Some More New Cases Developed Dr. Fitzpatrick, the health commission er, reports that Lewis Strable, residing at No. 32 West Strawberry street, is suffer ing from confluent smallpox. He was next to the county hospital.

A little daughter of George Gardner. 324 Green street, has been reported to the board of health by the attending physician, as suffering from smallpox. Mamie Bonasch, aged 7 years, of No

410 North street, whose mother has just recovered, is down with the disease. Mrs. Afbert Ream, who with her two children has been living with her sister in law, Mrs. Barnitz 328 West James street, was yesterday reported to the health commissioner as suffering from varioloid, and she was advised to go the hospital. This morning when a physician called, the house was found to be locked up and repeated knocking at the door failed to clicit a response. The neighbors me much exercised over the matter, as it.

woman and her children. There are reports of one or two other eases which the health officer has not yet had time to investigate

is not known what has become of the sick

Grossly exaggerated raports have bee: but in circulation regarding the prevalence of the disease in this city. The only means of putting a step to these reports is to publish the actual facts as nearly as they can be ascertained, and this is what the INTELLIGENCER has tried to do. From the board of health we learn that the entire number of cases since the disease first manifested itself two months ago 1: 59 Of this number, 32 have been cured, 12 died, and 12 are under treatment. Of these now under treatment only four are con sidered bad cases. Of the 12 deaths six

were in the Carr family, two at Proctors. two in the jail and one each at Raymonds and Franklins, and in every instance wa believe the patients who died were navae One bad feature of the disease is that it is spreading to different sections of the

city-east, west, north and south. There appears to be a great necessity for the es tablishment by the city of a smallpox hospital, and conferring on the board of health sufficient power to remove sufferers to the hospital. The city councils are receiving much censure for their refusing to confer additional power on the board of health, and their neglect to take any effective means to check the disease, which if not stamped out during the warm weather will be very hard to manage when winter sets it.

We renow our suggestion, made some days ago, that the old Boardman mill on the Conestoga be fitted up as a smallpox hospital. The suggestion has received very general favor and the cost would not be heavy. It has also been suggested that St. Joseph's hospital might be reuted for the purpose and occapied at once; but the location is much less desirable than Boardman's mill.

Our county hospital should be at once sonnected with the telephone exchange, so that the health commissioner could readily communicate with the hospital. Much valuable time is now lost in making visits d fro to arrange for the removal of patients. Besides, the telephone could be put to a hundred other uses. Business men find it indispensible, and it is amazing that the poor directors do not arait theur spives of its many advantages.

The Indigent Immigrants Sent Here Over Canadian Territory. Washington, July 9 .- Special Agent Iowell, now at Plattsburg, N. Y., has called the attention of the treasury department to the large number of immigrants arriving at Quebec and Montreal, and says that many of them are almost destitute, "having neither money nor friends and are too feeble by reason of age or infirmity to sup port themselves." He says that most of this class are paupers who have been assisted in procuring passage and are ticketed to points in the western part of the United States. The special agent is informed that 28 persons who had left Ireland only twenty days before were found helpless and starving in the streets of Buffalo, N. Y., and were committed to the Erie county almshouse on the 25th of June. All of these people come into the United States via. Canada.

The Canadian steamers engaged in importing cattle to Great Britain make very low rates for this class of immigrants from Ireland to Canada He says he is also informed that a large

number of "state aided" immigrants are to leave Foyrus, county of Limerick, Ireland, on the next Allen steamer and are to be sent at once from Canada into the

It is stated at the treasury department that there is no law to prevent pauper immigration through Canadian territory.

DARKER'S TONIC.

With Pen and Pencil. "No, sir , I don't believe newspaper in : are any more dissipated than any other class of men who carn their living by their brains, said Mr. A. E. Siegfried, manager of the ac

Press. Still, those of them who do work are

tempted to stimulate, for it's very hard or tne nerves and stomach." " As for example - ?" " As for example, in my own case, I stuck i my desk on this paper until my nerves were like a bunch of telegraph wires after a gale and my stomach kept about as good time as a two dollar watch. My friends suggested this and the doctors advised that, but one day I 'caught on' to an 'ad,' of PARE-ER's TONIC, and tried it. I have never endorsa proprietary medicine before, but I shall de-

PARKER'S TORIC. As unprincipled dealers are constantly deceiving their customers by submitting interior articles under the name of ginger, and as ginger is really an unimportant ingredient, we drop the misleading word. There is no change, however, in the preparation itself, and all bottles remaining in the hands of dealers, wrapped under the name of PARKER'S GINGER TORIC, contain the genuine medicine if the fac simile signature of Hissox & Co. is at the bottom of the outside wrapper, july!-Imd&w

NEW ADVERTISEMENTS.

TONDAY-FAIR AND COOLER,

Summer wrappings should be a lady's care in turning her face to the seashore. There are two kinds. She may be wrapped up in her own comfort—that's right -that means the heavier one to protect the shoulders in the chillier return from the evening drive. No matter about looks. as it's in the gloaming. Or she may wrap herself in her own pride, and that's · right, toomebbe. This ought to be a deal lighter wrap than the other and easily laid aside. We are running just now on two kinds of this sort and the race is just about neck and neck. The old favorites, Zephyrs and Shetlands in all colors, are selling at prices ranging from 75c to \$5, and are such as will satisfy the buyers to

take the shawls at, on sight. Then there is the newer aspirant for favor and claiming to be a bit "tonier." The Colored Cashmere Shawls in sky, cream, cardinal and black. If price is any object, please see if our \$2.25 is elsewhere sold, as some say it is, for \$2.50.
