 THE ABORTIVE TREATMENT OF VARIOLA.

By W. H. Clatsop, M. D., of Philadelphia, Pa.

Medical and Surgical Reporter.

The *Soerens* of last year contained a contribution from the pen of Dr. De Caillh, of St. Louis, Mo., styled "Variola-its treatment, its prophylaxis," in the reading of which I was much interested, although unable to agree with the writer in his views respecting the utility of vaccination. It was with what he styles the French abortive treatment I felt most interest. The doctor states that during his last sojourn in Paris, Dr. Mene, connected with one of the children's hospitals of that city, explained to him the benefits of his (Dr. Mene's) abortive treatment of variola, and that since his return to the United States he has tested his efficacy frequently, and has recommended it to many of his brother practitioners with satisfactory results. This was the use of salicylic acid.

Having been practicing medicine between twenty and thirty years, I have had during that time hundreds of cases of variola to treat, the disgusting character of which, together with the often unsatisfactory results, made me wish for some better methods of treatment than that usually resorted to, and desirous of trying this to me new remedy.

It was not until April last that I had an opportunity of testing its action, when I was sent for by Mr. W., aged 74 years. I found him literally covered with variolous eruptions in the vesicular stage, and commencing to umbilicate. He had up to this time ordinary good health, but was somewhat enfeebled by age.

To prevent injury through fear, it was thought best to conceal from him his true condition, and he was led to believe that he was suffering from *nettle rash*, and was not aware of the reality until well, so that on one occasion of my visit he said to me, "Doctor, I think I once had a kind that had the same disease I have," and then went on to describe the condition of the animal. I need not say that we were amused. I immediately commenced the giving of salicylic acid in doses of ten grains. It was given regularly every two hours, day and night, in a liquid form combined with musilage.

On the third day of its administration the pustules began to abort, their contents absorbed gradually, leaving a *pale, thin scale*, the scales remaining a minute or so. These scales separated so rapidly that large quantities were removed each morning when changing the bed linen.

In two weeks the patient was convalescent, after which the itching continued one week longer in same dose three times a day. He is now as well as before the attack. The result has been most satisfactory. The loathsome disease is robbed of its horrors by this remedy. Nippling, no disfigurement, when I earnestly call the attention of my professional brethren to its use. It is true, I have but the one case to offer; but had I a thousand more to treat, I would use it in all.

Non-Bearing Apple Trees.

For the INTELLIGENCER.
 Now is the time (about the 20th of June) to peel your non-bearing apple trees. Cut with a drawing knife near the base of the tree upwards; then near the limbs downwards; peel the bark clean from the trunk of the tree; sap will then run out of the top bark and over the peeled trunk with a gum. That at once forms new bark. This treatment will make a great improvement on a poor bearer, or on a wild tree that bears poor fruit.

Set up a board to shield from sun and wind, so that the sap will not be dried up before covering all the peeled wood. No danger of killing the tree. I have made good bearers out of scrubby trees and again. Let some of your horticulturists experiment. S. E. KELLER, CONEWAGO, Lancaster county, Pa.

NEVER FAILS

SAMARITAN NERVINE.

"YOU CLAIM TOO MUCH FOR SAMARITAN NERVINE," says a skeptic. "How can one medicine be a specific for EPILEPSY, DYSPEPSIA, ALCOHOLISM, AND ALL KINDS OF NEURALGIA, RHEUMATISM, SPASMODIC AFFECTIONS, OR SEMI-CLERICAL AND OTHER AFFECTIONS?" We claim it a specific simply because the virtue of all diseases arises from the impure blood, and the impure blood, and laxative properties meet all the conditions herein referred to. It is known world wide.

HIGH & MARTIN.

Small Pills from DR. SWAYNE-76 whom all Physicians are recommending. It is one of the most annoying complaints known to physicians. Every one can tell whether he is thus afflicted by observing the following symptoms: Intense itching, particularly at the rectum. It seems as if pin worms were crawling in or about the rectum. Small lumps sometimes form. The private parts are often affected. The more you scratch the worse the itching. Knowing that my opinion is superior to any article in the market, I guarantee it to cure the worst case of itching piles in existence.
