinks this letter a frand, let them write or come and see me, and find out for themselves. WILL MCDONALD, Ko 200 Desting the full.

Skin Diseases.

**Out \$500.**—No Cure.—No Hope. I will now state that I made a miraculous cure of one of the worst cases of skin diseases known. The patient is a man forty years old; had suffered fifteen years. His eyes, scalp, and nearly his whole body presented a iright-ful appearance. Had had the attention of twelve different physicians, who prescribed the best remedies known to the protession, such as iodide potassium. arsenic, corrosive sublimate, sarsaparilla, etc. Had paid \$500 for medical treatment, with but little relief. I prevailed upon him to nase CUTICURA RESOLV. EXT (blood purifier) internally, and the Curi-cura and CUTICURA SOAP externally. He did so, and was completely cured. The skin on his head, face, and many other parts of his body, which presented a most loathsome appear-ance, is now as soft and smooth as an infant's, and no scar or trace of the disea-e left behind. He has now been cured twelve months. Re-ported by F. H. REDWN Fag. Barnwell S. C.
